Trinity College Dublin, the University of Dublin ("**Trinity**") is Ireland's leading university. Further information on Trinity can be found on the website – www.tcd.ie

Trinity has a wholly owned subsidiary, Ghala DAC, which is involved in the development of Trinity's capital works programme. Trinity reserves the right that any Contract awarded may subsequently be novated to an entity wholly or partly owned by Trinity or by Ghala DAC.

1.2 About Trinity College Dublin

As Ireland's oldest University, Trinity has a long heritage and connection to sport, which includes a range of clubs who were formed in the 1800's. The swimming pool caters for all user groups, and includes regular club training sessions, open lane swimming, and swimming lessons, with over 85,000 swim visitors per year. Trinity Sport aligns with the strategic mission of the University and aims to bring '*Sport to Heart of the Trinity Experience*'.

1.3 Description of Service Requirements

Trinity College Dublin, the University of Dublin, invites tender proposals for Swimming Pool and Plant Maintenance Services to the TCD Sports.

The University of Dublin, Trinity College, invites tender proposals for Swimming Pool and Plant Maintenance Services, for an initial period of two years with two (4) possible twelve (12) month extensions available, up to a maximum total of Four years. The new contract is set to commence as of Q3 2026. Regular scheduled performance reviews will take place throughout the course of the contract

The Contracting Authority estimates that the expenditure on the services to be covered by the proposed services contract may amount to some **€220,000.00** (Ex-vat) over the Term and any possible extensions. Tenderers must understand that this figure is an estimate only based on current and future expected usage. Spend per annum per Lot is estimated as follows

Maintenance and Minor Remedial Works.

This tender relates to a maintenance contract for the servicing and upkeep of the specified equipment and plant. The Contract shall include the execution of repairs and remedial works identified during routine maintenance activities, up to a value set out in the framework rules.

Where the value of any required remedial works exceeds this threshold, such works shall be treated as additional works and will be subject to separate approval in accordance with the Contract provisions.

For full Specifications and Requirements see Document **2. Specifications and Requirements**

Part 2: Procurement Process

Trinity College Dublin will employ an Open Procedure for the award of this framework agreement. In accordance with the provisions governing the conduct of the open procedure, any interested economic operator may tender for appointment to the framework agreement. In the first instance, the Tender Responses will be assessed against the selection criteria as set out in Section 5.2 of this document. Tenderers meeting the requirements under the selection criteria will then be assessed against the award criteria, rules and weightings contained in Section 6 of this document. The tenderer identified as the most economically advantageous tenderer when assessed against the award criteria will be offered a place on the framework.

Single Party Framework

A single-party framework constitutes a means of establishing overall terms and conditions in accordance with which, for a specified duration, individual contract(s) may or may not be awarded. In the context of a single-party, the Contracting Authority has set out in a separate document the framework terms and conditions that are applicable to the operation of this single-party framework agreement. The framework terms and conditions set out the process by which contracts will be awarded. A total of one (1) member will be awarded the contact.

It is emphasised that the framework agreement constitutes no guarantee to purchase services from a particular economic operator. Indeed, the Contracting Authority reserves the right to operate outside of the framework agreement at its discretion, particularly should it become apparent that doing so would offer greater value for money. Notwithstanding the foregoing, the Contracting Authority has adopted a framework agreement approach for this requirement in order to leverage efficiencies and maximise cost savings over a four-year period. It is anticipated that expenditure will be approximately €220,000 over the four (4) year period. Please note that the expenditure under the framework is estimated.

Duration of Framework Agreement

This framework agreement will have a maximum potential duration of four (4) years. In the event that, following the award of this single-party framework agreement, any member selected for inclusion in the framework, cannot for whatever reason, deliver the services required to the satisfaction of the Contracting Authority, the Contracting Authority reserves the right to award a place on the framework to the next highest-ranked tenderer emerging from this competitive process at any time during the tender validity period. This shall be without prejudice to the right of the Contracting Authority to terminate the agreement and commence a new competitive process.

Termination

Once established, there is no obligation upon the Contracting Authority to utilise this framework agreement. Notwithstanding this fact, the framework agreement may be terminated in accordance with the framework agreement terms and conditions. The framework agreement terms and conditions are included in the tender document set.

Timelines

The table below outlines the projected timeline for the procurement process. Please note, the dates outlined are for guidance purposes only and the Contracting Authority reserves the right to adjust these dates at any point during the procurement process.

Samples;

Tenderers who pass the selection evaluation criteria may be required to provide samples for evaluation purposes, request for samples will be made in writing, this will take place in advance of the awarding of a contract.

Tenderers who are invited forward to the Food sampling evaluation will have the food sampling criteria outlined in writing in advance of the sampling

The Tenderer will be responsible for the insurance and transportation of samples used in presentations, demonstrations or field trials.

The tenderer will bare all costs for the provision and transport of all food samples requested

Any samples required must be furnished upon written request of the Contracting Authority, failure to provide requested food samples within the requested timeframe will automatically eliminate the tenderer from further participation in the tender process.

Part 3: General Conditions

3.1 Consortia

Tender Responses may be submitted by groups of companies (a consortium) or individually. Should a consortium be placed on the Concession, each company in the consortium shall be jointly and severally liable to the Contracting Authority for the fulfilment of the terms of any contract awarded under the Concession agreement. Tender Responses should make clear which companies are proposed to be members of the consortium and which are to be sub-contractors. Any change in relation to consortia and sub-contracting after the Tenderer has submitted its Tender Response must be notified to the Contracting Authority. Tenderers should note that such changes may result in disqualification of that group.

In the case of a consortium, the Tender Response must be submitted as a single integrated application which will be evaluated and marked as a single application. The entity/person who will deal with all matters relating to this Competition and who will carry overall responsibility for the performance of the services (the “Prime Contractor”) must be identified. Please note that the Contracting Authority will only deal with the Prime Contractor regarding all matters related to this Competition. Relevant information must also be provided in respect of (a) consortium members and (b) sub-contractors who will play a significant role in the delivery of the services. Similarly, information should also be provided in respect of any other organisation upon whose resources or capacities the Tenderer proposes to rely.

3.2 Confidentiality

All documents issued and information given to the Tenderer shall be treated as confidential by the Tenderer and by any third parties (including sub-contractors) engaged or consulted by the Tenderer. Tenderers shall not release details of the Invitation to Tender Document, or any other documents provided to Tenderers as part of this Competition other than on an “In Confidence” basis to those who have a legitimate need to know or whom they need to consult for the purpose of preparing their Tenders.

Tenderers shall not at any time release information concerning the Invitation to Tender Document and/or the documentation provided to them as part of this Competition for publication in the press or on radio, television, screen or any other medium.

Tenderers may be asked to enter into undertakings of confidentiality should it become appropriate to release confidential information to them.

3.3 Tendering Costs

Tenderers shall bear all costs associated with their participation in this Competition including, but not limited to, the preparation and submission of their Tender Response and the Contracting Authority shall not be responsible or liable for any costs or expenses regardless of the conduct or outcome of the Competition and whether or not the Competition is cancelled or postponed.

3.4 Publicity

The Tenderer should note that the Contracting Authority shall publish the name of the successful tenderers being placed on the Concession agreement.

No publicity regarding this Competition or any Agreement pursuant to this Competition is permitted unless and until the Contracting Authority has given its prior written consent to the relevant communication.

3.5 Conflict of Interest

Any actual, potential or perceived conflict of interest involving a Tenderer (whether by reason of the Tenderer having or having had a role in the Contracting Authority or Trinity in relation to the Concession agreement or by reason of the Tenderer having or having had an interest in another Tenderer or another Tenderer having or having had an interest in the Tenderer) must be fully disclosed in writing to the Contracting Authority and on an on-going basis throughout the Competition as soon as it becomes apparent. The Contracting Authority reserves the right to raise conflict of interest issues with Tenderers.

Where the Contracting Authority considers that the situation does not give rise to a conflict of interest or that the conflict of interest is not material it will permit the situation to continue.

Where the Contracting Authority considers that the situation gives rise to a material conflict of interest, it may, at its sole discretion, permit the situation to continue subject, if necessary, to appropriate safeguards being agreed between the Contracting Authority and the Tenderer and the Contracting Authority being fully satisfied that those safeguards have been put in place and will be complied with.

Where the Contracting Authority considers, in its absolute discretion, that the situation can only be remedied by the exclusion of the Tenderer from the Competition, the Contracting Authority shall exclude the Tenderer.

Any registrable interest involving the Tenderer or their relatives and the Contracting Authority (or Trinity) must be fully disclosed in the Tender, or must be communicated to the Contracting Authority immediately upon such information becoming known to the Tenderer, in the event of this information only coming to the Tenderer's notice after the submission of a Tender and prior to the conclusion of the Concession agreement/contract. The terms 'registrable interest' and 'relative' shall have the meaning prescribed by the Ethics in Public Office Act 1995 and 2001. The Contracting Authority will, at its absolute discretion, decide on the appropriate course of action, which may in appropriate circumstances include eliminating a Tenderer from this process or terminating any Agreement entered into by a Tenderer.

3.6 Non-Compliant Tender Responses

If a Tenderer fails to comply in any respect with the requirements set out in this Invitation to Tender Document, the Contracting Authority shall be entitled (but shall not be obliged) to take such action as it considers appropriate, including (but not limited to):

- (a) rejecting the relevant Tender Response as non-compliant;
- (b) without prejudice to the Contracting Authority's right to reject the Tender Response:
 - (i) meeting with, raising issues and/or seeking clarification from the Tenderer in respect of the relevant Tender Response; and/or
 - (ii) requesting the Tenderer to provide the Contracting Authority with information or items which have not been provided or have been provided in an incorrect form;
 - (iii) waiving a requirement which, in the Contracting Authority's opinion is minor, procedural or non-material; and/or
 - (iv) negotiating an amendment and/or change to the relevant requirements of the Tender Document and inviting Tenderers to adjust their Tender Response on the basis of such revised requirement,

provided however that no amendment and/or change to a requirement of the Invitation to Tender Document shall be permitted if, in the opinion of the Contracting Authority, the amendment and/or change, if accepted, would constitute a material amendment and/or change to the Contracting Authority's requirements.

3.7 Anti-Competitive Conduct

Tenderers' particular attention is drawn to the application of Article 101 of the Treaty on the Functioning of the European Union (TFEU) and to the application of the Competition Act 2002 which makes it a criminal offence for Tenderers to collude on prices or terms in a public tendering procedure. Should the Contracting Authority become aware of direct or indirect communications through trade associations or otherwise between Tenderers relating to the Concession agreement/contract conditions or which might facilitate price collusion it shall be the policy of the Contracting Authority to disqualify such Tenderers and to notify the matter to the Competition Authority with the recommendation that action be taken against such Tenderers.

3.8 Freedom of Information

Tenderers should be aware that, under the Freedom of Information Act 2014 and the European Communities (Access to Information on the Environment) Regulations 2007 to 2014, information provided by them during this Competition may be liable to be disclosed.

Tenderers are asked to consider if any of the information supplied by them in their Tender Responses should not be disclosed because of its confidentiality or commercial sensitivity. If Tenderers consider that certain information is not to be disclosed because of its confidentiality or commercial sensitivity, Tenderers must, when providing such information, clearly identify the specific sections of their Tender Response containing such information and specify the reasons for its commercial sensitivity. For the avoidance of doubt, Tenderers may not assert confidentiality or commercial sensitivity over the entire Tender Response but must clearly identify the specific section containing such information. If Tenderers do not identify information as confidential or commercially sensitive, it is liable to be released in response to a request under the above legislation without further notice or consultation

with the Tenderer. The Contracting Authority will, where possible, consult with Tenderers about confidential or commercially sensitive information so identified before making its decision on a request received. The Contracting Authority accepts no liability whatsoever in respect of any information provided which is subsequently released (irrespective of notification) or in respect of any consequential damage suffered as a result of such obligations.

3.9 Canvassing

Tenderers must not canvass directly or indirectly any member of the Contracting Authority or Trinity, officer or employee of the Contracting Authority or Trinity, their advisers, or any member of the evaluation team. Failure to comply with this requirement will result in disqualification from the process.

Tenderers who endeavour to influence or interfere in any way with the tender evaluation process shall have their Tender Response rejected. Any Tenderer who, in connection with this tender stage:

- a) Offers any inducement, fee or reward to any member, officer or employee of the Contracting Authority or Trinity or any person acting as an advisor for the Contracting Authority or Trinity in connection with this Concession agreement; or
- b) Does anything which would constitute a breach of the Criminal Justice (Corruption Offences), Act 2018; or
- c) Canvasses any of the persons referred to in paragraph (a) in connection with this Agreement; or
- d) Contacts any officer or employee of the Contracting Authority or Trinity prior to the Concession agreement being awarded or about any aspect of this Concession agreement in a manner not permitted by this Invitation to Tender Document;

may be disqualified without prejudice to any other civil remedies available to the Contracting Authority and without prejudice to any criminal liability which such conduct by a Tenderer may attract.

While the Contracting Authority is not obliged to seek clarifications from Tenderers, the Contracting Authority reserves the right, at its absolute discretion, to ask Tenderers for clarification of their Tender Response to assist in its evaluation of the Tender Response. The Contracting Authority also reserves the right to require the submission of any additional, supplementary or clarification information as it may, at its absolute discretion, consider appropriate.

6.2 Scoring Methodology

Tenderers who pass ALL the selection criteria under Section 5.2 will go on to be evaluated under the Award Criteria as listed in Section 6.1 above. The Award Criteria will be applied on a qualitative basis as per the following scoring methodology:

Weighting	Meaning
91% - 100%	Excellent response with very few or no weaknesses exceeds requirements, and provides comprehensive, detailed, and convincing assurance that the Tenderer will deliver to an excellent standard.
80% - 90%	A very good response that demonstrates real understanding and fully meets the requirements and assurance that the Tenderer will deliver to high standard.
60% - 79%	A satisfactory response which demonstrates a reasonable understanding of requirements and gives reasonable assurance of delivery to an adequate standard but does not provide sufficiently convincing assurance to award a higher mark.
30% - 59%	A response where reservations exist. Lacks full credibility/convincing detail, and there is a significant risk that the response will not be successful.
1% - 29%	A response where serious reservations exist. This may be because, for example, insufficient detail is provided, and the response has fundamental flaws, or is seriously inadequate or seriously lacks credibility with a high risk of non-delivery.
0%	No Response

Tenderers who fail to achieve ANY Minimum Marks required to Pass criteria A, B and C as set out in the award criteria table above may be eliminated from the Competition.

The contracting authority intends to enter contract with the highest scoring MEAT tenderer in the capacity that they will be the single provider under the agreement. In any circumstance where the contracting authority terminates the contract with the highest ranked tenderer, the contracting authority will look to enter contract with the second highest ranked tenderer and so on.

Formula Used for Awarding Marks for Criterion A, B & C and set out below.

$$\text{Criterion Marks} = \frac{\text{Percentage Score awarded}}{\text{Total Score available}} * \text{Weighting (Available marks)}$$

How Final Scores will be calculated:
