Part 1: Introduction

- 1.1 The Office of Public Works (OPW) (the “Contracting Authority”) invites tenders (“Tenders”) to this request for tenders (“RFT”) from economic operators (“Tenderers”) for the provision of the services as described in Appendix 1 to this RFT (the “Services”).
- 1.2 In summary, the Services comprise: the development and management of a programme of non-statutory consultations and public engagements, and related services as set out below, to support the Office of Public Works who are leading a consultation process in relation to the future redevelopment of the General Post Office, O'Connell Street Lower, Dublin 1 (GPO Complex). The future redevelopment of the GPO Complex is a project of local, national and international significance. As such, and prior to the development of any project proposals, wide-ranging consultation is required. This will include collaboration with local communities alongside regional, national and international engagement; all in a creative, inclusive, and respectful manner. The feedback from the consultation will input to the overall GPO Complex redevelopment processes.

- 1.3 *Not Used:*
- This public procurement competition will be divided into [Insert number] lots (each a “Lot”) as described below. Each Lot will result in a separate contract.
- 1.4 This public procurement competition (the “Competition”) will be conducted in accordance with the open procedure under the European Union (Award of Public Authority Contracts) Regulations 2016 (Statutory Instrument 284 of 2016) (the “Regulations”). Any contract that may result from this Competition (the “Services Contract”) will be issued for a term of **24 months** (“the Term”).
- 1.5 *Delete and replace with “Not Used” if not applicable:*
- The Contracting Authority reserves the right to extend the Term for a period or periods of up to **12 months** with a maximum of **three (3)** such extension or extensions on the same terms and conditions, subject to the Contracting Authority’s obligations at law.
- 1.6 The Contracting Authority estimates that the expenditure on the Services to be covered by the proposed **Services Contract** may amount to some €240,000 (excl. VAT) over the Term and any possible extensions. Tenderers must understand that this figure is an estimate only based on current and future expected usage.
- 1.7 Contracting Authority policy seeks to encourage participation on a fair and equal basis by Small and Medium Enterprises (“SME”)s in this Competition. SMEs that believe the scope of this Competition is beyond their technical or business capacity are encouraged, subject to paragraph 2.5, to explore the possibilities of forming relationships with other SMEs or with larger enterprises. Through such relationships they can participate and contribute to the successful implementation of any Services Contract that may result from this Competition and therefore increase their social and economic benefits.

Larger enterprises are also encouraged, subject to paragraph 2.5, to consider the practical ways that SMEs can be included in their proposals to maximise the social and economic benefits of any Services Contracts that may result from this Competition.

Part 2: Instructions to Tenderers

2.1 IMPORTANT NOTICES

2.1.1 While every effort has been made to provide comprehensive and accurate information in all notices and documents prepared for the purposes of this Competition, the Contracting Authority does not accept any liability or provide any express or implied warranty in respect of any such information. Tenderers must form their own conclusions about the solution needed to meet the requirements set out in this RFT and may wish to consult their legal advisers.

2.1.2 The Contracting Authority does not bind itself to accept the lowest priced or any Tender. This RFT does not constitute an offer or commitment to enter into a Services Contract. No contractual rights in relation to the Contracting Authority will exist unless and until a formal written Services Contract has been executed by or on behalf of the Contracting Authority. Any notification of preferred bidder status by the Contracting Authority shall not give rise to any enforceable rights by the Tenderer. The Contracting Authority may cancel this Competition at any time prior to a formal written Services Contract being executed by or on behalf of the Contracting Authority.

The award of a Services Contract does not confer exclusivity on the successful Tenderer.

2.1.3 This RFT supersedes and replaces any and all previous documentation, communications and correspondence between the Contracting Authority and Tenderers, and Tenderers should place no reliance on such previous documentation and correspondence.

2.1.4 In this clause 2.1.4, “Data Protection Laws” means all applicable national and EU data protection laws, regulations and guidelines including but not limited to Regulation (EU) 2016/679 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (the “General Data Protection Regulation”), and any guidelines and codes of practice issued by the Office of the Data Protection Commission or other supervisory authority for data protection in Ireland from time to time.

The Contracting Authority will be a Data Controller (where Data Controller has the meaning given under the Data Protection Laws) in respect of any Personal Data (where Personal Data has the meaning given under the Data Protection Laws) required to be provided by the Tenderer in response to this RFT.

The Tenderer, as Data Controller in respect of any Personal Data provided by it in its Tender, is required to confirm in the statement required under paragraph 2.4 below that all Data Subjects (where Data Subject has the meaning given under the Data Protection Laws) whose Personal Data is provided by the Tenderer have consented to the processing of such Personal Data by the Tenderer, the Contracting Authority, the Evaluation Team and the supplier of the etenders.gov.ie website, for the purposes of the participation of the Tenderer in this Competition or that the Tenderer otherwise has a legal basis for

providing such Personal Data to the Contracting Authority for the purposes of its participation in this Competition.

- 2.1.5 The Contracting Authority would refer Tenderers in particular to the provisions of Regulation (EU) 2022/1031 on the access of third country economic operators, goods and services to the Union's public procurement and concession markets and procedures supporting negotiations on access of Union economic operators, goods and services to the public procurement and concession markets of third countries (International Procurement Instrument – IPI), and to their obligation to comply therewith.

In particular, tenderers and candidates should note in Article 6 of Regulation (EU) 2022/1031, the obligations for a Contracting Authority in the context of a procurement procedure where the EU Commission has adopted an IPI measure.

- 2.1.6 Tenderers are referred to the provisions of Regulation (EU) 2022/2560 of the European Parliament and of the Council on Foreign Subsidies distorting the Internal Market, in addition to Commission Implementing Regulation (EU) 2023/1441, and their obligation to comply therewith. In particular, tenderers and candidates should note the requirements in Articles 28 and 29 of Regulation (EU) 2022/2560 relating to the prior notification or declaration of foreign financial contributions, where the estimated value of the public procurement procedure is equal to or greater than the applicable financial thresholds set out therein. In that regard, Tenderers and Candidates are referred to Appendix 3A of the RFT.

2.2 COMPLIANT TENDERS

- 2.2.1 If a Tenderer fails to comply in any respect with the requirements of this paragraph 2.2.1, the Contracting Authority reserves the right to reject the Tenderer's Tender as non-compliant or, without prejudice to this right and subject to its obligations at law, to take any other action it considers appropriate including but not limited to:

- seeking written clarification from the Tenderer;
- seeking further information from the Tenderer; or
- waiving a requirement, which in the Contracting Authority's view, is non-material or procedural.

Tenderers are required:

- (a) To complete and submit with their Tender the electronic version of the European Single Procurement Document ("[eESPD](#)"). Tenderers may submit an eESPD which has already been used in a previous procurement procedure PROVIDED THAT they confirm that: (i) the information contained in it continues to be correct and (ii) that they satisfy the Selection Criteria for this Competition as set out at part 3.2 below;
- (b). To submit all documentation which this RFT requires to be submitted with their Tender;
- (c) To follow the format of this RFT and respond to each element in the order as set out in this RFT;
- (d) To conform to and comply with all instructions and requirements set out in this RFT;

- (e) To submit the statement required under paragraph 2.4 below; and
- (f) Not to alter or edit this RFT in any way.

2.2.2 Without prejudice to the generality of paragraphs 2.2.1, failure to comply with paragraph 2.6.1, 2.6.2 or 2.6.3 below will render the Tender non-compliant and it will be rejected.

2.3 SERVICES CONTRACT

- 2.3.1 Tenderers should note the terms and conditions of the Services Contract at Appendix 5 to this RFT.
- 2.3.2 Tenderers are required to confirm their acceptance of the terms and conditions of the Services Contract by signing the Tenderer's Statement at Appendix 3. Tenderers may not amend the Services Contract.

2.4 ACCEPTANCE OF RFT REQUIREMENTS

Each Tenderer is required to accept the provisions of this RFT. ALL TENDERERS MUST RETURN, with their Tender, a scanned signed copy of the Tenderer's Statement, as set out in Appendix 3, printed on the Tenderer's letterhead. The Contracting Authority must be able to read the scanned signature of the Tenderer. If possible, please sign documents using blue ink. If the Contracting Authority cannot read the scanned signature, Tenderers may be requested to re-submit. Tenderers may not amend the Tenderer's Statement.

2.5 CONSORTIA AND PRIME / SUBCONTRACTORS

Where a group of undertakings (in whatever form and regardless of the legal relationship between them) come together to submit a Tender in response to this RFT, the Contracting Authority will deal with all matters relating to this Competition through a single nominated entity authorised to represent all members of the group of undertakings. The Tenderer must provide details of all members of the group of undertakings and their role in the Tender and clearly set out the contact details including name, title, telephone number, postal address, facsimile number and e-mail address of the nominated entity authorised to represent the Tenderer and to whom all communications shall be directed and accepted until this Competition has been completed or terminated. Correspondence from any other person will NOT be accepted, acknowledged or responded to.

Prior to and as a condition of award of any Services Contract, the successful Tenderer shall be required to designate a single entity who will carry overall responsibility for the Services Contract (the "Prime Contractor"), irrespective of whether or not tasks are to be performed by a subcontractor or other consortium member (the "Subcontractor").

Tenderers should be aware that the “Submit” button will be disabled automatically at the Tender Deadline.

1. INTRODUCTION TO THE CONTRACTING AUTHORITY

The Office of Public Works (OPW) was established in 1831, and plays a pivotal role in managing the State's property, heritage, and flood risk infrastructure. Operating under the Department of Public Expenditure, Infrastructure, Public Service Reform and Digitalisation, the OPW's remit spans three core areas of Estate Management, Heritage Services, and Flood Risk Management and includes the following key areas of work:

- Managing 2,500 State properties, including around 530 office buildings for civil servants and more than 680 Garda bases.
- Leading in the delivery of significant infrastructural projects and programmes for the State, including Brexit buildings at ports, the construction of the Forensic Science Ireland Laboratory and the rapid build homes programme for Ukrainian families.
- Maintaining and presenting iconic heritage properties, including two UNESCO world heritage locations of Scelig Mhichíl and Brú na Bóinne, 780 national monuments and over 5,000 acres of gardens and parklands.
- Leading Ireland's management of its flood risk at a time of climate crisis. This work includes implementing 150 flood relief schemes under the National Development Plan to 2030. The OPW also maintains some 12,000km of river channels and 800km of embankments.
- In line with the Interdepartmental Report on Coastal Change Management Strategy, the OPW is undertaking a lead role in the technical assessment of coastal erosion.
- In addition, the OPW organises State events like Presidential visits, manages the State art collection, and oversees online sales of Government publications and provides election facilities for the State.

Through these functions, the OPW not only supports government operations but also preserves national heritage and protects communities from environmental risks, making it a cornerstone of Ireland's public infrastructure and cultural stewardship.

2. BACKGROUND AND OBJECTIVES OF THIS COMPETITION

2.1 REDEVELOPMENT OF THE GPO COMPLEX

The objective of this competition is to outline the Contracting Authority's requirements in relation to a development and management of a programme of non-statutory Public Consultations and Engagements

(“the services”) regarding the future GPO Complex redevelopment, a priority project of the Irish Government.

Background

In May 2024, the Government appointed a Dublin City Taskforce to take a holistic view of the measures required to rejuvenate Dublin city centre, north and south, to make Dublin city centre a more thriving, attractive, and safe place; and a desirable location to live, work, do business and visit.

Following the Taskforce’s Report and Recommendations (published in October 2024), as agreed by the Government, the Department of the Taoiseach convened an Interdepartmental Group to examine the recommendations made by the Dublin City Taskforce.

The Interdepartmental Group, chaired by Department of the Taoiseach, submitted a report to the Government in June 2025 with a 10-year Roadmap for Delivery setting out a comprehensive implementation path for the Taskforce Report.

The Government agreed that the Roadmap chart the implementation of the Taskforce Report across three phases, over 10 years, at the heart of Dublin city and that a ten year Integrated Area Strategy would be developed for Dublin City to optimise funding and investment, and tackle vacancy and dereliction. A new Oversight Board was established to provide strategic direction and oversight for delivery of the Roadmap and this has met regularly since its establishment in June. Its work dovetails with that of Dublin City Council’s Rejuvenation Action Group, which is focused on tackling issues relating to safety, movement and public realm at the heart of Dublin City

As part of the Roadmap, the Government also agreed the overall future GPO Complex redevelopment project as an ambitious and historic project, managed and delivered by the Office of Public Works, would be a central part of the Roadmap for Delivery for Dublin City and a core element of the 10-year Integrated Area Strategy for Dublin city centre.

In addition to the future GPO Complex redevelopment, there are a number of neighbouring redevelopments and rejuvenation efforts underway in Dublin city centre, such as Dublin City Council’s pilot project focused on Middle Abbey Street, North Frederick Street and environs, the development of the Parnell Square Cultural Quarter, the development of a 1916 Commemorative Centre at 14-17 Moore Street, the MetroLink project, and others.

Further information regarding the Dublin City Taskforce, the historic significance of the GPO Complex, the contemporary condition of the GPO Complex, the Consultation, and previous press releases regarding the project is available at:

<https://www.gov.ie/en/office-of-public-works/campaigns/gpo-complex-redevelopment/>

The most recent progress report on the Roadmap for Delivery of the Dublin City Taskforce is available here:

<https://www.gov.ie/en/department-of-the-taoiseach/publications/dublin-city-taskforce/>

Government Commitment

The OPW has embarked on a process to bring forward proposals for the overall future GPO Complex redevelopment project, prior to the development of proposals a wide-ranging consultation process will be lead by the OPW. In due course, the Office of Public Works will prepare detailed proposals for the future uses of the GPO Complex. These will be subject to approval by Government. The overall future GPO Complex redevelopment project is included in the Office of Public Work’s Sector Investment Plan 2026-2030.

Consistent with the commitments from the Government, it is anticipated that the overall future GPO Complex redevelopment project will incorporate at least some, or all of the following uses:

- i. Public Post Office.
- ii. Significant cultural use/ uses.
- iii. Public realm enhancements.
- iv. Office accommodation for Government.
- v. Retail elements within the existing retail footprint.

Consultation

The overall future GPO Complex redevelopment project is of local, national and international importance.

Given the significance of the project, an early and durational process of engagement with a diverse range of stakeholders will allow for a broad range of ideas and considerations to inform the future redevelopment proposals. The OPW will lead this Consultation. It will require engagement at a local, regional, national and international level. This will include collaboration with communities in a creative, inclusive, and respectful manner. The OPW is mindful of the need to ensure the Consultation reflects the values of the Government, and the wider communities. Given the scale of the work, the OPW requires additional resources to assist in its work, the services set out in this RFT describe those additional resources. The services provider will structure a programme around an Engagement Framework, including phases of awareness and education, listening and debate, and describing and defining. The programme will comply with the Consultation Principles and Guidance as published by the Department of Public Expenditure, Infrastructure, Public Service Reform and Digitalisation. The feedback from the consultation will input to the overall GPO Complex redevelopment processes.

Infrastructure Guidelines

In compliance with the requirements of the 'Infrastructure Guidelines', and in accordance with project approval processes, the OPW will prepare a Strategic Assessment Report and Preliminary Business Case, the feedback from the consultation will inform these requirements.

Set out below are the purpose and multi-criteria headings which the redevelopment of the GPO Complex is intended to address:

- (i) Acknowledge and commemorate the historical and heritage significance of the GPO Complex.
- (ii) Serve existing & emerging communities.
- (iii) Animate the city during the daytime and night-time hours.
- (iv) Support a vibrant city centre economy.
- (v) Facilitate a cultural hub / "worth the trip".
- (vi) Promote public realm safety, permeability and accessibility.
- (vii) Showcase climate and environmental performance.

Temporary Meanwhile Use

The development of Temporary Meanwhile Uses in the core area adjacent to O'Connell Street is a key deliverable under the Oversight Board's Roadmap in the Roadmap for Delivery of the Dublin City Taskforce Report.

While the overall future GPO Complex redevelopment proposals are being progressed the OPW will progress a Temporary Meanwhile Use project within part of the GPO Complex on a fixed term three year basis.

The GPO Public Post Office, GPO Museum and shops along Henry Street and within the GPO Arcade will remain in continuous use, a Temporary Meanwhile Use proposal has been developed to open up other parts of the GPO Complex for new public access and use. These uses, focused around Princes Street North and Henry Street, are designed to bring activity into the area in the short term providing temporary Government office space, alongside opportunities for community, cultural and event use.

Dublin City Council, in partnership with the OPW, will shortly invite community and civic groups to apply to use these spaces through an open call process. This approach is intended to ensure the area remains active, inclusive and connected to the public during the transition period.

2.2 BRIEF TO TENDERERS

Working under the direction and leadership of the OPW to support the implementation of the public consultation and engagement process, the successful tenderer and their subject matter experts as required, will develop and manage a programme of non-statutory consultation, engagement and communication services involving key stakeholders and the public, to be delivered through a comprehensive, trackable communications strategy, and campaign development and delivery.

The successful tenderer will also be expected to support the OPW in updating and managing the communications relating to the open call for temporary meanwhile uses, and updating stakeholders on the temporary meanwhile uses project generally

At a high-level, the OPW is seeking the supply of stakeholder consultation and engagement, communications, and event creation and management services. The OPW welcomes proposals from partnerships or consortia where organisations wish to combine their expertise and resources to meet the full service requirements of this tender.

Services Required

There are several component parts to these services, as follows:

Component 1: To facilitate a national conversation about the historical and future significance of the GPO Complex, through an engaging programme of events held in the GPO and elsewhere.

The GPO is a locally, nationally and internationally recognised landmark and an integral part of Dublin city centre. The future redevelopment of the GPO Complex provides an opportunity to respect the past while considering the role of the GPO Complex in the future of Dublin's local communities, the nation and beyond.

It is expected that the successful tenderer will use the spaces within and about the GPO Complex where appropriate, in addition to developing regional and international opportunities for engagement and feedback, to facilitate a national conversation and inform the future of the GPO complex, addressing the **multi-criteria headings**. The venue for events within the GPO or elsewhere will be confirmed upon appointment of the successful tenderer.

An **indicative** programme is set out below:

- **Dublin City:**
Develop an imaginative and inclusive monthly programme of discussions, interviews, design thinking events over a 9-month period from Q4 2026 to Q3 2027 to take place in the spaces within and about the GPO Complex.
- **Regional:**
Develop an engaging information programme regionally, for example with regional Libraries and/or other partners, to be agreed, across 2026/2027. Tenderers are not expected to travel nationwide but will be required to develop and design information materials and online events e.g. posters, display boards, online talks that can be utilised by partners.
- **National:**
Develop a dedicated online web presence linked to the OPW's dedicated GPO website, with current, reliable information, content and methods that enable public engagement and participation.

Develop an imaginative suite of downloadable materials for schools to inform, educate and involve young people.
- **International:**
Develop an information/outreach programme on the redevelopment of the GPO Complex for our international embassies. The Office of Public Works, supported by the Department of Foreign Affairs and Trade, will lead and connect with these audiences outside of Ireland. The successful tenderer will support this process, this element of the Consultation will be aligned with Ireland's Diaspora Strategy 2026-2030, and its commitments.

Component 2: To design and manage all communication materials and tools as required.

The successful tenderer will be required to provide monthly reports on progress, insights and issues against the communications strategy, which will be agreed prior to appointment.

The successful tenderer will be responsible for designing, delivering, analysing and monitoring all non-technical communications materials and tools required for the programme of non-statutory engagement and consultation. English and Irish versions of all materials are to be included. The OPW will provide translation services, while the successful tenderer will manage and incorporate the translations into the materials. Any materials costs, such as printing, must be agreed in advance with the OPW.

Communications materials and tools are expected to include:

- Exhibition, education, information, design thinking, and presentation materials for the formal and informal engagement opportunities.
- Information to be hosted primarily within the dedicated GPO OPW website ensuring it is the trusted source of information and consultation on the redevelopment of the GPO Complex. Links to be provided within this host website to any content not supported by the gov.ie website framework. Design and management of external website links to be provided by successful tenderer.
- A reliable Qualtrics **or similar** survey/information gathering tool with QR code access which will provide the capacity for capturing all consultation representations – note that 3 surveys will be required to be undertaken at each of the formal engagement phases. As noted, English and Irish language versions of the survey must be made available.

- Communications, dissemination, campaign materials and collateral to be supplied to the OPW for inclusion on their social media channels.
- Monitoring social media and mainstream media and providing responses as required.

Component 3: To develop an inclusive and imaginative way of gathering, analysing and collating feedback, information and data in support of the options appraisal process for the Strategic Assessment Report (SAR) and Preliminary Business Case (PBC), and the Planning Permission/Consent process for the GPO Complex redevelopment.

The [Infrastructure Guidelines](#) require the OPW to submit a Strategic Assessment Report and Preliminary Business Case in relation to the GPO Complex redevelopment. It is required that the successful tenderer will gather information, feedback and stakeholder opinions during the programme of non-statutory consultation and engagement which can be included in both the Strategic Assessment Report and Preliminary Business Case

The OPW will compile the drawings and technical information for the Strategic Assessment Report and Preliminary Business Case and the consultation and engagement venues will be supplied at no cost to the successful tenderer. The successful tenderer will be required to design and manage the public engagement and consultation processes to present information to, and gather feedback from, relevant stakeholders. This will include all exhibitions/design thinking workshops, surveys, website content development, presentations, programming etc., as set out in this RFT. Following appointment, the successful tenderer will be required to agree all third-party materials costs with the OPW.

The successful tenderer will be responsible for designing, collecting and collating all data in a GDPR-compliant manner, using the **multi-criteria headings** outlined above, and as agreed with the OPW.

It is envisaged that there will be formal engagement stages as well as informal opportunities to present proposals and gather ideas and feedback from the public. Formal engagement stages include the following:

- At Strategic Assessment Report Stage (indicative timeframe Q4 2026 to Q1 2027)
- At Preliminary Business Case Stage (indicative timeframe Q4 2026 to Q4 2027)

The informal opportunities will include those outlined elsewhere in this RFT to facilitate national, regional and international conversations.

The tenderer will be expected to design the non-statutory Public Engagement and Consultation process to address the Strategic Assessment Report and Preliminary Business Case outputs, where relevant, as follows:

Strategic Assessment Report

2.3 CONSULTATION PRINCIPLES AND OPW'S ENGAGEMENT FRAMEWORK

The services will be carried out in line with the [Public Consultation Principles & Guidelines](#) published by the Department of Public Expenditure, Infrastructure, Public Service Reform and Digitalisation, in a creative, inclusive, and respectful manner.

The OPW has developed an Engagement Framework which aligns with the Strategic Assessment Report and it is expected that the services provider will structure the programme of non-statutory engagement and consultation around the following phases:

- A. Awareness/Education
- B. Listening/Learning

C. Describing/Defining

Set out below is an indicative approach and programme of engagement using the OPW Engagement Framework. This is not an exhaustive or prescriptive programme - instead it is intended to provide tenderers with a **suggested range of activities** that may be necessary which they are asked to respond to in their response. Liaison between the Contracting Authority and the successful tenderer will be required, prior to formal appointment, in order to finalise the successful tenderer's approach and programme.

Phase of the OPW Engagement Framework	Indicative Approach and Programme
Mobilisation / Design	
Consultation Design	- It is intended that there will be a four week mobilisation period once the successful tenderer is appointed. At the end of the four weeks, the successful tenderer is expected to have developed the OPW-approved consultation plan ready for public announcement, with a view to the consultation programme commencing shortly thereafter.
Detailed Stakeholder Mapping	Stakeholder mapping to include local residents, local community groups, business owners, people who work in the area, public representatives, central and local government, cultural, heritage and historical groups, youth organisations, special interest groups, local community organisations, schools and educational institutions, Government Departments and their bodies aegis, Chambers of Commerce, potential end-users / tenants, Public Service Providers / Policing / Transport, and stakeholders from other redevelopment / rejuvenation projects taking place in the city centre.
Design of Awareness Campaign	Development of an awareness campaign to appropriately engage and consult with the stakeholders including channels such as exhibitions, curated programme of events, print publications, public notices, press articles, newsletters, websites, social media, small briefings, conference presentations and media interviews, to ensure the public and stakeholders are aware of the redevelopment and that a programme of consultation and engagement is commencing.
A. Awareness/Education	
Multi-modal engagements	- Facilitation of first formal engagement stage, to include open day(s)/evening(s) at the GPO accessible to the public and a wide range of stakeholder groups with illustrative drawings, information relevant to communicate the existing GPO Complex, and with experts from the OPW who will be available to answer queries and gather feedback, etc. This will provide an opportunity to gather written and verbal feedback from the public. - This will be an initial phase of increasing public awareness of the history, present day arrangement, extent and condition of the GPO Complex and its environs. - Exhibition about the GPO to be displayed at libraries and embassies, or similar regional and international locations. This exhibition may develop throughout the programme, informing the public of progress on the redevelopment project and how they can get involved. - Presentation materials for engagement with stakeholder groups through their own scheduled meetings / or events e.g. present at the Chambers of Commerce, monthly residents' association meetings, etc. Stakeholders should be identified during the stakeholder mapping exercise. - Curation or facilitation of public talks on a variety of topics related to the redevelopment e.g. cultural and historical significance of the GPO, architecture, urban planning, etc.

	- Online portal/website with all the relevant documentation in one place, link to the survey, contact email details, programme of events etc. Continually updated as the project progresses. - Updating and managing communications to relevant stakeholders in relation to the temporary meanwhile uses project progress and open call progress.
Analysis of findings and synthesis of themes for further debate	- Online and in person surveys encouraging feedback under the multicriteria headings. - Successful tenderer to gather and synthesise all data and present findings to the OPW for consideration as part of the SAR/PBC.
B. Listening/Learning	
Further engagement on selected themes / consultation questions	- A phase of listening to the views of subject matter experts and learning from the views of the public. - Series of events for the public on the cultural and historical significance of the GPO. These events will extend over the course of 2027, reflecting the evolving conversation around the GPO as the project progresses. - Online and in-person survey. - Ongoing information sharing and responding to queries as they arise. - Continue to gather, synthesise, and present findings to the OPW for consideration. Data will again be used to assist in the selection of the range of options for the redevelopment and support the development of the SAR/PBC.
C. Describe/Define	
Share back findings	- Facilitation of second formal engagement stage, open day(s)/evening(s) at the GPO accessible to a wide range of stakeholder groups with illustrative drawings, information relevant to the SAR/PBC stage of the project, to include experts from the OPW who will be available to answer queries and gather feedback, etc. This will provide an opportunity to gather written and verbal feedback. - Selected themes presented back to stakeholders again as part of the PBC, using similar methods to above. Aim of this stage is to show that feedback was considered, what has been done with it, and the narrowed down range of options for the GPO redevelopment is progressing to preferred option stage. (Note: information for this stage of “share back findings” has been provided to allow for tenderers to develop an indicative costing. Exact details and requirements of this stage will be agreed at a later date as the consultation progresses.)
Present scheme design and connect back to public feedback	- Publish the outcomes of the PBC stage to share what has been learnt from the programme of engagement and consultation, the decisions that have been made using that input, why certain options were selected and others were not, and present the final design that will be developed for consent and planning permission stages. - Facilitation of third formal engagement stage during 2028, demonstrating and getting feedback on the approved PBC proposal prior to proceeding to the Pre Planning stage. (Note: information for this stage has been provided to allow for tenderers to develop an indicative costing. Exact details and requirements of this stage will be agreed at a later date as the consultation progresses.)

- (vi) The foreign financial contributions that may be relevant for the assessment of each public procurement may depend on a number of factors such as the sectors or activities involved, the type of financial contributions or other specificities of the case. In light of these specificities, the Commission may request additional information where it considers such information necessary for its assessment.
