Notes:

- These drawings reflect existing compartmentation and are not an assessment of the building
- Base survey/drawing information provided by HSE, OCM and OSC i.e. MJP did not survey the building
- MJP did not audit the completeness of the compartmentation i.e. these drawings are not to be interpreted as affirmation of the completeness of compartmentation or adequacy of existing fire doors

indicative location of one hour compartment lines based on visual inspection of fire door locations

indicative location of half hour sub-compartment lines based on visual inspection of fire door locations
