Market period	Four weeks

Part 1: Introduction

The Royal Irish Academy (RIA) (the “Contracting Authority”) invites tenders to this request for tenders from economic operators (“Tenderers”) for the provision of the services as described in Part 3 of this Request for Tender.

In summary, the RIA is seeking tenders to provide, implement and provide ongoing support for a modern cloud-based Finance Management System (“Finance system”) for use by the Royal Irish Academy.

This public procurement competition will follow the open procedure under the European Union Regulations 2016 (Statutory Instrument 284 of 2016). Any contract that may result from this Competition (the “Services Contract”) will be issued for a fixed term of five years (“the Term”).

The Contracting Authority estimates that expenditure on the Services to be covered by the proposed Services Contract may amount to €215,000 (excluding VAT) over the fixed five-year Term, including the Authority-held contingency of 10% of the estimated expenditure (i.e. €21,500 ex VAT). Tenderers must understand that this figure is an estimate only based on current and future expected usage.

Our policy at the Contracting Authority is to promote fair and equal participation by Small and Medium Enterprises (SMEs) in this competition. SMEs finding the scope beyond their technical or business capacity are encouraged, in line with paragraph 5.5, to explore collaboration possibilities with other SMEs or larger enterprises. This collaboration allows them to contribute to the successful implementation of any resulting Services Contract and enhance their social and economic benefits.

Likewise, larger enterprises are encouraged, subject to paragraph 5.5, to find practical ways to include SMEs in their proposals, aiming to maximize the social and economic benefits of potential Services Contracts arising from this competition.

Part 2: Overview of the Contracting Authority

2.1. About the RIA

The Contracting Authority is the Royal Irish Academy (RIA). The RIA is an all-island learned society whose mission is to recognise and foster academic excellence and to create, curate and share knowledge for the benefit of society.

The Academy's activities include research programmes, grants and awards, scholarly publications, library and cultural heritage services, public engagement, facilities management and the operation of the Digital Repository of Ireland. These activities create a varied financial operating environment involving departmental budgets, externally funded projects, restricted funds, grants, procurement, stock, sales, subscriptions, donations and other income streams.

The RIA requires reliable financial information to support management, budget holders, funders, auditors and other stakeholders. Effective delivery of the Academy's mission depends on strong financial governance, accurate financial data, timely reporting, appropriate controls and accessible information across the organisation.

2.2. RIA Structure

The RIA is led by the Academy President and Council, with Executive leadership provided by the Executive Director. The organisation is structured across Corporate Services, Programmes and Engagement, Policy and International Relations, Library, Publications and Research Programmes, with specialist teams supporting finance, HR, ICT, facilities, communications, grants, public engagement, collections, editorial activity and digital research infrastructure.

Area	Lead / Key Roles	Operational relevance for the future Finance System

Research Programmes	DIB, DIFP, DMLCS, DRI, FNG, IHTA and other programme teams	Requires project, grant, fund and restricted-income reporting, budget monitoring and funder/audit evidence.

Part 3: Requirements and Specifications

3.1. Instructions

Tenderers must address each of the issues and requirements in this part of the RFT and submit a detailed description in each case which demonstrates how these issues and requirements will be dealt with / met and their approach to the proposed delivery of the Services. A mere affirmative statement by the Tenderer that it can/will do so or a reiteration of the tender requirements is NOT sufficient in this regard.

3.2. Requirements

The Finance Division, the current Finance System and goals for the new system.

The Finance function within the RIA has responsibility for financial accounting, management reporting, budgeting, procurement support, accounts payable, accounts receivable, audit support, governance reporting and financial control across the Academy's activities.

The RIA's existing Finance Management System supports the Academy's principal accounting activities, including the general ledger, accounts payable, accounts receivable, journal processing, payment-file generation and publications stock management. The system is externally hosted and accessed primarily by the Finance team through a limited number of concurrent-user licences. The wider finance operating model is also supported by spreadsheets, email approvals, PDF documentation, shared folders and locally maintained records.

The current system continues to support important core accounting and stock-management requirements. However, the wider operating model has become increasingly manual, fragmented and resource-intensive. The RIA now requires a more modern, integrated and capable solution with stronger support for purchase-to-pay workflows, digital approvals, reporting, budgeting, project and grant management, stock management, document retention, audit trails and integration with other systems.

The RIA manages a varied financial environment involving departmental budgets, externally funded projects, restricted funds, grants, publications, stock, sales, subscriptions, donations and other income streams. The future finance system must therefore support financial coding across relevant dimensions such as nominal account, cost centre, department, project, grant, fund, income stream and VAT treatment.

The current operating model relies heavily on spreadsheets and other manual tools for reconciliations, purchase requests, purchase orders, contract tracking, budget monitoring, grant and project reporting and supporting documentation. This limits real-time visibility and increases the level of manual checking and reconciliation required across the Finance function and operational teams.

The RIA is seeking a new finance system that will provide a more integrated financial management environment, including improved purchase-to-pay workflows, electronic approvals, budget and commitment visibility, self-service reporting, stronger audit trails, document management, project and fund reporting, stock-management capability and supported integration or data exchange with relevant third-party systems.

Payroll outputs are currently entered manually into the finance system. The banking platform is not integrated with the finance system, and payment information must also be entered manually into the external banking application.

The RIA is seeking to streamline these processes through improved workflow automation, supported data import/export, stronger controls and reduced reliance on manual re-entry between systems.

Current Transactions:

The approximate annual transaction volumes currently processed through or alongside the existing finance environment include the following:

Item	Number
AP Invoices (98% PO)	2,236
Purchase Orders	444
Open Contracts	200

Master Records	Number
Active Suppliers	2,535

Item	Number
AP Pay run	Every second week
Payroll	Weekly and bi-weekly

Breakdown of Users:

The approximate user groups for the future RIA finance system are expected to include the following:

For pricing and implementation planning, tenderers should assume an organisation of approximately 80 staff and contractors, including four core Finance team users. The proposed licence model must provide all access required for Finance processing and administration, together with proportionate access for requisitioners, approvers, budget holders, managers, project and fund managers, reporting users and occasional read-only users. Tenderers must state all user, role, storage, transaction or environment limits and include all costs within the evaluated price. A single compliant licensing configuration must be tendered; multiple alternative licence tiers will not be evaluated as substitutes for the required solution.

- Finance team users with processing, reporting and system administration responsibilities.
- Budget holders, requisitioners and approvers across Finance, Corporate Services, research, grants, publications, library, facilities and other RIA functions.
- Senior management, project managers, grant/fund managers and operational users requiring role-based access to dashboards, reports, approvals, transaction details and supporting documentation.

RIA-Specific Requirements and Exclusions

The RIA does not require a bespoke finance system developed from first principles. The preferred approach is an established, supplier-supported, cloud-based finance system that can be configured to meet RIA requirements. Any proposed solution should avoid unnecessary bespoke development and should demonstrate how standard functionality, configuration and supported integrations will meet the Academy's needs.

- Bespoke development where standard configuration or supported integration is sufficient
- Uncontrolled local workflows that duplicate the finance system
- Manufacturing or production-line functionality
- Complex warehouse logistics beyond publications stock and inventory management requirements
- Large-scale enterprise resource planning functionality disproportionate to the Academy's size and requirements
- Highly customised functionality that would materially increase cost, implementation risk or long-term support dependency

The following requirements are mandatory for the RIA. Many are specific to the public-sector context and reflect the Academy's finance, governance, audit and reporting environment.

- Purchase order creation capabilities with predefined workflow approval processes.
- Segregation of duties capabilities to ensure adherence to good internal controls, specifically around vendor account creation, bank details, tax details, bank payment approvals and authorisations.
- Full audit trail

- Approvals workflow capabilities covering (requisitions, POs, invoice payment ...)
- PSWT
- TCC, specifically dynamic accessing of the Revenue.ie website to check up to date TCC compliance before payment runs.
- Prompt Payments Act
- Ability to interface with, import from or export to external systems and services, including banking platforms, Revenue services, payroll outputs, e-commerce or sales platforms, reporting tools and other relevant RIA systems. Where full integration is not proportionate, supported journal upload, data import/export or controlled reconciliation processes should be available.
- Three-way matching, approval matching or equivalent controls for purchase orders, invoices, invoice approvals and evidence of receipt where appropriate, recognising that the RIA purchases a mix of services, goods, publications-related items and other operational requirements.

The items below are further requirements reflected in the SOR. Their formal classification as Required or Desirable is as stated in the SOR and will govern the evaluation.

- Purchase requisitions capabilities with predefined workflow approval processes. (This is a step before the purchase order process) The purchase requisition would follow a predefined workflow approval process depending on its value.
- A purchase requisition is a business-case request and is not vendor-specific at this stage.
- The purchase requisition once fully approved would convert to the starting point of a Purchase Order.
- OCR / AI capabilities around the receiving and inputting of vendor invoices.
- Contract management (from a public sector procurement perspective, not for things such as warranty periods and customer support!)

3.3. Specification of Requirements document

The Evaluation Criteria are set out in part 4 of this document. Tenderers should note in order to address the System Award Criteria that they will be required to complete the Specification of Requirements (SOR) document that accompanies this RFT.

The SOR contains 395 requirements in total: 320 Required requirements and 75 Desirable requirements. Tenderers must respond to every requirement and must not alter requirement wording, identifiers, priorities or worksheet structure.

The three System Award Criteria are:

- A. Responses to the Core Functional Requirements: Tenderers must complete the following parts/tabs of the SOR document that accompanies this RFT: F1-1, F1-2, F2-1, F2-2 and F3.
- B. Responses to the Additional Functional Requirements: Tenderers must complete the following parts/tabs of the SOR document that accompanies this RFT: F4 to F10.
- C. Responses to the Non-Functional Requirements: Tenderers must complete the following parts/tabs of the SOR document that accompanies this RFT: N1 to N6.

For each requirement in the SOR, Tenderers must indicate whether the required capability is supported by the proposed system by selecting one of the following response codes:

- *Standard(S) - required capabilities are provided as standard or out-of-the-box*
- *Customisation(C) - required capabilities are provided through supported configuration or customisation of the proposed system, without bespoke development.*
- *Development(D) - required capabilities require bespoke development*
- *Workaround (W) - required capabilities are not provided directly, but a workaround is available*

- *Not Available(N) - required capabilities are not provided, no workarounds.*

Tenderers are also asked to provide details outlining how the capability is provided or to explain their response. When doing so, Tenderers are encouraged to add to the evaluation team's understanding of how the functionality will be delivered, for example where the requested functionality will be delivered indirectly, and to demonstrate any innovative and compelling features of their solution.

In addition to addressing the System Award Criteria in the SOR, the main Tender Response Document shall provide a section for Tenderers to provide an overall description of their system's key features, architecture, deployment model, user experience, reporting capabilities, integration approach, security, implementation methodology, support model and suitability for the RIA's requirements.

Tenderers may include detailed system design or architecture diagrams, wireframes, process maps, use cases or similar material to illustrate and provide context to their responses to the System Award Criteria. This additional information is to provide context and understanding only and will not be marked separately.

Part 4: Selection and Award Criteria

4.1. Compliant Tenders

4.1 Only those Tenderers who have:-

- (a) Submitted compliant Tenders pursuant to paragraph 5.2 below, and
- (b) Declared by way of e-ESPD that either:
 - (i) no mandatory grounds for exclusion of the Tenderer pursuant to Regulation 57 of the Regulations apply to them, or
 - (ii) in circumstances where any mandatory exclusion grounds apply to the Tenderer (and where the Tenderer is not precluded from doing so under Regulation 57(17) of the Regulations), that it can provide evidence to the effect that measures taken by it are sufficient to demonstrate its reliability despite the existence of any such relevant exclusion ground, and
- (c) Declared by way of e-ESPD that they satisfy the selection criteria in this Competition as set out in Part 4.2 below (the “Selection Criteria”), will be evaluated in accordance with the Award Criteria at Part 4.3 below.

However, please note that the Contracting Authority also reserves the right to exclude from evaluation a Tenderer to whom a discretionary ground for exclusion pursuant to Regulation 57 of the Regulations applies.

Tenderers should note that where a Tenderer is relying on the capacity of other entities (for example, Subcontractors) for the purposes of fulfilling any of the Selection Criteria in Part 4.2 below it must ensure that each such entity:

- (i) completes and submits a separate eESPD in respect of each such entity, and
- (ii) when requested by the Contracting Authority, submit proof, to the satisfaction of the Contracting Authority, that each such entity will place the necessary resources at the disposal of the Tenderer.

Where a Tenderer, as Prime Contractor, intends to subcontract any share of any Contract to a Subcontractor, but is not relying on the capacity of such Subcontractor for the purposes of fulfilling any of the Selection Criteria in Part 4.2 below, it must ensure that each such Subcontractor submits a separate eESPD in respect of such Subcontractor completing those sections of the eESPD which are specified in section 2.D of the eESPD for this Competition.

The Contracting Authority may decide to examine Tenders before verifying the absence of exclusion grounds in Regulation 57 of the Regulations (the “Exclusion Grounds”) and the fulfilment of the Selection Criteria.

However, notwithstanding anything to the contrary in this part 4.1, the Contracting Authority reserves the right to ask Tenderers at any moment during the Competition to submit any or all of the following for the purposes of verification of the status of the Tenderer (including the Prime Contractor and any Subcontractor):

- (i) a Declaration in the form attached at Appendix 3
- (ii) Evidence to the effect that measures taken by the entity concerned are sufficient to demonstrate its reliability despite the existence of a relevant Exclusion Ground;
- (iii) in the case of the Prime Contractor and any Subcontractor on whose capacity the Prime Contractor relies, all or any of the supporting documents specified at paragraph 4.2 below;
- (iv) information concerning the Tenderer, and any proposed subcontractors, for the purposes of Regulation (EU) No 833/2014 (as amended by EU Regulation 2022/576 or any subsequent amendments to same) including, but not limited to, in respect of natural persons, copies of identity documents and, in respect of legal persons, a certificate or extract from the commercial register or other competent authority of the country in which the legal person is established; and information concerning the origin of goods, if any, for the purposes of

assessing compliance with Regulation (EU) No 833/2014 (as amended by EU Regulation 2022/576 or any subsequent amendments to same).

If a Tenderer does not, upon request by the Contracting Authority, provide evidence which is considered by the Contracting Authority as sufficient to demonstrate (i) its fulfilment of the Selection Criteria (or any one of them) in accordance with this RFT and (ii) the absence of Exclusion Grounds, or its reliability despite the existence of a relevant Exclusion Ground and (iii) that it does not come within the category of prohibited economic operators identified in Regulation (EU) No 833/2014 of 31 July 2014 (as amended by EU Regulation 2022/576) and (iv) that the origin of goods, if any, are not subject to the prohibitions set out in Regulation (EU) No 833/2014 (as amended by EU Regulation 2022/576 or any subsequent amendments to same) then it shall be excluded from further participation in this Competition.

If a Tenderer does not, upon request by the Contracting Authority, provide evidence which is considered by the Contracting Authority as sufficient to demonstrate (i) the fulfilment by any Subcontractor on whose capacity the Prime Contractor relies of the Selection Criteria (or any one of them) in accordance with this RFT and (ii) the absence of Exclusion Grounds in respect of any Subcontractor, or the reliability of any Subcontractor despite the existence of a relevant Exclusion Ground and (iii) that any proposed Subcontractor on whose capacity the Tenderer relies (where the value of that subcontract exceeds 10% of the value of the Services Contract) does not come within the category of prohibited economic operators identified in Regulation (EU) No 833/2014 of 31 July 2014 (as amended by EU Regulation 2022/576) then, it shall be excluded from further participation in this Competition *unless* it replaces the Subcontractor with one which meets all relevant requirements of this RFT.

4.2. Selection criteria

4.2 Tenderers will either pass OR fail each of the Selection Criteria in this Part 4.2. A Tenderer who fails a selection criterion will be excluded from participating in this Competition.

Tenderers are required to outline their cost proposal by completing the pricing schedule set out in Cost Award Criterion section.		

Qualitative award criteria will be assessed first.

Tenderers which fail to achieve the minimum qualifying thresholds will result in the Tenderer being eliminated from the competition and no further evaluation of its Tender will be carried out. Also in such circumstances, the Tenderer's Pricing Schedule will not be evaluated.

Scoring of the qualitative award criteria will be based on an assessment of the information provided by Tenderers and each response element will be awarded marks using the following scoring methodology.

Scoring Methodology

Scoring Methodology for Award Criteria 1.A–1.C (System Award Criteria)

The following methodology applies to SOR Award Criteria 1.A–1.C (System Award Criteria).

1. Each requirement in the Specification of Requirements (SOR) will be scored individually. The score will reflect how the requirement is delivered and whether it is Required or Desirable.
2. The minimum qualifying threshold is applied collectively to all the requirements set out under each criterion. No separate minimum threshold applies to individual worksheets.

1. Points for delivery method

Delivery method	Points
Standard (S): delivered through standard or out-of-the-box functionality	5
Configuration/customisation (C): delivered through supported configuration or customisation without bespoke development	5
Development (D): delivered through bespoke development	3
Workaround (W): delivered through a suitable alternative process or method	2
Not Available (N): not supported and no suitable workaround provided	0

Tenderers must explain how each requirement will be met. The Contracting Authority will determine the appropriate classification from the response and supporting explanation, rather than relying solely on the code selected.

Any configuration, customisation, development or workaround must be included in the tendered price, delivered by the applicable implementation milestone and supported throughout the contract term.

2. Weighting for priority

The points awarded for each requirement will be multiplied by its priority weighting:

Priority	Weighting
Required (R)	2
Desirable	1

For example, a "Required" requirement delivered through standard functionality earns 10 weighted points; a "Desirable" requirement delivered in the same way earns 5 weighted points.

3. Conversion to criterion marks

The weighted points will be added across all worksheets within each criterion and converted to marks as follows:

Award criterion	Calculation	Maximum marks	Minimum qualifying threshold
1.A Core Functional Requirements	$(\text{Weighted points awarded} \div 1,445) \times 250$	250	150
1.B Additional Functional Requirements	$(\text{Weighted points awarded} \div 1,305) \times 100$	100	60
1.C Non-Functional Requirements	$(\text{Weighted points awarded} \div 825) \times 100$	100	60

The denominators represent the maximum possible weighted points for each criterion:

- 1.A contains 142 Required and 5 Desirable requirements, so maximum possible weighted points is 1,445;
- 1.B contains 106 Required and 49 Desirable requirements so maximum possible weighted points is 1,305; and
- 1.C contains 72 Required and 21 Desirable requirements, so maximum possible weighted points is 825.

Illustrative example: Core Functional contains 142 Required and 5 Desirable requirements, giving $(142 \times 10) + (5 \times 5) = 1,445$ maximum weighted points; Additional Functional contains 106 Required and 49 Desirable requirements, giving $(106 \times 10) + (49 \times 5) = 1,305$ maximum weighted points; and Non-Functional contains 72 Required and 21 Desirable requirements, giving $(72 \times 10) + (21 \times 5) = 825$ maximum weighted points.

The minimum qualifying threshold applies at criterion level. No separate minimum threshold applies to individual worksheets.

Calculations will retain full precision when determining whether thresholds are met. Reported criterion marks will be rounded to two decimal places.

Scoring Methodology for Award Criteria 2.A–2.D (Other Quality Award Criteria)

The general qualitative scoring methodology below will apply to Award Criteria 2.A–2.D (Other Quality Award Criteria):

Weighting	Meaning
91% - 100%	Excellent response with very few or no weaknesses exceeds requirements, and provides comprehensive, detailed, and convincing assurance that the Tenderer will deliver to an excellent standard.
80% - 90%	A very good response that demonstrates real understanding and fully meets the requirements and assurance that the Tenderer will deliver to high standard.
60% - 79%	A satisfactory response which demonstrates a reasonable understanding of requirements and gives reasonable assurance of delivery to an adequate standard but does not provide sufficiently convincing assurance to award a higher mark.
30% - 59%	A response where reservations exist. Lacks full credibility/convincing detail, and there is a significant risk that the response will not be successful.
1% - 29%	A response where serious reservations exist. This may be because, for example, insufficient detail is provided, and the response has fundamental flaws, or is seriously inadequate or seriously lacks credibility with a high risk of non- delivery.
0%	Response completely fails to address the criterion under consideration

Scoring Methodology for Award Criterion 3.A (Cost Award Criteria)

Tenderers are required to complete the Pricing Schedule (see Appendix 1 of this RFT document). Cost Award Criterion 3.A will be determined using the following formula:

$$\text{Evaluation of Cost Formula} = \frac{\text{Lowest Tendered Price}}{\text{Tendered Price under evaluation}} \times \text{Maximum Marks available}$$

4.3.2 Subject to paragraphs 5.1 (Important Notices) and 4.5 (Standstill Period) of this RFT, award of the Services Contract to the highest ranked Tenderer (as determined by paragraph 4.3.1) will be conditional upon:

- (a) the Tenderer submitting the following evidence in respect of the Tenderer, including the Prime Contractor and any Subcontractors, as applicable in accordance with paragraph 4.1 above, to the extent not already provided, within seven (7) days of request by the Contracting Authority:

4.5. Standstill period

4.5.1 In circumstances where the European Communities (Public Authorities' Contracts) (Review Procedures) Regulations 2010 (Statutory Instrument 130 of 2010), as amended by the European Communities (Public Authorities' Contracts) (Review Procedures) (Amendment) Regulations 2015 (Statutory Instrument 192 of 2015) apply, no contract can or will be executed or take effect until at least fourteen (14) calendar days after the day on which the Tenderers have been sent a notice informing them of the result of this Competition (the "Standstill Period") if such notice is sent by electronic means. The Standstill Period shall be sixteen (16) calendar days if such notice is sent by other means. The preferred bidder will be notified of the decision of the Contracting Authority and of the expiry date of the Standstill Period.

A signed Services Contract returned by the successful Tenderer is not binding on the

Contracting Authority until the Contracting Authority has signed the Services Contract in accordance with paragraph 5.1.2 below.

4.6.2 Where the signed Services Contract and the Confidentiality Agreement have not been received by the Contracting Authority within the period as specified at paragraph 4.6.1 then the Contracting Authority may proceed to award the Services Contract to the next highest- ranked Tenderer in accordance with paragraph 4.6.1 above.

Part 5: Instructions to Tenderers

5.1. Important Notices

5.1.1 While every effort has been made to provide comprehensive and accurate information in all notices and documents prepared for the purposes of this Competition, the Contracting Authority does not accept any liability or provide any express or implied warranty in respect of any such information. Tenderers must form their own conclusions about the solution needed to meet the requirements set out in this RFT and may wish to consult their legal advisers.

5.1.2 The Contracting Authority does not bind itself to accept the lowest priced or any Tender.

This RFT does not constitute an offer or commitment to enter into a Services Contract.

No contractual rights in relation to the Contracting Authority will exist unless and until a formal written Services Contract has been executed by or on behalf of the Contracting Authority.

Any notification of preferred bidder status by the Contracting Authority shall not give rise to any enforceable rights by the Tenderer.

The Contracting Authority may cancel this Competition or for the avoidance of doubt, any individual lot any time prior to a formal written Services Contract being executed by or on behalf of the Contracting Authority.

The award of a Services Contract does not confer exclusivity on the successful Tenderer.

5.1.3 This RFT supersedes and replaces any and all previous documentation, communications and correspondence between the Contracting Authority and Tenderers, and Tenderers should place no reliance on such previous documentation and correspondence.

5.1.4 In this clause 5.1.4, “Data Protection Laws” means all applicable national and EU data protection laws, regulations and guidelines including but not limited to Regulation (EU) 2016/679 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (the “General Data Protection Regulation”), and any guidelines and codes of practice issued by the Office of the Data Protection Commission or other supervisory authority for data protection in Ireland from time to time.

The Contracting Authority will be a Data Controller (where Data Controller has the meaning given under the Data Protection Laws) in respect of any Personal Data (where Personal Data has the meaning given under the Data Protection Laws) required to be provided by the Tenderer in response to this RFT.

The Tenderer, as Data Controller in respect of any Personal Data provided by it in its Tender, is required to confirm in the statement required under paragraph 5.4 below that all Data Subjects whose Personal Data is provided by the Tenderer have consented to the processing of such Personal Data by the Tenderer, the Contracting Authority, the Evaluation Team and the supplier of the etenders.gov.ie website, for the purposes of the participation of the Tenderer in this Competition, or that the Tenderer otherwise has a legal basis for providing such Personal Data to the Contracting Authority for the purposes of its participation in this Competition.

5.2. Compliant Tenders

5.2.1 If a Tenderer fails to comply in any respect with the requirements of this paragraph 5.2.1, the Contracting Authority reserves the right to reject the Tenderer’s Tender as non-compliant or, without prejudice to this right and subject to its obligations at law, to take any other action it considers appropriate including but not limited to:

- seeking written clarification from the Tenderer;
- seeking further information from the Tenderer; or
- waiving a requirement, which in the Contracting Authority’s view, is non-material or procedural. Tenderers are required:
 - (a) To complete and submit with their Tender an e-ESPD
 - (b) To submit all documentation which this RFT requires to be submitted with their Tender;
 - (c) To follow the format of this RFT and respond to each element in the order as set out in this RFT;
 - (d) To conform to and comply with all instructions and requirements set out in this RFT;
 - (e) To submit the statement required under paragraph 5.4 below; and
 - (f) Not to alter or edit this RFT in any way.

5.2.2 Without prejudice to the generality of paragraphs 5.2.1, failure to comply with paragraph 5.6.1, 5.6.2 or 5.6.3 below will render the Tender non-compliant and it will be rejected.

5.3. Services Contract

5.3.1 Tenderers should note the terms and conditions of the Services Contract at Appendix 4 to this RFT.

5.3.2 Tenderers are required to confirm their acceptance of the terms and conditions of the Services Contract by signing the Tenderer’s Statement at Appendix 2. Tenderers may not amend the Services Contract.

The Contracting Authority must be able to read the scanned signature of the Tenderer. If possible, please sign documents using blue ink. If the Contracting Authority cannot read the scanned signature, Tenderers may be requested to re-submit. Tenderers may not amend the Tenderer's Statement.

5.5. Consortia and Prime/Subcontractors

Where a group of undertakings (in whatever form and regardless of the legal relationship between them) come together to submit a Tender in response to this RFT, the Contracting Authority will deal with all matters relating to this Competition through a single nominated entity authorised to represent all members of the group of undertakings. The Tenderer must provide details of all members of the group of undertakings and their role in the Tender and clearly set out the contact details including name, title, telephone number, postal address, facsimile number and e-mail address of the nominated entity authorised to represent the Tenderer and to whom all communications shall be directed and accepted until this Competition has been completed or terminated. Correspondence from any other person will NOT be accepted, acknowledged or responded to.

Prior to and as a condition of award of any Services Contract, the successful Tenderer shall be required to designate a single entity who will carry overall responsibility for the Services Contract (the "Prime Contractor"), irrespective of whether or not tasks are to be performed by a subcontractor or other consortium member (the "Subcontractor").

5.6. Tender Submission Requirements

5.6.1 Tenders must be submitted via the electronic postbox available on www.etenders.gov.ie. Only Tenders submitted to the electronic postbox will be accepted. Tenders submitted by any other means (including but not limited to by email, fax, post or hand delivery) will NOT be accepted.

Tenderers must ensure that they give themselves sufficient time to upload and submit all required tender documentation before the Tender Deadline (as defined in paragraph 5.6.2). Tenderers should take into account the fact that upload speeds vary. There is a maximum of 4GB for the total (combined) documents sent to the electronic postbox.

In order to submit a document to the electronic postbox, please note that you must click "Submit Response". After submitting you can still modify and re-send your response up until response deadline. Tenderers should be aware that the 'Submit Response' button will be disabled automatically upon the expiration of the response deadline.

5.6.2 Tenders must be received not later than 14:00 hours on Friday 30 October 2026 (the "Tender Deadline"). Tenders that are received late WILL NOT be considered in this Competition.

5.6.3 Tenders must be submitted in English.

5.6.4 Subject to paragraph 5.14 and 5.18, each Tenderer is limited to submitting one Tender in its own capacity and one Tender as part of a consortium/group of undertakings under this RFT.

5.6.5 All Tenders submitted in soft copy must be compiled such that they can be read immediately using for example, PDF. The Contracting Authority is not responsible for corruption in electronic documents. Tenderers must ensure electronic documents are not corrupt.

5.7. Queries and Clarifications

5.7.1 All queries relating to any aspect of this Competition or of this RFT must be directed to the messaging facility on www.etenders.gov.ie. Queries will be accepted no later than 14:00 Irish time on Friday 23 October 2026 unless otherwise published by the Contracting Authority. For the avoidance of doubt, Tenderers may not contact the Contracting Authority directly regarding any aspect of this Competition.

5.7.2 All responses to queries will be issued by the Contracting Authority via the messaging facility on www.etenders.gov.ie. Where appropriate, queries may be amalgamated. Tenderers should note that the Contracting Authority will not respond to individual Tenderers privately.

5.7.3 The Contracting Authority reserves the right to issue or seek written clarifications.

5.7.4 The Contracting Authority reserves the right at any time before the Tender Deadline, to update or amend the information contained in this document and/or to extend the Tender Deadline. Participating Tenderers will be informed of any such amendment or extension through the eTenders website.

5.7.5 Tenderers should ensure that they register their interest in this Competition, by clicking on the “Accept” button on www.etenders.gov.ie, in order to receive all responses to queries and other updates in relation to this Competition.

5.8. Tendering Costs

5.8.1 All costs and expenses incurred by Tenderers relating to their participation in this Competition including, but not being limited to, site visits, field trials, demonstrations and/or presentations shall be borne by and are a matter for discharge by the Tenderers exclusively.

5.9. Confidentiality

- (d) must be returned immediately to the Contracting Authority upon cancellation or completion of this Competition if so requested by the Contracting Authority.

5.10. Pricing

5.10.1 All Tenderers must complete the Pricing Schedule associated with this RFT.

For evaluation purposes, the Total Evaluated Cost is the single five-year Total Evaluated Cost shown in the mandatory Pricing Schedule. It must include every cost of delivering the compliant solution, including implementation, configuration, project management, data migration, integrations, testing, training, documentation, go-live, hypercare, licences/subscriptions, hosting, storage, environments, support, maintenance, upgrades and exit/data-export services. No mandatory cost may be deferred to an optional table, rate card, assumption, usage tier or later order. There is no separately evaluated Change Request rate card. All mandatory costs must be included in the Total Evaluated Cost.

5.10.2 All prices quoted must be all-inclusive (i.e. including but not being limited to shipping, packaging, delivery, ancillary costs and all other costs/expenses), be expressed in Euro only and exclusive of VAT. The VAT rate(s) where applicable should be indicated separately.

5.10.3 Tenderers must confirm that all prices quoted in the Tender will remain valid for the duration of the Term commencing from the Tender Deadline.

5.10.4 Any currency variations occurring over the term of the Services Contract shall be borne by the Tenderer.

5.10.5 Payments for Services provided pursuant to this RFT shall be subject to and made in accordance with the Services Contract at Appendix 4 to this RFT.

5.11. Environmental, social and labour law

5.11.1 In the performance of any Services Contract awarded, the successful Tenderers and their Subcontractors (if any), shall be required to comply with all applicable obligations in the field of environmental, social and labour law that apply at the place where the services are provided, that have been established by EU law, national law, collective agreements or by international, environmental, social and labour law listed in Schedule 7 of the Regulations.

5.11.2 Tenderers shall be required to include an undertaking to comply fully with the provisions of Council Directive 2001/23/EC of 12 March 2001 on the approximation of the laws of the Member

States relating to the safeguarding of employees' rights in the event of transfers of undertakings, business or parts of undertakings or business and as implemented in Irish law by Statutory Instrument No. 131 of 2003, the European Communities (Protection of Employees on Transfer of Undertakings) Regulations 2003 and to indemnify the Contracting Authority for any claim arising or loss or costs incurred as a result of its failure or incapacity to fulfil its obligations under the said Directive and Statutory Instrument.

5.11.3 The Protection of Employees (Temporary Agency Work) Act 2012 (the "2012 Act") provides that an Agency Worker (as defined in the 2012 Act) is entitled to the same basic working and employment conditions as those which apply to employees recruited directly by the Hirer (as defined in the 2012 Act) to do the same or a similar job. Where the provision of the Services will involve the provision to the Contracting Authority of Agency Workers (within the meaning of the 2012 Act), Tenderers should ensure that they consider their obligations under the 2012 Act when pricing their Tender. The Contracting Authority shall have no liability for any increase in salaries that may be payable as a result of the application of the 2012 Act to the provision of the Services.

5.12. Publicity

No publicity regarding this Competition or any Services Contract pursuant to this Competition is permitted unless and until the Contracting Authority has given its prior written consent to the relevant communication.

5.13. Registerable interest

Any Registrable Interest involving any Tenderer or Subcontractor and the Contracting Authority, members of the Government, members of the Oireachtas, or employees and officers of the Contracting Authority and their relatives must be fully disclosed in the Tender or, in the event of this

information only coming to the notice of the Tenderer or Subcontractor after the submission of a Tender, must be communicated to the Contracting Authority immediately upon such information becoming known to the Tenderer or Subcontractor.

The terms "Registrable Interest" and "Relative" shall be interpreted as per Section 2 of the Ethics in Public Office Acts 1995 and 2001, copies of which are available at www.irishstatutebook.ie. The Contracting Authority will, at its absolute discretion, decide on the appropriate course of action, which may in appropriate circumstances include eliminating a Tenderer from this Competition or terminating any Services Contract entered into by a Tenderer.

5.14. Anti-competitive conduct

Tenderers' attention is drawn to the Competition Act 2002 (as amended, the "2002 Act"). The 2002 Act makes it a criminal offence for Tenderers to collude on prices or terms in a public procurement competition.

Where reference is made to a particular item, source, process, trademark, or type in this RFT then all such references are to be given the meaning generally understood in the relevant industry and operational environment.

5.16. Freedom of information

5.16.1 Tenderers should be aware that, under the Freedom of Information Act 2014 and the European Communities (Access to Information on the Environment) Regulations 2007 to 2014, information provided by them during this Competition may be liable to be disclosed.

5.16.2 Tenderers are asked to consider if any of the information supplied by them in their Tender should not be disclosed because of its confidentiality or commercial sensitivity. If Tenderers consider that certain information is not to be disclosed because of its confidentiality or commercial sensitivity, Tenderers must, when providing such information, clearly identify the specific sections of their Tender containing such information and specify the reasons for its confidentiality or commercial sensitivity. For the avoidance of doubt Tenderers may not assert confidentiality or commercial sensitivity over the entire Tender but must clearly identify the specific section containing such information. If Tenderers do not identify information as confidential or commercially sensitive, it is liable to be released in response to a request under the above legislation without further notice to or consultation with the Tenderer. The Contracting Authority will, where possible, consult with Tenderers about confidential or commercially sensitive information so identified before making its decision on a request received. The Contracting Authority accepts no liability whatsoever in respect

of any information provided which is subsequently released (irrespective of notification) or in respect of any consequential damage suffered as a result of such obligations.

5.17. Tax Clearance

It will be a condition of any Services Contract pursuant to this Competition that the successful Tenderer(s) shall, for the term of such contract(s), comply with all applicable EU and domestic tax laws. Tenderers are referred to www.revenue.ie for further information. Prior to the award of any Services Contract arising out of this Competition the successful Tenderer shall be required to supply its Tax Clearance Access Number and Tax Reference Number to facilitate online verification of their tax status by the Contracting Authority. By supplying these numbers the successful Tenderer acknowledges and agrees that the Contracting Authority has the permission of the successful Tenderer to verify its tax cleared position online.

5.18. Conflicts of interest

Any conflict of interest or potential conflict of interest on the part of a Tenderer, Subcontractor or individual employee(s) or agent(s) of a Tenderer or Subcontractor(s) must be fully disclosed to the

Contracting Authority as soon as the conflict or potential conflict is or becomes apparent. In the event of any actual or potential conflict of interest, the Contracting Authority may invite Tenderers to propose means by which the conflict of interest might be removed. The Contracting Authority will, at its absolute discretion, decide on the appropriate course of action, which may in appropriate circumstances include eliminating a Tenderer from this Competition or terminating any Services Contract entered into by a Tenderer.

The Contractor shall not rely on any term that conflicts with or reduces the protections, obligations or remedies set out in the Agreement, the RFT or this Schedule.

Contract hierarchy and supplier terms

The order of precedence in the Agreement applies to all cloud and SaaS services. Any Contractor, reseller, hosting-provider or third-party terms shall apply only where expressly accepted by the Client in writing and appended to the executed Agreement. Click-through terms and terms incorporated solely by hyperlink or URL shall not apply. Shared responsibility and security assurance

The Contractor is responsible for the security, resilience, availability, patching, monitoring, backup, recovery and operation of the complete hosted SaaS Solution and all infrastructure, platforms and components used to deliver it, except for responsibilities expressly assigned to the Client in the SOR or Service Level Schedule. Service credits are without prejudice to the Client's other contractual remedies and do not constitute the Client's sole or exclusive remedy.

Updates, upgrades and non-diminution

Updates, upgrades, patches and supported releases required to maintain the Solution shall be included in the Charges. The Contractor shall give reasonable advance notice of material changes and shall ensure that changes are backwards compatible so far as reasonably practicable and do not materially reduce functionality, interoperability, security, performance, support or data portability. Any material adverse reduction that is not remedied shall constitute a material breach.

1. Scope of Cloud Services

The Services include the Solution and all implementation, configuration, data migration, testing, training, hosting, support, maintenance, upgrades, updates, integrations, transition and exit services necessary to provide and support the Solution in accordance with the RFT, the SOR, the successful Tender and the agreed implementation plan.

All RIA data, metadata, derived data, audit records and configuration data remain the property of the Client. The Contractor may process RIA data only to deliver the Services and on documented instructions from the Client. 3. Hosting, Location and Subprocessors

The Contractor shall identify all hosting locations, Subcontractors and subprocessors before contract signature and keep the list current. RIA data, backups, logs and metadata shall be stored and processed within the EEA unless the Client gives prior written approval and a lawful transfer mechanism and appropriate safeguards are in place. The Contractor shall maintain appropriate technical and organisational measures, including role-based access, multi-factor authentication, encryption in transit and at rest, vulnerability and patch management, malware and ransomware protection, logging, monitoring, incident response, tested backups and disaster recovery. The Contractor shall provide current independent assurance reports and certifications relevant to the Services on request and shall complete the Client's external hosting and security assurance processes.

5. Security Incidents

The Contractor shall notify the Client without undue delay after becoming aware of any actual or suspected security incident, personal-data breach, material loss of availability or unauthorised access affecting the Services or RIA data. Notifications shall include known impact, affected data and systems, containment and remediation actions, recovery status and planned communications. The Contractor shall preserve evidence, cooperate with investigation and regulatory obligations, and provide a written root-cause report.

6. Service Levels and Service Continuity

The Contractor shall meet the availability, support, response, resolution, backup, recovery and reporting commitments set out in the SOR and Service Level Schedule. Routine support, incident resolution, defect correction, patches, updates, upgrades, security maintenance, service management and all other support required to maintain the compliant Solution shall be included in the Charges and shall not be treated as chargeable Change Requests. Planned maintenance shall be notified in advance and scheduled to minimise disruption. Repeated or material service-level failure shall trigger remediation, service credits where agreed, escalation and the Client's contractual remedies.

7. Audit, Compliance and Records

The Contractor shall maintain complete records demonstrating compliance and shall provide reasonable information, policies, test results, certifications and audit evidence requested by the Client. The Client, its auditors and competent supervisory authorities may audit compliance on reasonable notice, subject to proportionate security and confidentiality controls.

8. Portability, Exit and Secure Deletion

At any time on request and on expiry or termination, the Contractor shall provide RIA data and associated metadata, configuration, audit and document records in complete, structured, commonly used and machine-readable formats designated by the Client, together with reasonable documentation and transition assistance. The Contractor shall maintain uninterrupted Client access to the Solution and data during the agreed exit period and shall provide sufficient bandwidth and cooperation to complete the transfer. Exit charges, if any, must be set out in the Pricing Schedule. The Contractor shall not withhold data because of a dispute. Following confirmed transfer, the Contractor shall securely delete remaining RIA data, including backups in accordance with the agreed retention cycle, and certify deletion, except where retention is required by law.

9. Business Continuity, Change and End of Life

The Contractor shall maintain and regularly test business-continuity, backup and disaster-recovery arrangements and shall provide evidence of testing and remediation on request. The Contractor shall give reasonable advance notice of material changes, major releases, deprecations, end-of-life dates, changes to supported browsers, APIs or integrations, and changes requiring Client action or additional cost. No material reduction in functionality, security, support or data portability may be made during the Term without the Client's written agreement.
