- (c) Terms defined in this RFI Questionnaire shall have the same meaning as in the RFI.
- (d) Subject to any word count or page limits specified, Applicants are permitted to add additional lines to the pro-forma tables and boxes set out within the RFI Questionnaire as required but are not permitted to adjust the headings or questions as contained therein.
- (e) The information requested in the RFI Questionnaire shall be submitted in English and where copies of original documents are provided in languages other than English, a complete and accurate English translation must be provided, or the documents will not be considered during the pre-qualification process. In the event of any discrepancy or difference between various languages, the version in the English language will prevail.

Title: Volume 2 of 2 - Request for Information

- (h) If an Applicant intends to rely on information submitted in response to one question as its response (in whole or in part) to a response to another question, in this RFI Questionnaire, the Applicant shall direct the Contracting Authority to where such information is first set out. In such circumstances, the relevant submitted information shall be considered to have been submitted in response to the relevant question (including for example for the purposes of assessing submission word counts and page limits). It is not permissible for Applicants, where cross referring to information contained in other sections of its submission, to submit any additional information in further response to the question where to do so would exceed any applicable word counts or page limits; Please note that information submitted which exceeds relevant page limits or word counts shall be disregarded. .

2. Lead Applicant

- (a) Subject to the Contracting Authority's absolute discretion, the Lead Applicant is the entity whom it is proposed will enter into the Contract with the Contracting Authority, if the Applicant is successful. The Lead Applicant will be responsible for information provided in response to the RFI Questionnaire and the Contracting Authority shall rely on its representations in this regard. The RFI Questionnaire identifies where questions must be responded to by the Lead Applicant only, and where questions must be responded to by the Lead Applicant on behalf of the whole Applicant group.¹
- (b) Where the Applicant is part of a consortium, all members of the consortium may be required to complete Part C, 1 (Financial Statement) and all members of the consortia will be evaluated and must be, in the Contracting Authority's opinion, financially robust to meet the minimum requirements in Step Two (Volume 1 Pat 8.6).

- (b) Applicants are required to provide all of the details that they consider necessary to provide a sufficient response to each question or item set out in the RFI Questionnaire. Applicants shall not assume that the Contracting Authority has any prior knowledge of them or of their experience or organisation. It shall be noted that the non-provision of any information requested, insufficient detail to adequately explain any part of the response to the RFI Questionnaire, or any failure to comply with the express provisions of the RFI or to supply the information sought in the RFI Questionnaire may be considered grounds for exclusion from the Competition.
- (c) Any reference in the RFI Questionnaire to experience gained within a previous number of years means experience gained in the required period of years prior to the date of issue of the OJEU notice for the Competition, unless another date is explicitly stated. In response to Part J: Experience of the RFI Questionnaire, projects awarded under separate contracts shall not be aggregated for the purpose of determining their status in relation to the required timeframe (although separate phases of a project that are awarded under separate contracts may be considered where the phases are undertaken consecutively without a significant break in the timeframe). Similarly, in response to Part J: Experience of the RFI Questionnaire, single projects (or related contracts where one contract has more than one site or building) cannot be split and put forward as separate examples of experience within the required timeframe.
- (d) Projects used to demonstrate experience shall be limited in each case to the maximum number specified. If more than the maximum number is provided, the Contracting Authority will evaluate the projects in the order in which they appear in the response to the RFI Questionnaire up to the maximum number permitted and the remainder will be ignored.
- (e) All Submissions shall be in A4 format (unless it is expressly stated that another format is acceptable).
