

RFT 8311801: Request for Tenders for the establishment of a Multi Supplier Framework Agreement for the provision of Geographic Information Systems (GIS) Development, Managed Services and Support Services

Message Ref No	Question	Contracting Authority Response
724799	The rate card for Lot 2 only states three specific GIS roles. Please clarify if bidders are able to add roles to the rate card for example, for a Project / Contract manager role. You requested bidders to provide a biography for a Contract Manager in the contract management response (for lots 1,2 and 3). We would expect to see a managing role on these lots to oversee call-offs from the framework and assign the resource those to the most appropriate GIS level.	No. Tenderers must not add roles to the Pricing Schedules for any of the Lots. Please see response provided in respect of clarification question message reference number 722595
