- 2.3 Maintain secret and confidential all *Information* furnished to it or otherwise acquired by its servants, employees, agents, affiliates, subsidiaries or sub-contractors save and to the extent that such *Information* has been made available to the public by the HSE or by any third party lawfully in possession thereof and entitled to make such disclosure without restriction;

Should such consent be given, then the obligations of the Service Provider as set out in Clause 2 of this Agreement shall be imposed on that third party by way of a separate written agreement between the Service Provider and the third party, which agreement will terminate automatically upon termination of this Agreement for any reason. In the event that the third party fails to fulfil its obligations set out in Clause 2 of this Agreement, the Service Provider shall remain fully liable to the HSE for the performance by the third party of those obligations;
- 2.8 Not use the *Information* directly or indirectly for any purpose other than in connection with the provision of services to the HSE regarding the Service;

- 2.13.3 Where the Service Provider is required for legal or regulatory compliance to retain a copy of any *Information*, the Service Provider shall provide the HSE in writing with full details of any *Information* they are proposing to retain and the details of the legal and regulatory obligations governing this action.
- 2.13.4 Without prejudice to the obligations at Clause 2.13.3 above, in circumstances where European Union or Irish law requires the Service Provider to retain any *Personal Data* which the HSE has shared with the Service Provider, the Service Provider shall provide the HSE in writing with full details of any *Personal Data* they are legally required to retain and the details of the European Union or Irish legal obligations governing this action, and ensure the *Personal Data* retained by them is anonymised or *Pseudonymised* by them to the HSE's satisfaction and in a manner and to a standard which is satisfactory under European Union law (including, without limitation, the *GDPR*);
- 2.14 Implement appropriate technical and organisational controls in accordance with Section 2(c) of the *Data Protection Acts* and Article 32 of the *GDPR*, to keep the *Information* secure and to protect against accidental or unlawful destruction, loss, alteration, unauthorised disclosure of, or access to the *Information* transmitted, stored or otherwise processed by the Service Provider;

In the event of a *Data Breach*, the Service Provider will (a) investigate the *Data Breach*, (b) provide the HSE with all the relevant details surrounding the *Data Breach*, (c) provide the HSE with details of the measures taken or proposed to be taken by the Service Provider to mitigate the effects and to minimise any damage resulting from the *Data Breach*, and (d) assist the HSE in fulfilling its obligation to notify the relevant supervisory authority and *Data Subjects* of a *Data Breach* in accordance with Articles 33 and 34 of the *GDPR*;

- 2.17 Taking into account the nature of the processing, assist the HSE by appropriate technical and organisational measures, insofar as this is possible, to enable the HSE to fulfil its obligations to respond to requests from Data Subjects exercising their rights under Section 2D of the Data Protection Acts and Chapter III of the GDPR, (including the rights of access to, rectification of and erasure of their Personal Data), and shall promptly comply with any request from the HSE to amend, transfer or Delete such Personal Data.
- 2.18 For the purposes of Freedom of Information / transparency obligations placed upon the HSE (by *FOIA 2014* or otherwise):
- 2.18.1 Procure that it and its servants, employees, agents, subsidiaries or sub-contractors shall assist the HSE, at no additional charge and within such timescales as the HSE may reasonably specify, in meeting any requests for *Information* which are made to the HSE under the *FOIA 2014*, such assistance to include (but not be limited to) the provision of a copy of the requested *Information*.
- 2.18.2 Notwithstanding anything to the contrary in this Agreement, if the HSE receives a request for *Information* pursuant to the *FOIA 2014*, the HSE shall be entitled to disclose all *Information* (in whatever form) as is necessary to comply with the *FOIA 2014*.
- 2.18.3 If, at the request of the Service Provider, the HSE seeks to withhold *Information* protected by this Agreement and a competent authority determines, or the parties subsequently agree, that the *Information* is not exempt, then the Service Provider shall reimburse the HSE for all costs (including but not limited to legal costs) incurred by the HSE in seeking to withhold such *Information* from a request under the *FOIA 2014*.
- 2.18.4 Not (and shall procure that its servants, employees, agents, subsidiaries or sub-contractors do not) respond directly to a request for *Information* under the *FOIA 2014* unless expressly authorised to do so by the HSE.

- 2.19.1 Only in exceptional circumstances and with the written consent of the HSE, should the Service Provider hold *Information* on mobile computing or removable storage devices. Should the business requirements necessitate the holding of *Information* on such devices then the Service Provider shall ensure that only *Information* absolutely necessary for their purpose is stored in this format. The Service Provider will *Delete* or return all copies of the *Information* after the business requirements have been fulfilled, or earlier upon the written request of the HSE.
- 2.19.2 Where the use of mobile computing or removal storage devices is a necessity then the Service Provider will take all necessary precautions to ensure the safety of these devices from theft, loss and unauthorised access. As a minimum all mobile computing and removal storage devices must be appropriately secured including by means of strong encryption and protected by the use of strong complex passwords.

- 2.19.3 The encryption used by the Service Provider on the Service Providers laptops must satisfy or better the requirements of the *HSE Encryption Policy*. The current HSE encryption standard for laptop devices is Advanced Encryption Standard (AES) 256 (http://hse.ie/eng/services/Publications/pp/ict/Encryption_Policy.pdf). The HSE will notify the Service Provider of any relevant changes to the *HSE Encryption Policy*. At any time during the term of this Agreement the HSE may request the Service Provider to set out in writing the current encryption measures used and the Service Provider will provide this information within 5 days. If, in the reasonable opinion of the HSE, the encryption standard employed by the Service Provider is not sufficient, the Service Provider will implement, at their expense, whatever encryption standards are proposed by the HSE. At no time should cipher keys be held on the mobile computing or removal storage device for the data which they secure. In addition, the Service Provider will at all times hold cipher keys in a secure fashion.
- 2.19.4 Under no circumstances encrypted or otherwise is the Service Provider sanctioned by the HSE to download or store *Information* on USB memory sticks/keys.
- 2.20 Ensure the security of the *Information* in transit (including by way of electronic transit/transit by way of electronic communication). Where it is necessary to transfer the *Information*, the Service Provider must take all necessary precautions to ensure the security of the *Information* before, during and after transit.
- 2.20.1 The Service Provider shall ensure that all transfers of the *Information* are legal, justifiable, and only the minimum *Information* absolutely necessary for a given purpose is transferred.
- 2.20.2 All transfers of *Information* should, where possible, only take place electronically via secure on-line channels or electronic mail. Where the Service Provider transfers *Information* electronically, in any form and by any means, the *Information* must be encrypted using strong encryption. The encryption methods used must satisfy or better the requirements of the *HSE Encryption Policy*. The current HSE encryption standard for electronic transfer is SSL (Secure Socket Layer) and TLS (Transport Layer Security) and Advanced Encryption Standard (AES) 256 in the case of encrypted email. The HSE will notify the Service Provider of any relevant changes to the *HSE Encryption Policy*.
- 2.20.3 Where it is not possible to transfer the *Information* electronically, the *Information* may be encrypted and copied to a mobile storage device (with the exception of USB memory sticks/keys) and transported manually. The encryption methods used must satisfy or better the requirements of the *HSE Encryption Policy*. The current HSE encryption standard for mobile storage devices is Advanced Encryption Standard (AES) 256. The HSE will notify the Service Provider of any relevant changes to the *HSE Encryption Policy*. Encrypted mobile storage media, should wherever possible, be hand delivered by the Service Provider to, and be signed for by, the intended recipient. If this is not possible, the use of registered post or some other certifiable delivery method must be used.
