

MOUNTMELICK
DEVELOPMENT
ASSOCIATION

- excavate 150mm depth of topsoil and stockpile and set aside for re-use
- excavate 205 cu.m of subsoil and store on lands owned by the Employer
- place min 300mm thick layer of Class 6F2 material on sub-formation level

GENERAL

1. Datum for levels is OS Malin Head.
2. Verify existing levels prior to commencement of works. Report any discrepancies immediately to the Employer's Representative.
3. The locations shown for existing services are indicative only and may not be accurate. Furthermore, uncharted services may also be present. The Contractor should assume the existence of services unless proven otherwise.
4. It is the Contractor's responsibility to determine the existence and precise location of any service located within the site. All works shall be carried out in strict accordance with the document 'Code of Practice for Avoiding Danger from Underground Services' as published by the Health and Safety Authority.

Specification

5. The Specification for the construction of roads and streets shall be Specification for Roadworks published by Transport Infrastructure Ireland.
