

## Note for Use of Buildsoft or Microsoft Excel Version of the Measured Work Section of the Pricing Document

### Notes for Use of Buildsoft or Microsoft Excel Version of the Measured Work Section of the Pricing Document

#### TENDERERS MUST NOTE THE FOLLOWING:

- The Measured Work Section of Volume C – Pricing Document has been made available to all Tenderers in both Buildsoft & Microsoft Excel formats.
- Please note that the measured work sections of 'Volume C – Pricing Document' has been prepared using Exactal Cost X software which has subsequently been exported to alternative file formats purely for the convenience of the Tendering Contractors. No liability shall be accepted for any anomalies that may exist between the Master PDF version issued with the tender documents and the softcopy files which are issued for the convenience of the Tendering Contractor.
- Please note that the information contained in both of these files will not be in the same format as the PDF version of 'Volume C – Pricing Document' provided with the tender pack (i.e. page numbers, references, underlining, headers, etc.) and due care is required when using either the Buildsoft or Microsoft Excel document.
- Tenderers should also note that when the Pricing Document is exported to Microsoft Excel format, long descriptions do not export in their entirety. Tenderers should therefore refer to the master Pricing Document as issued with the Tender Documents at all times.
- Please be advised that the PDF version of 'Volume C – Pricing Document' provided remains the Master Document and that the information on the soft copy is for work purposes only. You must return a hard copy of the Master Document, fully priced, as part of your tender submission.
- Alternative file formats of the measured work sections of 'Volume C – Pricing Document' are issued as part of the information pack only.
- Other file formats may be available on request.
