

Clarifications and Responses

Message Ref No:	RFT ID and Section (If applicable)	Question	Contracting Authority Response
37433	2408281 DPS for the Provision of Legal Research Expertise to the Law Reform Commission	I note that the call states that the Law Reform Commission invites applications from companies, sole traders, academics and researchers. However, the Applicant Response Document seems geared towards companies or sole trader. As an academic, how do I complete the Applicant Statement or the Declaration as to Personal Circumstances? Who am I to name as the Authorised Signatory and Name of Entity? Should I complete the application as a consultant or an academic within my institution?	As an academic/ individual you may name yourself as the Authorised Signatory and Name of Entity. You should complete the application as an academic. Your current employment is fine to include as a previous reference contract.

Office of Government Procurement

Also, in relation to the 'Previous Reference Contracts' section, as an academic does my current employment count as such a contract or is this not appropriate to include?

Any guidance you can give in this regard would be much appreciated.
