NOTES FOR CONTRACTING AUTHORITIES

Preparing this Document

The Suitability Assessment Questionnaire document comprises two separate parts.

Part 1, this document, which is completed by the Contracting Authority and uploaded to eTenders to provide the information for Applicants about the project, the submission requirements and the Qualification Criteria that will be applied to determine the suitability of Applicants to perform the services.

Part 2, which is completed by Applicants, having been prepared and uploaded to eTenders by the Contracting Authority along with Part 1. The Contracting Authority is required to complete the cover page and section 2.4 where Applicant details are required in addition to those specified.

Part 1 contains the three sections:

- Section 1 Information for Applicants, which requires no input from the Contracting Authority.
- Section 2 Project Particulars, which gives details of the project and the Contracting Authority's requirements for the submission of the response to the Questionnaire ("the SAQ Submission"), the rules of tender and particulars thereof are in the Instructions to Tenderers which accompany this Questionnaire.
- Section 3 Suitability Assessment Criteria, which sets out the Qualification Criteria that apply in the Competition which Applicants are required to meet in order to permit their Tender to be evaluated. This section must be prepared by the Contracting Authority by selecting appropriate suitability assessment criteria to apply as Qualification Criteria and setting minimum standards under each such criterion that are proportionate to the project in question and the type of response that the Applicant is required to provide. Where it is deemed appropriate, the Contracting Authority may specify those criteria for which Applicants may declare that they meet the standards required under such criteria. Where this is a permitted response, Applicants must be able to provide evidence in support of such declarations promptly should this be requested at any stage by the Contracting Authority.

Part 2, Applicant Details and Declaration also contains three sections:

- Section 1 General.
- Section 2 Applicant Details, which is used to collect basic information about the Applicant and any sub-contractor proposed to provide a specialist skill or other entities upon whom the Applicant relies in order to meet the requirements of any Qualification Criteria in Part 1 of the Questionnaire. If the Contracting Authority requires further details in addition to the standard details therein, the Contracting Authority must specify these requirements in section 2.4 prior to issuing Part 2. The Applicant must complete Section 2.
- Section 3 Applicant Declaration, the Applicant must complete and sign Section 3 and provide any evidence or information required by Part 1 of this Questionnaire.

The Questionnaire is issued as a protected MS Word form (text other than form fields is protected).

IMPORTANT NOTICE FOR APPLICANTS

Purpose

This Suitability Assessment Questionnaire (“this Questionnaire”) is issued in relation to a tender competition run under the open procedure. Its purpose is to obtain information to carry out a suitability assessment of Applicants responses so as to establish if they should go forward to tender evaluation that may lead to a contract award for those services stated in Section 2.4 of the Project Particulars.

In this Questionnaire, the term Applicant is used for an Individual (Sole) Trader, a single entity, a Partnership, a Consortium or any other type of Joint Venture seeking to be awarded the Contract. If the role of PSDP or PSCS is required, the entity providing that skill must be an individual (sole) trader or company (i.e. body corporate) that constitutes an acceptable entity for the purpose of this project.

This Questionnaire and any related documents must not be used for any other purpose.

This Questionnaire should be read in conjunction with the Instructions to Tenders (“the Instructions”) issued with this Questionnaire.

Applicants must also review the Instructions to Tenderers documentation and should note that the general competition rules and Contracting Authority reserved rights set out therein (e.g. with regard to query process) apply equally to this Questionnaire.

Multiple Participation

If any individual or group of individuals is included in more than one Applicant’s submission for the same contract, a statement should be provided to the effect that the Applicant is aware of this multiple participation and that it has been brought to the attention of all the consortia of which that individual or group is a member.

The Contracting Authority will then investigate the circumstances to see if this multiple participation could result in a distortion of competition. Where it is felt that competition may be distorted, the Contracting Authority may take such steps as it deems appropriate which may include limiting the number of bidding teams with which an entity may participate, disqualifying relevant Applicants or such other steps as it deems appropriate subject to the principles of applicable law.

GLOSSARY

Acronyms or capitalised terms used throughout this Questionnaire are defined in this glossary.

Applicant	The term is used for an Individual (Sole) Trader, a single entity, a Partnership, a Consortium or any other type of Joint Venture seeking to be awarded the Contract.
Specialist Skill Provider	In this Questionnaire, refers to an entity proposed by the Applicant to provide specialist skills services described in Section 1.4 of the Particulars. Note that a Specialist Skill Provider may be: (a) the Applicant itself (or a member of an Applicant which is a Consortium, Joint Venture or Partnership); or (b) a subcontractor.

Qualification Criteria	The suitability assessment criteria selected by the Contracting Authority in Section 3 of this Questionnaire to apply in this Competition and are those criteria where "Yes" is marked in the column "Applicable Criterion/Requirement".
Questionnaire	This Suitability Assessment Questionnaire, including annexes and related documents.
Specialist Skills	Those specialist service areas described in the Section 2.4 of the Particulars required as part of the principal services.
Tenderer	A person or entity (or group of persons) who submits a tender

SECTION 1: INFORMATION FOR APPLICANTS

1.1. INTRODUCTION

This Section 1 contains information in relation to the completing this Questionnaire.

Section 2, Project Particulars (“the Project Particulars”), set out the submission requirements and summarises the key features of the service provision such as the Principal Services required, Specialist Skills required, any known particular risks, etc. Applicants should read this information carefully before submitting their response to this Questionnaire (“the SAQ Submission”). The associated Tender documents will provide greater detail on the scope of the service provision. The Project Particulars also state whether the grounds for exclusion contained in Regulation 57 (Exclusion Grounds) of SI 248/2016 (and any additional grounds for exclusion) apply to this Competition.

Section 3, Suitability Assessment Criteria sets out the minimum standards under the Qualification Criteria that the Applicant must meet in order to pass the suitability assessment. In an open procedure the Qualification Criteria are assessed on a Pass/Fail basis. Where a response to the Questionnaire fails to meet the minimum standards set out in Section 3, then the relevant Applicant will be eliminated from further participation in the Competition. The Applicant must follow the instructions set out in the Questionnaire and submit the information required in the format described otherwise the submission may be declared invalid.

1.2. SUITABILITY ASSESSMENT SUBMISSION REQUIREMENTS

Applicants must complete and submit the following documents (“the SAQ Submission”):

- (i) Part 2 of this Questionnaire; and
- (ii) where the Project Particulars state that grounds for exclusion in Regulation 57 of SI 284/2016 apply to this Competition, a self-declaration regarding the Tenderer’s circumstances either in the form of an ESPD, or Appendix A, as stated in the Project Particulars; and
- (iii) any evidence or other supporting documentation required by this Questionnaire.

Completing Part 2 of the Questionnaire

The Tenderer must always complete and submit Part 2 of this Questionnaire (in addition to providing any evidence or supporting documentation required by this Questionnaire). In Part 2, Tenderers must provide information on the Tenderer’s organisation(s) and, where applicable, any entities upon whose capacity they rely for the purpose of meeting the requirements of any of the Qualification Criteria in Part 1.

The Tenderer must always complete and sign the Declaration in Part 2, otherwise the SAQ Response may be declared invalid. In addition, in competitions above the EU thresholds, the Applicant shall also complete an ESPD. The Declaration in Section 3 must still be completed and signed even where the Tenderer has submitted an ESPD.

Where an ESPD is required to be submitted, the Tenderer must complete Parts II (Information concerning the economic operator), Part III (Exclusion Grounds), Part IVα (Selection Criteria) and Part V (Concluding Statement) of the ESPD. Part IVα is completed by selecting “YES” to confirm that the Tenderer meets the Qualification Criteria in the Competition.

Tenderers may use an existing ESPD, provided however that their circumstances have not changed since the ESPD was originally completed.

SECTION 1: INFORMATION FOR APPLICANTS

Providing Evidence

Where evidence is required to be submitted as part of the SAQ Response, the Tenderer must only provide evidence that is current up to the date of submission of the SAQ Response.

Failure to submit the required evidence with the SAQ Response may result in exclusion from this Competition.

Where the required means of submission of the SAQ Response is by electronic submission, the Contracting Authority reserves the right to inspect any original hardcopy signed documents.

1.3. SAQ SUBMISSIONS WHERE MULTIPLE PRINCIPAL SERVICE PROVIDERS ARE REQUIRED

Where there are multiple Principal Service Providers required under Section 2.4 of the Project Particulars, a separate Questionnaire will be prepared by the Contracting Authority for each Principal Service Provider. The corresponding Part 2 of each such Questionnaire of each such Questionnaire must always be completed by the Applicant for the Principal Service in question, and the responses to the separate Questionnaires collated by the Lead Applicant and returned as a single Suitability Assessment Submission.

Where a single entity applies for more than one Principal Service, they do not need to respond to criteria 3.2 and 3.3a – 3.3g (as may be applicable) for each Questionnaire, provided they submit the required information in one of their responses and reference it in all of their responses to the Suitability Assessment Questionnaire(s).

1.4. SAQ SUBMISSIONS BY CONSORTIA, JOINT VENTURES OR PARTNERSHIPS

Where an Applicant is a Consortium, Joint Venture or Partnership, each member of the Consortium, Joint Venture or Partnership must respond to the applicable sections of Section 3 of this Questionnaire and (and Part 2) and the responses are submitted as a single SAQ Submission by the Lead Member.

Where Applicants are required to submit a completed ESPD, each member of a Consortium, Joint Venture or Partnership, and any entity being relied upon for the purposes of this Questionnaire, each member of the Applicant must submit a completed ESPD.

1.5. SPECIALIST SKILL PROVIDERS

Where specialist skills (as identified in Section 2.4 of the Particulars) are required, these may be provided either by the Applicant itself or by specialist sub-consultants and in both cases, evidence required should accompany the Application as instructed in the Questionnaire. Where evidence is provided in support of any criteria, the Applicant must reference the criterion to which it refers.

Where an Applicant proposes that a sub-consultant undertakes a specialist skill, such an entity will be treated as an entity being relied upon by the Applicant, and the requirements of Section 1.6 below and Section 3.2 Reliance on Resources of the Instructions to Tenderers, apply to such an entity. Where an Applicant is required to submit an ESPD, the entity relied upon by the Applicant for a specialist skill must also submit an ESPD.

The Contracting Authority reserves the right to require a collateral warranty in the form of MF 2.3 *Collateral Warranty for Sub-Consultants* for any sub-consultant providing the Specialist Skills listed in the Project Particulars.

SECTION 1: INFORMATION FOR APPLICANTS

1.6. RELIANCE ON RESOURCES

Where, in order to meet any applicable criteria in Section 3.3 (Financial and Economic Standing) (including for the avoidance of doubt, with respect to evidence of turnover), and/or in Section 3.4 (Technical Capability) of this Questionnaire, an Applicant (or any member of an Applicant which is a Joint Venture, Consortium or Partnership) relies on the capacities of other entities or undertakings with which it is directly or indirectly linked, whatever the legal nature of those links may be (including, for example, but not limited to, a parent company and/or a subcontractor/sub-consultant, including a specialist skill provider who is not the Applicant itself, the entity being relied upon shall provide a response to the applicable Sections of this Part 1 and Part 2, and where the ESPD applies to this Competition, the entity shall complete an ESPD.

The Applicant will be required to demonstrate to the satisfaction of the Contracting Authority that the capacities relied upon will actually be available to the Applicant if it is awarded the Contract.

For the purposes of demonstrating that the resources relied upon will be available at this stage of the Competition, the Contracting Authority will accept¹:

- a letter in the form of Appendix 1 to this Questionnaire – *Letter from entity relied upon*; or
- a completed ESPD signed by the entity being relied upon (where an ESPD applies in this Competition).

If availability of capacities is not established to the satisfaction of the Contracting Authority, the Contracting Authority will assess the suitability of the Applicant without taking into account the capacities of such an entity or entities.

The Applicants attention is drawn to the requirements of Section 3.2 Reliance on Resources in the Instructions to Tenderer for further detail in relation to requirements to provide contractual commitments at contract stage.

1.7. RESPONDING TO QUALIFICATION CRITERIA

The qualification criteria that will be used in evaluating SAQ Submissions to see if they pass the suitability test are set out in Section 3 and are those criteria where “Yes” is marked in the column “Applicable Criterion/Requirement”. All are simple Pass/Fail criteria – these are requirements that must be met in full and, if passed, the Applicant will satisfy the suitability test. If a criterion is failed, the Applicant is eliminated from the tender competition. Where specialist skills and Health and Safety sub-criteria are included in any criterion, then these too must be passed, otherwise the Applicant will be eliminated from the tender competition.

The Applicant must follow the instructions and respond as required by the following titles under the ‘Response’ heading for each criterion:

Where the response for a qualification criterion is marked as Response: **EVIDENCE REQUIRED**, in addition to providing the completed Part 2 of this Questionnaire, Applicants must provide the information specified. Applicants should not purport to have responded to any such criterion solely by having provided the completed Part 2 of this Questionnaire (and/or an ESPD [where an ESPD is required]). The evidence submitted must prove that the Applicant meets the relevant criterion as of the date of submission of the Applicant's Tender. Failure to submit the required evidence with the SAQ Submission may result in exclusion from the Competition.

¹ Alternate evidence may be acceptable to the Contracting Authority

SECTION 1: INFORMATION FOR APPLICANTS

Where the response for a qualification criterion marked as Response: **DECLARATION REQUIRED**, it shall suffice for the purposes of responding to this Questionnaire for the Applicant to complete the Declaration in Part 2 of this Questionnaire, and may also respond by way of the ESPD, where an ESPD is required. The Declaration in Part 2 of this Questionnaire will be required even if the Applicant is also submitting an ESPD. The Contracting Authority may, at any time, request supporting documentation substantiating any declaration made in respect of any or all such criteria. Supporting documents must prove that the Applicant meets the relevant criteria as of the date of submission of the Applicant's Tender. Where the Contracting Authority requests supporting documentation substantiating any declaration made in respect of any or all such criteria, the supporting documents must be provided promptly and within the timeframe specified by the Contracting Authority. Failure to provide the requested supporting documentation within the timeframe specified may result in exclusion from the competition.

Where the response for a qualification criterion marked as Response: **NOT REQUIRED**, Applicants should not provide the information.

1.8. GROUNDS FOR EXCLUSION

1.8.1 Regulation 57 of 284/2016

Note: Where a Competition is subject to the application of European Procurement Regulations, Regulation 57 (Exclusion Grounds) of SI 284/2016 will automatically apply. Where a Competition is not subject to the application of the European procurement regulations, a Contracting Authority may elect to apply the grounds for exclusion in Regulation 57 in SI 284/2016 in the Competition. The position for the Competition is set out in the Project Particulars.

The grounds under which the Contracting Authority may exclude an Applicant, any member of an Applicant, or any entity relied upon by the Applicant, from participation in this Competition are set out below.

Where grounds for exclusion apply in the Competition, the Applicant, each member of the Applicant (where the Applicant is a Joint Venture or Consortium or Partnership); and, any entity being relied upon by the Applicant (or any member of the Applicant) (including Applicant's Specialist Skill Providers), must provide a declaration regarding the situations referred to below by completing an ESPD or Appendix A as stated in the Project Particulars.

The term 'Applicant' as used below refers to each of (a) the Applicant (b) a member of the Applicant (where an Applicant is a Joint Venture, Consortium or Partnership) (c) any entity being relied upon by the Applicant.

Subject always to the provisions of Regulation 57 of the European Union (Award of Public Authority Contracts) Regulations 2016 (SI 284 of 2016):

(a) if:

- (i) the Applicant is in one of the situations listed in Regulations 57(1) or 57(3) of SI 284 of 2016; or
- (ii) a member of the administrative, management or supervisory body of the Applicant/member of the Applicant, or a person having powers of representation, decision or control therein, is in one of the situations listed in Regulation 57(1) of SI 284 of 2016,

the Applicant shall be excluded from the Competition;

- (b) if the Applicant (or any member of the Applicant, in the case of a Joint Venture, Group or Consortium), is in any of the situations listed in Regulation 57(4) or 57(8) of SI 284 of 2016

SECTION 1: INFORMATION FOR APPLICANTS

selected by the Contracting Authority for the purposes of this Competition, the Applicant may be excluded from the Competition.

Any Applicant which is in one of the situations referred to above must provide details of any factors or circumstances which it believes are relevant to the Contracting Authority's assessment of whether the existence of these grounds should lead to the exclusion of the Applicant. For example, where an Applicant is in one of the situations referred to above but has taken measures which it believes are sufficient to demonstrate its reliability, that Applicant may provide evidence of such measures to the Contracting Authority for consideration. Applicants should note that, with regard to the situations listed in (a) above, the circumstances which the Contracting Authority may take into account before deciding whether or not to exclude an Applicant are prescribed by law, and Applicants are directed to Regulation 57 of the 2016 Regulations in this regard.

If an entity being relied upon is in one of the situations listed above, the Contracting Authority may require that the Applicant replaces such entity with another entity which is not in any of these situations. In the event that the entity cannot be replaced with another entity to whom the grounds do not apply (including where the Contracting Authority concludes that to permit such replacement would be contrary to law), the Contracting Authority reserves the right to eliminate the Applicant from the Competition.

Where grounds for exclusion apply in the Competition, the Applicant, each member of the Applicant and any entity being relied upon by the Applicant (or any member of the Applicant, including specialist skill providers who are not the applicant itself), must provide a self-declaration regarding the situations referred to above in the form of an ESPD (where the Competition is subject to the application of the European Procurement Regulations), or, by completing the self-declaration in the form of Appendix A – Self Declaration re Regulation 57 (where the Competition is not subject to the application of the European Procurement Regulations), as specified in the Project Particulars.

Note: The Contracting Authority may, at any time during the Competition, require the Applicant to provide the confirmation in MF 2.7 *Declaration Under Oath/Solemn Oath*, and where the Declaration Under Oath/Solemn Oath pre-dates the date of submission, Applicants must also provide the confirmation in MF 2.8 *Confirmation Oath Still Valid*.

1.8.2 ADDITIONAL GROUNDS FOR EXCLUSION

The Contracting Authority reserves the right to exclude any Applicant from the Competition should the Contracting Authority be of the view that entry into the Contract with such Applicant (bearing in mind any Applicant members (where the Applicant is a Consortium, Joint Venture or Partnership), entities relied upon or sub-consultants) would be contrary to any applicable law or regulation, including any applicable sanctions regimes.

Where required in the Particulars, Applicants shall be required to disclose in their SAQ Submission any issues giving rise to possible sanctions applications.

1.8.3 FOREIGN SUBSIDIES REGULATION

Where the Project Particulars state that Regulation (EU) 2022/2560 of the European Parliament and of the Council of 14 December 2022 *on foreign subsidies distorting the internal market* - (the Foreign Subsidies Regulation) - applies to the Competition, (having regard to the estimated value of the Contract²), the FSR Annex forms part of this Questionnaire.

² Where the estimated value of the contract is above €250m [or the equivalent in Lots (€125m)]

SECTION 2: PROJECT PARTICULARS

2.1. REQUIREMENTS IN RELATION TO THE SAQ SUBMISSION

Exclusion Grounds (Regulation 57 of SI 284/2016)	
Tenderers (and members of the joint venture, consortium, partnership and entities relied upon) must complete and submit a self-declaration in relation to Regulation 57 (Exclusion Grounds) of SI 284/2016 the form of:	Appendix A Self Declaration
Regulation (EU) No 833/2014 as amended by Council Regulation (EU) 2022/576 - Sanctions Against Russia	
Tenderers are required to declare, by completing in declaration in Part 2, that the Tenderer, any members of the Tenderer and entities relied upon do not exceed the limit set in Article 5k of Council Regulation (EU) No 833/2014 concerning restrictive measures in view of Russia's destabilising the situation in Ukraine, as amended by Council Regulation (EU) No 2022/578 of 8 April 2022. 2.4 Principal Services Required

CA Note: List below the principal services for which submissions are invited and give each an initial letter(s) code by which it can be referenced (eg, A=Architecture, AR=Archaeology, PM=Project Management, and QS=Quantity Surveying). Outline the scope of the service (eg, full service, partial pre-tender and full post-tender service, or contract supervision only). State the specialist skills in which the applicant is required to demonstrate competency and follow each skill with an initial letter(s) code in brackets so that it may be used for reference (eg, CA=Conservation Architect; FSC = Fire Safety Consultant).

Additional fields may be entered by clicking the plus + symbol in the bottom right hand corner of the table as required.

SECTION 2: PROJECT PARTICULARS

Principal Service: Architecture		Code: A	
Scope of Service:	Architectural design and supervision services in accordance with the Scope of Services detailed within the Brief of Services. The Architect will be the design team leader and will be required to provide all of the professional services (including specialist skills listed below) as necessary to comply with the Contracting Authority's instructions and to ensure satisfactory completion of the project. The Consultant will be required to provide services for stage (ii)b to (v) of the Capital Works Management Framework.

2.5 Other Services

Title of Other Services

2.6 Health and Safety

2.6.1 Project Categorisation for Health and Safety Competence Assessment

Project categorization for purpose of assessment of the role of Principal Service Provider or Specialist Skill Provider where such skills are required under Section 2.4 of the Project Particulars:	Type 1³
--	---------------------------

³ Type 1 applies to projects that have a value of <€1M (Exclusive of VAT); Type 2 applies to projects that have a value of > €1M and < €10M (Exclusive of VAT); and Type 3 applies to projects that have a value > €10M (Exclusive of VAT). However considerations in relation to the H&S risk must also be taken into account in deciding on the project type. If there is a high H&S risk the category may need to be higher than that indicated by the project value above. The category of project chosen then governs decisions to be made about criteria and requirements in Section 2 of the form.

SECTION 2: PROJECT PARTICULARS

The successful Tenderer will be required to comply with the Safety, Health and Welfare at Work Act 2005 and any subsequent Safety, Health and Welfare legislation including the Safety Statement requirement.

The successful Tenderer will also be required to comply with the Construction Regulations particularly where the Construction Regulations apply to the service provision.

Health and Safety competencies for those to whom the Safety, Health and Welfare at Work (Construction) Regulations 2013 (as amended) apply will be assessed as part of Section 3 – the Suitability Assessment Questionnaire.

Areas of the works involving Particular Risks known to the Contracting Authority at the time of issue⁴:

The following is an indicative (non-exhaustive) list of risks and will require further investigation by the appointed design team: Demolition Works / Live Services / Overhead Works / Works involving assembly / Work at heights / Installation of plant / Security of site / Shared access to the site for construction vehicles / Maintaining pedestrian access across construction traffic routes / Working in close proximity to existing underground services / Working directly adjacent to existing occupied buildings / Working in a live environment / Ground conditions / Brown field site / Installation of high level plant / Fire safety during the works and maintaining fire egress routes from existing buildings / Working in confined spaces / Transportation of material and equipment / Works involving electricity / Works involving manual handling, Asbestos and other hazardous materials etc.

⁴ Particular Risks are defined at Schedule 1 to the Safety, Health and Welfare at Work (Construction) Regulations 2013 (as amended). **Please note that the list provided under that Schedule is not exhaustive.**

SECTION 3: SUITABILITY ASSESSMENT CRITERIA

Contracting Authority's Assessment Scheme

Applicants: The table below summarises the qualification criteria that will apply to your service provision, what you are required to submit in response to each criterion and how the criteria will be assessed – in an open procedure it will always be assessed on a pass/fail basis. These requirements (where applicable) are evaluated on a pass/fail basis and Applicants must pass 3.4.1c in order to be evaluated under 3.4c.

A Contracting Authority may only require an Applicant to submit a list of services provided over a maximum period of 3 years. However a Contracting Authority may take into account services delivered over a longer period if appropriate. The period specified in the sub-criterion title above is the period within which the applicant may submit evidence of its technical services provided, it is not mandatory that technical services be evidenced for the whole period. If a firm cannot provide evidence for the entire period (e.g. a firm has not been trading for the whole period) this will not be used as a reason to reject its application.

Principal Service Provider

The minimum standard is satisfactory experience in providing technical services on projects of a similar scale, nature and complexity to the one for which applications are being assessed. (This does not mean to stipulate projects that are identical to the project that is the subject of this Questionnaire.)

Evidence of delivery of technical services should be provided in the form of a list of commissions carried out over the period set out above in the format set out in Appendix B1. These commissions should indicate how the service provider delivered the service. The applicant should provide a Certificate of Satisfactory Execution (Appendix B3) for any project listed on Appendix B1 if so requested by the Contracting Authority. Appendices B1 and B3 should only be submitted with the tender if the response above is 'Evidence Required'. Where a declaration is permitted, evidence in support of the declaration is only required when requested by the Contracting Authority.

SECTION 3: SUITABILITY ASSESSMENT CRITERIA

Any supplementary requirements stated below should be submitted as set out by the Contracting Authority.

Evidence shall be in the form of Appendix B1 – List of Previous Projects/Certificate of Satisfactory Execution and Appendix B3 – Certificate of Satisfactory Delivery of Services. The information provided within Appendix B3 must be concise and relevant.

Applicants are to provide a maximum of three (3) reference projects overall. Any additional examples (more than three) will not be assessed. The Contracting Authority will only review the projects highlighted under Appendix B1 listed Project No. 1 to 3.

Important note - responses to this section should be limited to 2 pages per project (6 pages total).

Minimum Technical Services Provision on Projects Requirements:

Applicants must demonstrate that they have successfully completed projects for each of the three (3) key project characteristics outlined below. Each of the three (3) requirements listed below is a minimum pass requirement. One or more projects may be used to satisfy each of the below requirements.

(1) Project Category: at least two projects of a similar scale and nature (comparable mixed use, residential, commercial, town centre and public building projects are deemed acceptable).
