In consideration of your providing us with the contract documents, we agree not to withdraw this offer until the later of:

- 180 days after the end of the last day for submission of this Tender
- expiry of at least 21 days written notice to terminate this Tender given by us.

Your acceptance of this Tender within that time will result in the Contract being formed between us.

We agree that you are not bound to accept the lowest or any tender you may receive.

We agree that if any contract formed by acceptance of this Tender is determined to be void, voidable, unenforceable, or ineffective, any damages for which you may be liable will not exceed the amount that would have been payable under Clause 14.29 of the Conditions of Engagement on termination under clause 14.9 of the Conditions.

We agree that if, at the date of the Contract formed by the acceptance of this Tender, we have in place Annual Aggregate Insurance:

- (a) we shall monitor the EU and UK market at no longer than yearly intervals to establish whether
 - (i) the Each and Every Insurance, or (ii) better cover than the cover in place at the later of the date of the Contract formed by the acceptance of this Tender or the latest relevant annual renewal, can be obtained at the Increased Premium Rates; and
- (b) if the Each and Every Insurance:
 - (i) becomes available to us at the Increased Premium Rates; or
 - (ii) is not available (or not available to us at the Increased Premium Rates) but better cover than the Annual Aggregate Insurance in place at the later of the date of the Contract formed by the acceptance of this Tender or the latest relevant annual renewal becomes available to us at the Increased Premium Rates,

we shall immediately effect such available cover (subject to having obtained your prior written approval, such approval not to be unreasonably withheld or delayed) and notify you in writing within seven days that we have so effected the cover.

For the purposes of this Tender,

the “**Increased Premium Rates**” means premium rates that do not exceed 125% of the premium rates payable by us for cover on an annual aggregate basis at the time of the applicable annual renewal PROVIDED THAT any difference between (i) premium rates for cover on an annual aggregate basis and (ii) premium rates for the Required Insurance or better cover than the cover in place at the later of the date of the Contract formed by the acceptance of this Tender or the latest relevant annual renewal (whichever is applicable), is not due to any act, omission, default, claim, notice of claim, negligence or otherwise of or against us;

“**Each and Every Insurance**” means professional indemnity insurance on an each and every claim basis at the level set out in the Schedule; and

“**Annual Aggregate Insurance**” means professional indemnity insurance on an annual aggregate basis at the level set out in the Schedule.

SCHEDULE A: CONTRACT PARTICULARS¹

INTERPRETATION

The Agreement is organised in elements, by individual numbers and line breaks, and titled groups, within each clause. One purpose is to identify clearly which contents go together as part of the same element, especially which qualifications, modifications and exceptions apply to what, and the relationships between elements.

Element numbers provide precise references. They are preceded by clause numbers in larger font except where the reference is in and to the same clause [e.g. '1, 5,6,7' in clause 2.4, but '7' alone in 2.10].

Instead of including 'and' or 'or' where either would cause ambiguity, commas are used between contents of an element, and semi-colons between elements in a sentence (with indenting where convenient for listing them), to show that they apply individually and together as relevant to the subject.

Square brackets are included where useful to identify as such clarifications, explanations, reminders of purposeful implications or of general law, and cross-references, to show that significance is not to be given to their absence elsewhere, or in the case of general law that it is not being changed.

In the Agreement, Schedules, except where the context indicates, words in the singular include the plural and the reverse.

2 Project

Kildare County Council (KCC) intends to deliver a feasibility study to assess the viability of developing a new swimming pool facility for North Kildare within the Leixlip MD on lands adjacent to Kildare Innovation Campus. As part of this process, we intend to procure a qualified and experienced multidisciplinary design team to undertake a comprehensive evaluation of the project's technical, financial, environmental, and operational feasibility.

The study will examine a range of key considerations, including but not limited to:

- Site suitability and constraints
- Concept design options and spatial requirements
- Planning and regulatory implications
- Sustainability and energy efficiency opportunities
- Building Fabric (Modern Methods of Construction – Sprung Structure vs Modular)
- In ground Pool vs Above ground pool
- Cost estimates (capital and lifecycle) of all methods outlined
- Operational models and revenue projections
- Risk assessment and delivery considerations

The appointed design team will be expected to engage with relevant stakeholders, review existing information from Swim Ireland, and develop a robust evidence based report that will inform decision makers on whether the project should advance to the next stage. The design team shall, as part of the Feasibility Study, review and advise on all statutory, planning, regulatory and Building Control requirements relevant to the proposed development. The Consultant shall identify the applicability of the Building Control Acts and Building Control (Amendment) Regulations (BCAR), and shall advise the Contracting Authority on the anticipated requirements for statutory approvals, including, where applicable, a Fire Safety Certificate (FSC), Disability Access Certificate (DAC), Commencement Notice and associated compliance documentation. The Consultant shall identify any key compliance constraints, risks, mitigation measures and design implications arising from Building Regulations Parts A to M and other relevant legislation. The Consultant shall prepare a statutory compliance strategy and roadmap for delivery of the project through subsequent design stages. For the avoidance of doubt, this commission is limited to feasibility stage services only and does not include the preparation or submission of a Design Certificate, the provision of Assigned Certifier services, or any statutory certification obligations under BCAR unless specifically instructed as part of a subsequent commission.

The output of this feasibility study will form the foundation for future capital funding applications and subsequent design phases, if approved.

We are seeking proposals from suitably qualified architects, engineers, quantity surveyors, and specialist consultants with proven experience in leisure, aquatic, or sports related facilities. The successful team will demonstrate technical expertise, strong project management capability, and an understanding of best practice design standards for modern swimming pool developments.
