FRAMEWORK RULES

1. The Framework

- 1.1 The **Employer**, as defined in at paragraph 1 of the Agreement, has established a single operator framework for the provision of Maintenance Services for the as specified in the Tender documents and the Employer's written notification to the Service Provider of his/her inclusion on the list of Participants in the Framework.

The framework consists of a **Framework Agreement** between the **Employer** and the **Participants**. Each Framework Agreement incorporates these rules.

- 1.2 If, during the period starting on the date of formation of this agreement and ending on the date of expiration of this agreement [being the date of formation of the agreement plus the duration in days], (the **Framework Period**), the Employer needs services as described in rule 1.1 above, the Employer may procure it by awarding **'Call-Off' Contracts** according to these rules. The Employer may also procure the services in other ways and does not guarantee that any services will be procured under these rules.
- 1.3 The Framework Period will be for an initial term of 12 months (1 year) with an option to extend annually for 3 further periods of 1 year to give a maximum 4 years.

2. Participants

- 2.1 A Participant, whose Framework Agreement has been terminated will no longer be considered a Participant under these rules.

3. 'Call-Off' by Competition

- 3.1 The Framework is being established to procure Maintenance Services for Piped Process Gases Systems

3.2 Number of Participants to tender Call-offs

Where the Employer estimates the fee level of the call-off to be > €50,000 (excl. VAT) the works will be tendered by the College.

When the Employer decides to procure work under these rules, the Employer will send to each Participant that appears to the Employer to be capable of performing the relevant contract a **written invitation to tender**, in line with the methodology outlined under 3.2.

3.3 Method of Shortlisting Participants to tender Call-offs

In shortlisting / assessing whether a Participant is capable of performing the relevant call-off contract, TCD will have regard to the following factors:

- ☐ The Participant's specialist skills and/or works experience as demonstrated in their tender.
- ☐ The Participant's framework marks achieved in the framework submission
- ☐ The Performance Capacity of the Participant:
 - where it is currently performing works under the Framework or otherwise.
 - where it is applying for more than one project or to provide more than one service.
- ☐ The performance Level and standard of services provided by the Participant.
- ☐ such other factors as the TCD considers appropriate in assessing whether any framework member shall be invited to tender for a particular 'Call-Off' contract.

Where the above does not adequately shortlist to the required number of participants, TCD will use the following random selection mechanisms to arrive at the final list of participants to be asked to tender:

- by using an electronically activated selection programme to draw out the appropriate number of names for the primary consultancy services tender list and a secondary consultancy services tender list, listed in numerical order, whereby should any member of the primary list be unavailable to return a tender then the secondary list is utilised in ranked order.

The Random Selection procedures above will be independently monitored and verified by a third party within TCD.

The shortlisted participants will then be contacted by TCD and asked to confirm their interest in tendering.

Where a shortlisted participant declines the opportunity, TCD may supplement the final list by:

- Reviewing the shortlisting process to establish what reasonable adjustments can be made to the shortlisting factors to bring the number to be asked to tender to the required level.
- Where the random selection procedure was applied: re-running the random selection procedure on the participants that were not initially successful.

3.4 Material Change to Tender: As part of the invitation to submit a tender for a 'Call-Off' contract or at any stage during the Framework Period, the Employer may require Participants to confirm that there has been no material change to their tenders as submitted for appointment to this Framework Agreement (for example, no change to the key personnel). To the extent there has been any such change, such changes are subject to the approval of the Employer, acting in its sole discretion. To the extent that the Employer considers there has been a material adverse change, the Employer reserves the right not to invite the relevant Participant to participate in the tender for the relevant 'Call-Off' contract or to terminate their participation in the Framework.

3.5 Invitation to Tender: The invitation will be sent to each short-listed Participants via their primary contact details as provided by the Participant.

The invitation will include [or refer to] the relevant particulars and include details of the required Services.

The invitation will fix a time limit for Participants to send in tenders taking account of such factors as the complexity of the subject-matter of the 'Call-Off' Contract and the time needed to send in tenders.

- 3.6 The award process for Services Contracts tendered under this rule 3 will be conducted in accordance with these rules and any procedures stated in the invitation to tender.
- 3.7 Participants wishing to be considered for a Services Contract must submit a tender complying with the invitation to tender.

Tenders must propose resources (including key persons) that are consistent with the Participant's tender proposal for its Framework Agreement or subject to the approval of TCD, other suitably and matching qualified and experienced personnel.

3.8 The award criteria for 'Call-Off' Contracts will be as follows:

- A. Where the Employer can define the scope of the service required and estimates the fee level of the call-off to be less than €50,000 (ex. VAT):

- 1. Price

4. Performance Review, Termination and Promotion

- 4.1 The Employer will review, on a continuous basis, the Service Provider's performance according to the Key Performance Indicators (KPIs) as established and agreed between the Service Provider and the Employer at project initiation and at the start of each project stage. The Service Provider must support the Employer in establishing these KPIs and must provide any information required by the Employer to facilitate this process. Project / Stage KPIs may include:
 - 1. Agreed management and personnel resources to be provided.
 - 2. Dates to produce key studies, reports or other documents.
 - 3. Agreed scope and quality of studies, reports or other documents.
 - 4. Accuracy of Cost Information.
 - 5. Attendance at Client and DT meeting.
 - 6. Timely Issue of regular progress reports
 - 7. Any other issue considered relevant to the project in hand.
- 4.2 If the Employer establishes at the End of Stage review between the Participant and the Employer that the Participant has failed to achieve the pre-agreed and planned stage KPIs, the Employer may issue a Warning Notice and suspend the Participant from further call-off competitions pending the Participant reaching agreement with the Employer that he/she has adequately addressed the deficiencies leading to the KPI failures.
- 4.3 If a Participant receives two Warning Notices during the Framework Period the Employer may terminate that Participant's Framework Agreement.
- 4.5 The Employer may use the information collated for the above performance measurement (or any other information lawfully accessible to the Employer) to carry out a performance assessment of the Service Provider for future reference.
