
Section 1 Introduction

1.1.0 Introduction

This document outlines the Electrical Engineering Scope of Works specification required as part of the Science Classrooms Refurbishment at Scoil Mhuire, Buncrana, Co. Donegal. This scope of works shall be read in conjunction with the Architect's and Engineer's drawings, specifications and schedules.

The contract for this development includes for the supply, delivery, off-loading, erection, connection, testing, commissioning and maintenance of materials during the defect's liability period, described in the documents as necessary for a complete safe and satisfactory services installation in accordance with the true meaning and intent of the documents.

The Contractor is reminded that the building is, overall, a live facility and so awareness of adjacencies is particularly important when carrying out works live. There must be the upmost care taken to ensure the adjacent live areas are not affected in any way during these works.
