2.20 Site Visit – MANDATORY

2.20.1 Attendance at the site visit is mandatory for all Tenderers.

Tenderers are required to attend the site visit regardless of whether they are capable of supplying all, some, or none of the Initial Requirements. The purpose of the visit is to provide Tenderers with an understanding of the broader scope of the Framework Agreement and the range of requirements that may arise during its term.

The site in Carrick-on-Shannon was developed to support the delivery of healthcare training programmes within MSLETB and will provide Tenderers with an opportunity to view and better understand the facilities, equipment, and resources required to support these programmes. Similar requirements also exist at MSLETB's Mayo locations, although those facilities are more established.

Tenderers should note that the site visit is not limited to the Initial Requirements identified in this RFT. Rather, it is intended to assist Tenderers in understanding the potential requirements that may arise under the Framework Agreement over its potential full four-year duration and in assessing their ability to deliver products and services across the Framework categories.

The Contracting Authority will facilitate Tenderers of an inspection of the Contracting Authority's premises, at Carrick-on-Shannon, Co Leitrim. A site visit

to view the Contracting Authority's premises or facilities at Unit 5, The Courtyard, Main Street, Carrick-on-Shannon, Co. Leitrim N41 YH28 shall be organised on **WEDNESDAY 19TH AUGUST** between the hours of **10 a.m. – 2p.m.**
