Question #1

1. Indicative production mix

Can the Contracting Authority please provide an indicative percentage breakdown between larger-scale, multi-shoot productions and shorter-form edits / social media outputs?

2. Lead times

Can the Contracting Authority please clarify the typical lead times expected for planned productions, standard video projects, shorter social edits and any urgent or short-notice requests?

Answer #1

Due to the varied nature of GRETB's activities and services, the Contracting Authority is unable to provide an indicative breakdown of production types or anticipated lead times. Requirements will arise throughout the framework period and may vary in scale, complexity and urgency.

While some projects may be planned in advance, requirements may also arise on an ad hoc basis. Tenderers should refer to the Specification of Requirements for examples of the types of services that may be required.
