

Tender Clarifications				
Competition Reference		IT3830F - Single-Supplier Framework Agreement for the Provision of Production, and Postage of Student ID Cards Services for Atlantic Technological University (ATU)		
Issue Date		09/07/2026		
Message ID e-tenders	Date Received	Query	Response	Response Date
728519	07/07/2026	A. Card Artwork Variations The annual card volume for ATU is estimated at 19,000 cards. Can you confirm whether there will be any variations in card artwork or design requirements across the different campuses, or whether a single standard design will apply to all cards?	There may be variations on card artwork throughout the lifetime of the contract. However, for the purpose of the evaluation a single standard design will apply for all cards.	09/07/2026
728519	07/07/2026	B. Card Production and Pricing Structure The RFT requests pricing for a total of 76,000 cards over a four-year period. Can you clarify whether this requirement is for a single production run of all 76,000 cards, or if the volume will be ordered in annual batches? If the requirement is to be fulfilled through annual orders, we would request consideration of an annual pricing review mechanism for PVC card and paper materials to account for potential fluctuations in raw material costs and market conditions over the term of the contract. Could you confirm whether such a provision can be included within the RFT pricing framework?	The volume will be ordered in annual batches. Please see A1 and A2 of the TRD. Tenderers should note that prices may be increased or decreased only on the first anniversary of the Effective Date of the Service Contract (as defined in the Service Contract) and on subsequent anniversaries of the Effective Date thereafter, and then only by the percentage by which the “Irish Consumer Price Index” has increased or decreased in the edition of that index published by the “Irish Central Statistics Office (CSO)” most recently prior to that anniversary.	09/07/2026
