**STANDARD CONDITIONS OF ENGAGEMENT
FOR CONSULTANCY SERVICES (TECHNICAL)
SCHEDULES**

SCHEDULE A: CONTRACT PARTICULARS¹

INTERPRETATION

The Agreement is organised in elements, by individual numbers and line breaks, and titled groups, within each clause. One purpose is to identify clearly which contents go together as part of the same element, especially which qualifications, modifications and exceptions apply to what, and the relationships between elements.

Element numbers provide precise references. They are preceded by clause numbers in larger font except where the reference is in and to the same clause [e.g. '1, 5,6,7' in clause 2.4, but '7' alone in 2.10].

Instead of including 'and' or 'or' where either would cause ambiguity, commas are used between contents of an element, and semi-colons between elements in a sentence (with indenting where convenient for listing them), to show that they apply individually and together as relevant to the subject.

Square brackets are included where useful to identify as such clarifications, explanations, reminders of purposeful implications or of general law, and cross-references, to show that significance is not to be given to their absence elsewhere, or in the case of general law that it is not being changed.

In the Agreement, Schedules, except where the context indicates, words in the singular include the plural and the reverse.
