Preface

The Contracting Authority is making these documents available to those expressing an interest in tendering for the Contract identified in the Particulars, for tendering purposes only. These documents must not be used for any other purpose.

The Contracting Authority makes no representation, warranty, or undertaking in or in connection with these documents unless explicitly stated. The Contracting Authority has not authorised anyone to make any representation in connection with these documents on its behalf, and Tenderers should not rely on any representation purportedly made on the Contracting Authority's behalf in connection with this Competition. Neither the Contracting Authority nor its officers, employees, or advisers will have any liability in connection with these documents. Tenderers must make their own assessment of the adequacy, accuracy, and completeness of these documents.

The Contracting Authority reserves the right not to proceed with the Competition process or any part of it and may terminate the Competition or any part of it at any time, with or without procuring the Investigation in another way. If this happens, neither the Contracting Authority nor its officers, employees, or advisers will be liable to any Tenderer or other person. The Contracting Authority also reserves the right to change any part of these documents, including the procedures and time limits described in them. The Contracting Authority does not bind itself to accept any outcome of the process described in these documents and is not obliged to enter into a contract for the Investigation with anyone.

Neither the Contracting Authority nor its officers, employees, or advisers have any responsibility for Tenderers' expenses or losses in connection with this Competition. These Instructions do not form a contract or relationship (including, for the avoidance of doubt, any contract about the Competition itself) between any Tenderer and the Contracting Authority ((except for the Tenderer's irrevocable offer to be bound by its Tender for the period stated unless and until the Contract has been entered into by issue of a Tender Acceptance and any conditions precedent to its effectiveness have been met. The exception to this is the obligation upon a Tenderer with regard to confidentiality. These Instructions to Tenderers will not form any part of any Contract unless explicitly stated otherwise.

These documents are being made available on the terms stated in these Instructions to Tenderers. They are not being distributed to the public, and have not been filed, registered, or approved in any jurisdiction. Possession or use of these documents contrary to any law is prohibited. Recipients must inform themselves of and observe all laws concerning the possession and use of these documents.

Recipients of these Instructions to Tenderers must treat these documents, their Tenders, and their participation in this Competition as confidential. They must not disclose any information about this Competition to anyone other than as required for tendering purposes, or as required by law.

The Contracting Authority is entitled to disclose information about this Competition, including the identity of those expressing interest, to any person. If a Tenderer considers that information in its Tender is commercially sensitive or confidential, this should be clearly stated, and clear and substantive reasons should be given. The Contracting Authority will have regard to such a statement

Instruction to Tenderers for Investigation Works Contract under an Open Procedure

in considering a request for access to the information under the Freedom of Information Acts 2014 (or any other legislation relating to disclosure or information), but is not bound by the Tenderer's view and will take such steps as it considers necessary to comply with its obligations under applicable law.

Any conflict of interest or potential conflict of interest must be fully disclosed to the Contracting Authority as soon as such conflict or potential conflict becomes apparent. This includes, but is not limited to, situations where a Tenderer or any of the members of a Tenderer which is a consortium, joint venture or partnership, or any entity being relied upon or any of their advisers, contractors, consultants, servants or agents are currently or have been in the past an adviser, contractor, consultant, servant or agent to the Contracting Authority, or any local or other relevant authority in relation to the Works which are the subject matter of this Competition.

Without prejudice to the foregoing, any 'registrable interest' involving the Tenderer and the Contracting Authority, (and where applicable any elected members of the Contracting Authority or members of the Board of the Contracting Authority), members of the Government, members of the Oireachtas or employees of the Contracting Authority or their relatives must be fully disclosed to the Contracting Authority immediately upon such information becoming known to the Tenderer.

The terms 'registrable interest' and 'relatives' shall be interpreted in line with the Ethics in Public Office Act, 1995 and the Standards in Public Office Act 2001 as may be amended from time to time.

The Contracting Authority will, at its absolute discretion, decide on the appropriate course of action in relation to any actual or perceived conflict of interest, which may include (but is not limited to) excluding the Tenderer from the Competition or permitting the Tenderer to continue subject to safeguards determined by the Contracting Authority being put in place and observed.

It will be a condition of the award of the Contract that the successful Tenderer shall, for the term of the contract, comply with all applicable EU and domestic tax laws. Prior to the award of the Contract arising out of this Competition the successful Tenderer shall be required to supply its Tax Clearance Access Number and Tax Reference Number to facilitate online verification of its tax status by the Contracting Authority. By supplying these numbers the successful Tenderer acknowledges and agrees that the Contracting Authority has the permission of the successful Tenderer to verify its tax cleared position online. Tenderers may obtain information regarding their obligations concerning:

- taxation from the Revenue Commissioners (www.revenue.ie)
- environmental protection from the Environmental Protection Agency (www.epa.ie)
- employment protection and working conditions from the Workplace Relations Commission (www.workplacerelations.ie).

Irish law is applicable to these Instructions and the Irish courts shall have exclusive jurisdiction in relation to any disputes arising from or in connection with these documents.

The Applicant's attention is drawn to the Competition Act 2002 – 2019 (as may be amended from time to time) which makes it a criminal offence to collude on prices or terms in a public procurement competition.

Instruction to Tenderers for Investigation Works Contract under an Open Procedure

Queries must be raised as soon as possible, and should be raised in any event no later than when stated in the Particulars. The Contracting Authority has no obligation to respond to queries although the Contracting Authority may at its discretion respond to queries raised after that date. If the Contracting Authority responds to a query, it will issue the response to each Applicant, unless the query has been clearly designated as confidential. If the query has been designated as confidential, and the Contracting Authority decides that the response should be published on the e-Tenders website, the Contracting Authority will notify the person raising the query, who will have the option of withdrawing the query or having the response issued to all Tenderers. However, the Contracting Authority may under section 2.2 still issue any information it considers appropriate on the e-Tenders website following withdrawal of the query.

As with these Instructions to Tenderers, responses to queries will not create any contractual relationship between the Contracting Authority and Applicants, or form part of the Contract unless explicitly stated otherwise.

It is the responsibility of Applicants to monitor the means of communication for this Competition for any correspondence or clarifications in relation to the Competition.

If a person intending to submit a Tender becomes aware of any ambiguity, discrepancy, error, or omission in or between these documents, it must immediately notify the Contracting Authority, even after the time for submitting queries has expired.

Only one Tender per Tenderer is permitted with the Investigation Contract (PW-CF7) or Short Investigation Contract (PW-CF8).

4.4 Copies

Where the Particulars state that the required means of tender delivery is registered post or delivery by hand, Tenders must include the number and type of paper and/or electronic copies stated in the Particulars and Tenders must be packed and/or labelled as stated in the Particulars.

4.5 Format

The required format in which Tenders must be submitted is stated in the Particulars.

Tenders will consist of:

Tenders must be as described in the Particulars.

If the Form of Tender and Schedule, or the Bill of Quantities have been amended by supplemental information, Tenderers must use the most recently issued versions.

No amendments or alterations to the Form of Tender or attached Schedule (save for (i) completing them in accordance with their terms and (ii) the inclusion of alternative signature/execution blocks in the event that the template signature/execution blocks are not suitable having regard to the characteristics of the Tenderer or the circumstances of the signing/execution) are permitted. Any other amendments/alterations may result in the Tenderer's Tender being rejected.

4.6 Language

Tenders and all information included with them must be in the language stated in the Particulars. Any original document in another language must include an accurate translation into the language stated in the Particulars. Queries and other communications must be in the same language.

4.7 Qualification

Tenders must not be qualified in any way but must be submitted in accordance with these Instructions. Without prejudice to the generality of the foregoing, Tenders must not include or be accompanied by a cover letter or any other information not specified in these documents, or by any statement that could be construed as rendering the Tender equivocal and/or placing it on a different footing from other Tenders.

4.8 Tender execution

The Form of Tender must be signed as follows:

- if the Tenderer is a company, the signature must be that of a director and the execution must be witnessed;

³ Applies to PW-CF7 only.

Instruction to Tenderers for Investigation Works Contract under an Open Procedure

- if the Tenderer is an individual, he or she must sign the Form of Tender and the execution must be witnessed;
- if the Tenderer is a partnership then each partner must sign the Form of Tender and the execution must be witnessed;
- if the Tenderer is a company registered elsewhere than Ireland, it must execute the Form of Tender under hand according to the laws of its place of incorporation.

If so requested by the Employer a legal opinion that the Form of Tender has been duly executed in accordance with the requirements of the jurisdiction in which the company is registered may be requested by the Employer following the submission of tenders and must, if requested, be provided at the Tenderer's cost.

Where the Particulars state that electronic submission is the required means of delivery, the signature must be visible on the electronic Form of Tender. The Contracting Authority reserves the right to seek an original of the Form of Tender at a later date.

4.9 Pricing

Unless otherwise stated, all sums given in Tenders must be in euro, to two decimal places.

Tenderers must not insert additional items in the Bill of Quantities, except where permitted to do so by the Bill of Quantities, or make any alterations to the Bill of Quantities.

Amounts must be included wherever required in the Form of Tender, the Schedule and the Bill of Quantities. Blank spaces, the terms 'nil' or 'included', or dashes or the like must not be used. Where zero is a permitted entry, it must be stated as '0.00'.

Tenderers must not use abnormally high or low rates or prices. This prohibition includes using strategies that might allow the Tenderer to benefit disproportionately from clause 7.5 (PW-CF7) or clause 7.3 (PW-CF8).

Each amount in the Bill of Quantities must cover the full inclusive value (excluding value-added tax) of the relevant work, and, where applicable, a fair allocation of the tendered Price.

All items and quantities in any Bill of Quantities must be priced.

Tenderers must not use negative rates or prices, or omit rates, or use zero rates, in any Bill of Quantities.

The Contracting Authority may provide the Bill of Quantities in a .csv and native file formats to Applicants.

Where the Particulars state that the required means of tender delivery is electronic submission (including to the eTenders platform), Tenderers must submit a *read only* PDF copy of their fully completed Bill of Quantities with their Tender. In accordance with section 9.2 of these Instructions, the Contracting Authority may request that Tenderers provide a copy of the submitted Bill of Quantities in its native file and/or .csv file format. Where requested, Tenders must provide the Bill of Quantities in the requested file formats promptly and within the stated timeframe. In the event of inconsistencies between the *read only* PDF Bill of Quantities and either the native file format and/or csv file format, the *read only* PDF Bill of Quantities shall take precedence.

If a Tender does not comply with this section 4.9 the Contracting Authority may proceed according to sections 5 or 6 of these Instructions.

4.10 Value- Added Tax

The Form of Tender states whether and to what extent the tendered Contract Sum includes value-added tax (VAT). The amounts stated in the Bill of Quantities exclude value-added tax, unless otherwise stated in these Instructions or the Bill of Quantities.

If the Bill of Quantities includes a schedule of items that are not construction operations subject to Relevant Contracts Tax (and therefore to reverse-charge VAT) and, in the Contracting Authority's opinion, the categorisation of an item, the VAT rate stated, or the value stated is not correct, the Contracting Authority may invoke section 6.2 of these Instructions.

4.11 Project Supervisor

The Contractor or its nominee as designated in its relevant SAQ Response will be appointed as project supervisor for the construction stage under the Safety, Health and Welfare at Work (Construction) Regulations 2013, unless otherwise stated in these documents. If the Tenderer designates a nominee for appointment as project supervisor for the construction stage in its relevant SAQ Response, the Contractor's Proposals must name that nominee.

Where PW-CF7 is the form of contract and the Tenderer has designated in the relevant SAQ Response a nominee (rather than the Tenderer itself) for appointment as project supervisor for the construction stage (where required), the Contractor's Proposals must name that nominee.

Where PW-CF8 is the form of contract and the Tenderer has designated a nominee to act in the role of project supervisor for the construction stage in the relevant SAQ Response then the nominee must be named as part of the Tenderer's Tender submission.

5: Non-Compliant Tenders

If a Tenderer fails to comply in any way with these Instructions, the Contracting Authority may (but is not obliged to) take such steps as it deems appropriate including (but not limited to):

- (a) rejecting the Tender as non-compliant; and/or
- (b) without prejudice to the Contracting Authority's right to reject the Tender:
 - i. seeking clarification from the Tenderer in respect of the relevant submissions by way of a meeting or written submission
 - ii. requesting the Tenderer to provide information or items which has/have not been provided or has/have not been provided in an incorrect form;
 - iii. waiving a requirement which in the Contracting Authority's opinion is minor or procedural; and/or
 - iv. take any other step permitted by law,

in accordance with applicable law and principles.

6: Corrections, unbalanced and abnormal tenders and rates

6.1 Errors

The Contracting Authority may, without any responsibility for this, examine the Bill of Quantities for errors in addition or extension.

If there is an error in extension, the rate will be adjusted, so that the extension remains the same.

If there is an error in addition, the amounts added (and the rates making them up) will be adjusted pro rata to the error, so that the total remains the same. This will apply if the total of the tendered rates and prices, with value-added tax added, does not add up to the tendered Price.

The Contracting Authority will decide which amounts and rates are to be adjusted.

No adjustment made under this section 6.1 will affect the tendered Price.

The Contracting Authority reserves the right to open all Pricing Documents from tenderers without the need to revert to the Tenderers for permission.

6.2 Unbalanced Tenders

If, in the Contracting Authority's opinion, the tendered rates or prices in the Bill of Quantities (after adjustment under section 6.1 above) do not reflect a fair allocation of the tendered Price, or the last sentence of section 4.9 applies, the Contracting Authority may (but is not obliged to) do either or both of the following:

- require the Tenderer to provide a breakdown of any tendered amounts, to show that they reflect a fair allocation of the tendered Price and
- invite the Tenderer to adjust rates or prices tendered in the Bill of Quantities, but without adjusting the tendered Price.

The Contracting Authority will pay particular attention to pricing that could result in the Tenderer, if successful, being paid too much of the Price disproportionately early in comparison with the amount of work done.

If, having considered the information provided (both in the Tender and in response to a requirement under this section 6.2), the Contracting Authority is of the view that the Tenderer's tendered rates or prices in the Bill of Quantities do not reflect a fair allocation of the tendered Price, the Contracting Authority may reject the Tender.

6.3 Abnormally low tenders, abnormally high or low rates or prices

If, in the Contracting Authority's opinion, the tendered Price is abnormally low or any tendered rates or prices are abnormally low or abnormally high, the Contracting Authority may require the Tenderer to provide details of the constituent elements of the tendered Price or the tendered amounts. This may include (without limitation) the information listed in Regulation 69 of the European Union Procurement Regulations (Award of Public Authority Contracts) 2016. Any failure to provide such information, when requested, may exclude the Tender from further consideration. If, having considered the information provided, the Contracting Authority is of the view that either the Price is abnormally low or any tendered amounts are abnormally low or abnormally high, the Contracting Authority may reject the Tender.

No adjustment made under this section 6.3 will affect the tendered Price.

7: Assessment of Tenders

7.1 Award Criteria

The award criterion is the lowest price tendered by a Tenderer meeting the qualification criteria in the Suitability Questionnaire(s).

7.2 Clarification

The Contracting Authority may seek clarification or further information or both from one or more Tenderers. The Contracting Authority may meet with one or more Tenderers for these purposes. The Contracting Authority will confirm to the Tenderer concerned in written minutes any clarification arising from a meeting and the Tenderer will be required to confirm or correct the minutes in writing. See also section 8.4 of these Instructions.

7.3 Compliance

The Contracting Authority shall consider whether any of the grounds for exclusion referenced in the Suitability Assessment Questionnaire apply. The Contracting Authority will assess whether Tenderers meet the qualification criteria in the Suitability Assessment Questionnaire.

The Contracting Authority shall assess Tenders for compliance with these Instructions, including provision of all the information and documentation required, and the matters covered in section 6 above.

Following the assessments under this section 7.3, the Contracting Authority may proceed according to sections 5 or 8 of these Instructions, whichever is appropriate.

7.4 Review ⁴

Important Note: Any procedure set out in the Particulars is not mandatory. Tenderers should obtain legal advice as to the review procedures that may be available to them under law, as well as the timeframes in which such review procedures may be availed of.

7.5 Change in circumstances

If, as a result of a change in circumstances or otherwise, any information given by a Tenderer to the Contracting Authority, in a Tender or otherwise, including in the SAQ Response (in particular, but without limitation to, regarding the structure of a Tenderer and/or Members of a Tenderer or any entity being relied upon), was (when submitted) or has become (by reference to the facts as they then stand) untrue, incomplete or misleading, the Tenderer must so inform the Contracting Authority as soon as it becomes aware of this.

If it comes to the Contracting Authority's attention that:

- there has been a change in circumstances concerning a Tenderer that could affect the Contracting Authority's assessment of that Tenderer's Tender or;
- information submitted by a Tenderer was untrue, incomplete or misleading when submitted or has become by reference to the facts as they then stand untrue, incomplete or misleading

the Contracting Authority may (but is not required to) take such steps as it considers necessary to revise its assessment of the Tenderer's Tender (including revising its assessment of the Tenderer's SAQ Response) on the basis of the information then available to the Contracting Authority and/or

⁴ Note to Contracting Authorities: Employers may include in the relevant section in the Particulars a provision for a review procedure whereby a Tenderer who disputes a decision of the Employer about whether a Tender complies with this ITT may raise the matter with the Employer. The review procedure should include appropriate timelines for the submission of the query and response times.

Instruction to Tenderers for Investigation Works Contract under an Open Procedure

exclude the Tenderer from further participation in the Competition. The Contracting Authority may clarify this with the Tenderer and may seek further information and/or evidence from the Tenderer.

8: Award Process

8.1 Tender validity period

Subject to section 8.2, the Contracting Authority may accept a Tender any time within the time stated in the Form of Tender and Schedule.

8.2 Notification

As soon as practicable after reaching the award decision, the Contracting Authority will inform all Tenderers of the decision.

If the European Union Procurement Regulations apply to this Competition, the notification to the Tenderer to whom the Contracting Authority has decided to make an award should be in the form of Model Letter O.eu6 *Letter to Successful Tenderer*. The notification to the other compliant Tenderers should be in the form of Model Letter O.eu7 *Letter to Unsuccessful Tenderer* and should issue at the same time as the *Letter to Successful Tenderer*. The notification to non-compliant or eliminated Tenderers where a period of 30 days has not elapsed between the letter notifying them of their non-compliance/elimination and the date that letters are sent to successful and unsuccessful Tenderers should be in the form of Model Letter O.eu8. This letter must be sent by the Contracting Authority at the same time as the Letter to Successful Tenderer and the Letter to Unsuccessful Tenderers for the Standstill Period to be valid.

If the European Union Procurement Regulations procurement rules do not apply the notification to the Tenderer to whom the Contracting Authority has decided to make an award should be in the form of Model Letter O.na6 *Letter to Successful Tenderer*. The notification to the other compliant Tenderers should be in the form of Model Letters O.na7 *Letter to Unsuccessful Tenderer* and should issue at the same time as the *Letter to Successful Tenderer*.

Where a contract is regulated by the EU procurement rules the Employer will not issue the *Tender Acceptance* earlier than 14 days in the case of communicating electronically, or 16 days in the case of ordinary post after notifying all Tenderers of the award decision.

The *Letter to Successful Tenderer* will not form the Contract, or any contract or other obligation. The Contract will be formed only by issue of the *Tender Acceptance*.

8.3 Letter to Successful Tenderer

Whichever *Letter to Successful Tenderer* issues (O.eu.6 or O.na.6) it should request that the Tenderer submit to the Contracting Authority any or all of the following:

- the performance bond if required under the Contract⁵
- evidence of the insurances required by the Contract
- evidence of tax compliance from the Revenue Commissioners
- any required appointment as project supervisor for the construction stage

If the Tenderer to whom such a *Letter to Successful Tenderer* is addressed does not submit the documents as required within the time allowed in the letter of intent, the Contracting Authority may

- proceed according to the process in section 8.2 above to initiate award to another Tenderer or
- allow the Tenderer to whom the *Letter to Successful Tenderer* was addressed additional time to provide the documents or

⁵ Where the Particulars state that the form of contract to be used is PW-CF7.

- issue the *Tender Acceptance* to the Tenderer to whom the *Letter to Successful Tenderer* was addressed (even though the documents have not yet been provided).⁶

8.4 Tender Acceptance

The Contracting Authority may issue the written acceptance of the Tender at any time during the Tender validity period referred to in section 8.1 above.

The written acceptance will be in the form of the Contracting Authority signing the “*Tender Acceptance*” section on the Form of Tender and sending a copy of it to the successful Tenderer.

Any written clarifications of a Tender (including minutes of a meeting clarifying the Tender – see section 7.2), will be referred to in any acceptance of the clarified Tender, and will be included in the Contract.

The acceptance of the Form of Tender (Contracting Authority signing and sending the ‘Tender Accepted’ section of the Form of Tender (FTS-7 or FTS-8)) by the Contracting Authority creates a binding contract. The ‘Tender Accepted’ form shall be completed and signed by the Contracting Authority only after all award procedures have been completed.

8.5 Award Notice

The Contracting Authority will, after award, send an award notice to the Office for Official Publications of the EC, if so required by law. This notice may include disclosure of the contract price.

⁶ A contract should not be awarded to any firm which cannot produce a tax clearance certificate except as a last resort. In such a case, the advance approval of the Department of Finance must be obtained.
