5. AWARD CRITERIA

Only tenders which meet the Selection Criteria and are confirmed as valid and responsive to the specifications set out in this document will be evaluated against the award criteria. Tenderers should ensure that they have submitted sufficient relevant information to allow their tenders to be assessed under each of the award criteria set out below.

The framework will be awarded on the basis of the most economically advantageous compliant tender taking into account the following award criteria and weightings.

Criterion A	Weighting	Maximum Marks	Minimum Marks – 50%
	25%	2,500	1,250
Title	[Fitness for purpose of the proposed products to be supplied]		
Description	Tenderers are required to provide a product detailed specification list and test certificates where relevant (e.g. durability, fire resistance properties of products offered) [		
Criterion B	Weighting	Maximum Marks	Minimum Marks – 50%
	25%	2,500	1,250
Title	Proposed Methodology for Storage, Inventory Management, and how are you disposing of the items, and just in time delivery 365 days per annum directly to Homeless Facilities		
Description	[Tenderers are required to submit a detailed description of their storage facilities, inventory management system (including monthly usage reports and details of distribution and installation services), particularly with regard to pre-planned orders and responsiveness to same day/ next day urgent requests for service.]		
Criterion C	Weighting	Maximum Marks	Minimum Marks – 50%
	10%	1,000	500

Commented [SM65]: Ensure all award criteria are linked to minimum requirements as outlined in the specification of requirements section of this doc above at 2.3? Nothing new can be requested at award stage. Award Criteria are based on the Spec. The spec should always describe how tenderers can achieve a minimum score.

25% is quite high considering you have 10% for contract management and SLA!

Commented [DH66R65]: Updated

Commented [SM67]: This is where you could include green public procurement for example are they disposing of items in an environmentally friendly way?

Commented [SM68]: Amend NA to 50% as per your marks

Commented [DH69R68]: We can't change the N/A

Commented [SM70R68]: It is editable I have changed this for you

Title	Contract Management and Service Level Agreement		
Description	Tenderers are required to provide a draft Service Level Agreement for the delivery of the services addressing all the elements set out in Section 2.4 of the RFT in the TRD		
Criterion D	Weighting	Maximum Marks	Minimum Marks
4	40%	4,000	N/A
Title	Ultimate Cost		
Description	The Pricing Schedule and Form of tender must be completed <u>in full</u> . Failure to complete either document in full will result in elimination from the competition"		

NOTE 1: Tenderers should note that they must achieve a minimum rating of **50%** for criteria (A), (B), and (C) in order to avoid elimination from the competition. Please note that in relation to criterion (D – Cost Criterion), tenders will be scored in inverse proportion to the maximum score, which will be allocated to the lowest cost valid tender not previously eliminated on qualitative grounds.

NOTE 2: Tenderers should ensure in their tenders that they provide detailed information in respect of all aspects of the contract award criteria as stated above. This will enable the awarding authority to assess fully the extent of their offers.

NOTE 3: Tie-Break Rules: MEAT Assessment

In the event that **[there are two or more highest ranked Tenderers that obtain the same total marks (i.e. a tie for the highest ranked Tenderer) OR there is a tie for any place on the framework agreement]** the following tie-break rules will be adopted:

The Tenderer who has been awarded the highest marks for the total qualitative assessment (i.e. non-cost related element) of their Tender will be deemed to be the most economically advantageous tender ("MEAT").

In the event the Tenderers receive the same marks for the qualitative assessment of their Tender, the Tenderer who has been awarded the highest marks for **"A. Fitness for purpose of the proposed products to be supplied"** will be deemed the MEAT.

In the event of the application of this tie-break rule not resulting in the determination of a MEAT, this approach will continue to be applied to each of the award criteria in the descending order listed in below until such time as a MEAT can be determined:

Order of Tie Break Evaluation Criteria*:

- B. Proposed Methodology for Storage, Inventory Management, and just in time delivery 365 days per annum directly to Homeless Facilities**

2. C. Contract Management and Service Level Agreement

3. D. Cost

***NOTE: Cost must always be the last criterion used in a tie-break for MEAT. Delete this note prior to publishing.**

In the unlikely event of the rules set out above failing to determine a MEAT, the preferred Tenderer shall be selected on the basis of random selection. In such a circumstance, representatives of each Tenderer that achieved the same highest marks are invited to observe the random selection and Tenderers will be notified in advance of the time/date and location of the random selection procedure.

5.1 Methodology for Calculating the Cost Score

The following formula will be applied to the cost score:

The lowest cost tender that also meets all the minimum requirements of the qualitative award criteria will receive the maximum score achievable under this criterion. The scores of the other valid tenders will be calculated using the following formula:

Lowest Cost from a Bona Fide Tender	A
Cost for the tender being evaluated	B
Maximum Points available for Cost	4000
Formula employed	$\frac{4000}{B} \times A$

5.2 Methodology for Calculating Scoring of Qualitative Criteria

If the minimum marks required are above the suggested 50%, please ensure to edit the table below. Remove this note prior to publishing.

Score	Meaning	Interpretation
90 – 100%	Outstanding	A very comprehensive response demonstrating extensive understanding offering full assurance to client – fully supported with no reservations.
80 – 89%	Excellent	An excellent response demonstrating excellent understanding offering assurance to client – strongly supported.
70 – 79%	Very good	A very good response demonstrating very good understanding offering assurance to client – fully supported.
60 – 69%	Good	A good response demonstrating good understanding offering assurance to client – well supported.
50 – 59%	Acceptable	An acceptable response demonstrating a minimum understanding offering assurance to client - satisfactorily supported.

Less than 50% is unacceptable

Marks in the score ranges outlined above can be awarded where responses so merit additional marks.

5.3 Clarification / Verification Meetings

Award of contract/membership of the framework agreement may be subject to attendance at a clarification and verification meeting. It would be essential that the key personnel assigned to this contract should be available and present at this meeting. If required, tenderers will be notified of the date, time, agenda and format for such meetings as soon as possible.

A visit to the tenderer's premises may be required to clarify any questions or queries regarding the tender offer.

Tenderers should note that the Contracting Authority reserves the right to confirm that the financial and technical capacity of the tenderer is valid and unchanged prior to the award of any contract.

Any failure to satisfactorily comply with such a request, or to satisfactorily address the Contracting Authority's concerns, may, at the discretion of the Contracting Authority, result in the elimination of the tender in question on the basis of it being considered abnormally low.

If Tenderers do not identify information as confidential or commercially sensitive, it is liable to be released in response to a request under the above legislation without further notice to or consultation with the Tenderer. The Contracting Authority will, where possible, consult with Tenderers about confidential or commercially sensitive information so identified before making its decision on a request received. In the case of manifest errors - where there is a discrepancy between the unit price and the total amount derived from the multiplication of the unit price and the quantity, the unit price as quoted will normally govern.
