SUITABILITY ASSESSMENT FOR Works Contractor and as PSCS OPEN PROCEDURE

Introduction

This questionnaire is issued in relation to a tender competition run by the open procedure. Its purpose is to obtain from a tenderer the information on which to base a suitability assessment so as to establish if the tenderer should go forward to tender evaluation for the award of a works contract with the Contracting Authority.

The term *tenderer* is used for an Individual (Sole) Trader, a Legal Partnership, a Consortium or any other type of Joint Venture that constitutes an acceptable entity for the purpose of this project.

Note: When a project supervisor role is required, the tenderer for that role must be an individual or body corporate in compliance with Health and Safety regulations.

Note: A Tenderer providing a significant part of the works with the remainder being outsourced to sub-contractors should include suitability evidence from those sub-contractors with the Tenderer's suitability evidence as part of the Tenderer's submission. The two sources of evidence should be treated as on from the Tenderer and assessed accordingly.

The document is in three main parts:

- Section 1 gives details of the project and the requirements. The Contracting Authority completes it prior to issuing the questionnaire.
- Section 2 is used to collect basic information about the tenderer. If the Contracting Authority requires details in addition to the standard details, the Contracting Authority must specify these requirements prior to the issuing the questionnaire as part of the tender documents. The tenderer must then use the questionnaire to provide the required details.
- Section 3 details the criteria that will be used to evaluate the suitability of the tenderer. Prior to issuing questionnaire as part of the tender documents, the Contracting Authority specifies the criteria that will be used; the tenderer must then use the form to provide the required details and to confirm that other required information is appended or will be submitted on request as indicated by completing the checkbox associated with each criterion.

This document is a protected MS Word form (text other than form fields is protected). The Tenderer should use only those fields marked 'Tenderer Entry'. Other form fields containing project-specific information provided by the Contracting Authority must not be altered. Should a tenderer alter any project-specific information in the questionnaire and submit it in its amended state as the tenderer's response, the tenderer will be automatically disqualified. The Tenderer should provide only evidence that is current up to the date of submission indicated below. All signatures must be supplied in hardcopy.

Time and date for return of Questionnaire:

Latest Time and Date for receipt of completed Questionnaire and Tender:	Refer to eTenders Portal for Applicable Dates

1.6 Specialists proposed by Tenderer (using Specialist Form W3)

Each specialist subcontractor that the Tenderer proposes for the specialist areas listed in this subsection is evaluated on a Pass/Fail basis separate to the main Tenderer. A separate Questionnaire (W3) customized by the Contracting Authority is provided for specialist subcontractors with Pass/Fail evaluation criteria specific to the specialist area of work required. If more than one specialist is named for a particular specialist area, the specialists whose submissions are above the minimum standard will be recorded as pre-qualified and the Main Contractor (that is pre-qualified and successful at Tender stage) may use any of those qualified to carry out that specialist role.

The Tenderer is required, as part of the application, to propose at least one and up to **three** specialists (with details of subcontractors in response to the W3 questionnaire) who will be employed for each of the specialist areas listed below:

1.7 Specialists selected by Contracting Authority (using Specialist Form W3)

SECTION 3: ASSESSMENT CRITERIA

The criteria that will be used in evaluating submissions to see if they pass the suitability test are set out in this section. *All* are simple Pass/Fail criteria – these are requirements that must be met in full and if passed satisfy the suitability test.

The Tenderer must complete this section by attaching (where requested) the required information in appendices numbered according to the criteria here and then ticking the relevant box to confirm the attachment.

- For each criterion marked as **Response: REQUIRED**, Tenderers must provide the information specified in the corresponding section of the form no later than the date set for the return of the form and the tender, and, where appropriate, confirm in the box provided that it is included with the completed questionnaire in the tender submission. Failure to do so could invalidate the submission.
- For criteria marked as **Response: SUBMIT ON REQUEST**, Tenderers should provide the information if requested (that is if the Contracting Authority does not already have such up-to-date material on file) before the commencement of the evaluation exercise as notified by the Contracting Authority.
- For criteria marked as **Response: NOT REQUIRED**, Tenderers should not provide the information.
- For H&S criteria marked as **Response: Not Applicable**, Tenderers should not provide the information. This should be selected for all the criteria in a H&S supplement when the supplement is not required for the principal service(s) in the questionnaire.

If a tenderer is submitting multiple forms that require common information for any one project, it may be possible to submit such information just once, if clearance (in writing, e.g. letter or email) to do so is obtained in advance from the Contracting Authority.

After the closing date, Tenderers may be asked to clarify aspects of evidence supplied, by written submission, by interview or by both, for any of the suitability assessment criteria specified as **Required** or **Submit on Request**. If such clarification is requested, any additional material supplied must be strictly to supplement material already provided in the original submission.

Applications by Consortium or Joint Venture: Where a Tenderer is a Consortium or Joint Venture, the questionnaire is filled out for each member of that Consortium or Joint Venture and all the completed questionnaires are presented as a single submission. These questionnaires are then evaluated and marked as a single submission. All submissions are taken into account and evaluated on a pass/fail basis as if the information was submitted in one single questionnaire.

Applications with Specialists Works: A tenderer must propose at least one specialist for each of the Specialist Work Areas listed by the Contracting Authority at sub-section 1.6. For each area a specialist's Questionnaire is provided by the Contracting Authority to be completed and evaluated for each specialist proposed for that area. The maximum number of nominees allowed is indicated at 1.6. At least one specialist must pass for each area to enable the main contractor to pass.

Alternative Specialists: Tenderers may propose alternative specialists to those the Contracting Authority proposes in the tender documents for Special Work Areas listed at sub-section 1.7. If Tenderers avail of this option they must complete the specialist's Questionnaire (W3) prepared by the Contracting Authority so that each alternative specialist proposed can be evaluated. The maximum number of alternative specialists allowed for each specialist area of work is three. If the Tenderer is relying solely on its alternative specialists, at least one must pass for each area to enable the main contract Tenderer to have its tender evaluated.

RESPONSE: REQUIRED

If any one of the grounds specified in Article 54 of Directive 2004/17/EC (and Regulation 56 of SI No 50 of 2007) or Articles 45 and 51 of Directive 2004/18/EC (and Regulation 53 of SI No 329 of 2006) apply to the tenderer or any member of the tenderer Consortium or Joint Venture or their parent companies, the tenderer will be excluded from this competition⁴ (subject to footnote). To confirm that none of these grounds apply, the DECLARATION FORM⁵ supplied with this questionnaire (see Appendix A) must be included with the submission⁶ signed and witnessed within the past 12 months.

Prior to appointment, the successful tenderer will be required to produce a current tax clearance certificate or C2 certificate; or a statement of suitability on tax grounds and current certificates from a relevant non-Irish country.

(b) will be completed, signed, witnessed and submitted at the appropriate time if requested (if Response is SUBMIT ON REQUEST).

⁴ Before a tenderer, in relation to a breach under 2(a)-(d) in form at Appendix A, is excluded the tenderer may make a case and provide supporting evidence as to why they should not be excluded. The Contracting Authority must consider this evidence before making a decision whether to exclude or include the tenderer.

⁵ In Ireland and the UK this must always be witnessed in the presence of a Commissioner for Oaths. In other jurisdictions where there is no provision for a declaration on oath one of the alternative arrangements appropriate to the jurisdiction can be provided.

⁶ The declaration can be in the form of a certified copy signed by the tenderer or a person authorised to sign on behalf of the tenderer. It should be accompanied by a confirmation, signed by the tenderer or on behalf of the tenderer, that since the making of the declaration the legal situation of the tenderer regarding the circumstances in the declaration has not changed in any way that would prohibit the tenderer from making a new declaration on oath on the same basis. In relation to a certified copy the Contracting Authority should reserve the right to inspect the original at any time if considered necessary.
