1. DESCRIPTION OF THE CONTRACT BEING PROCURED

1.1 Background

An Post is the Irish Post Office and was established as a commercial company in 1984. It operates the national postal service as well as various money transmission, savings and retail services such as foreign exchange, bill payment and insurance throughout Ireland and also provides agency services for Government departments and other bodies.

AN POST has a network of circa 900 post offices and c. 120 Delivery Service Units nationwide. The Group produced revenues of €881.1 million during 2022, servicing some 2.4 million delivery points and handling transactions with an annual value of €13.4 billion over its counters. It also runs the GPO Witness History centre. Further information concerning An Post and its activities is available at <https://www.anpost.com/About> for more information.

1.2 Summary of Requirements

An Post is seeking to establish a qualification system (panel) to meet its requirements for Financial Services to support the ongoing activities of the Authority.

The Irish banking sector has undergone some significant changes in recent years. The number of retail banks has reduced to 3 (AIB, BOI, PTSB) with the closure of Ulster Bank and KBC. There are a number of alternative financial services providers including non-bank lenders, Credit Unions, Revolut and An Post amongst others.

An Post's retail network is the largest in the country with circa 900 active post offices, serving over 1.5 million customers per week. Despite Ireland's low population density, post offices are within manageable reach of the vast majority of households. Around 93% of the population lives within 5 kilometres of a post office and nearly 99.9% of the population lives within 10 kilometres.

Financial services offered to retail customers generally fall under four pillars namely, savings and investments, lending, payments and insurance. An Post is seeking to establish a qualification system (panel) to meet its requirements for Financial Services to support the ongoing activities of the Authority.

An Post businesses are managed under the umbrella of the Group Board and members of the executive team take on direct responsibility for the business activities mentioned above. In line with similar corporate groups there is from time-to-time transactions, business reviews and issues of a commercial nature when Financial Services advisors may be required.

Future requirements in this area may include (but are not necessarily limited to) the following:

- Savings and Investments
- Payments
- Insurance
- Loans
- Banking Transactions
- Other Related Areas

The qualification system is a means of qualifying and identifying firms suitable for consideration for opportunities, relating to the scope outlined in this questionnaire, for contracts, contracts with options or framework agreements, as and when requirements arise.

It is emphasised that membership of the Qualification System constitutes no guarantee to be invited to tender or to purchase a specific quantity of supplies or services from a particular economic operator. Indeed, An Post reserves the right to operate outside of the Qualification System at its discretion, particularly should it become apparent that doing so would offer greater value for money.

Applicants will be expected to demonstrate to AN POST's complete satisfaction that they have the capacity and capability to provide all of the services required.

The requirements contained in this notice are based on AN POST'S current requirements which are indicative only, are not exhaustive and are subject to change in line with the business needs and ongoing operational requirements of AN POST.

Full Specifications of the services required will only be provided at Tender Stage. Details of how An Post will operate the Qualification System and instructions for Applicants are set out in the following sections.

The requirements contained in this notice are based on AN POST'S current requirements which are indicative only, are not exhaustive and are subject to change in line with the business needs and ongoing operational requirements of AN POST.

1.2 Numbers admitted to the Qualification System

There will be no limit on the numbers admitted. The names and details of those admitted will be confidential and will not be released to any members of the Qualification System.

1.3 Duration of the Qualification System

The Qualification System will operate until the 27th November 2033.

For the avoidance of doubt, An Post confirms that the period of any contracts or frameworks awarded under the Qualification System may extend beyond the date of expiry of the system itself.

An Post reserves the right to extend or close the panel early in line with Operational Requirements.

1.4 Operation of the Qualification System

An Post will use this Qualification System as and when requirements within its scope arise. It is An Post's intention to issue its requirements in the form of Invitation to Tender competitions as applicable. An Post may, where it deems it advantageous to do so, issue a requirement to all members of the Qualification System. Full Specifications of the services required will only be provided at individual tender stage.

For the avoidance of doubt, admission to the Qualification System constitutes no guarantee that any particular quantity of services will be procured from any member.

As a condition for the establishment of the Qualification System, An Post, at its sole discretion, reserves the right to engage in separate procurement procedures outside of the Qualification System for any contract arising within the lifetime of the System.

1.5 Form of Call-Off Contracts under the Qualification System

An Post intends that any such call-off contract shall be in the form of a An Post standard Service Level Contract. An Post however, reserves the right to use another form of contract should An Post deem it more suitable.

Where applicable, if any tenderer intends to process any data associated with the services required under a Contract that is subject to an EU Commission Adequacy Decision they must provide full details in their tender submission of how they intend to meet An Post requirements and should they be successful, how they intend to continue with the service provision should the Adequacy decision be revoked or not renewed during the term of any Contract awarded by An Post.

When procuring energy using products, equipment and services that have, or can have, an impact on its energy performance AN POST shall inform suppliers that energy performance is one of the evaluation criteria for procurement.

Where applicable, AN POST will define and communicate specifications for ensuring the energy performance of procured products, equipment and services.

In this regard, An Post may ask suppliers as part of the Procurement Process to provide information on their carbon footprint / energy performance and on the sustainable practices and steps they plan to minimise and reduce the environmental and social impacts of their products and services and assist in the development of sustainability and green initiatives within AN POST.

An Post may, over the term of any contract awarded, seek to engage with its suppliers through assessment and audits including the use of third party auditors and assessors acting on behalf of An Post . This will assist An Post in evaluating the sustainability of its supply chain including the calculation of emissions associated with the works, goods and/or services which we procure.
