Note 2: Construction Methods

The detailed, comprehensive identification of hazards and control of risk on site is the responsibility of the contractor(s). The Regulations do not require designers to dictate construction methods generally, or to evaluate contractors' proposals. However, where specific construction methods or sequences were envisaged by us during design which in our opinion are not reasonably discernible from the contract documents or are outside the normal scope of a competent contractor in the context of the proposed work, these are set out below. This information should be read in conjunction with the contract documents, drawings and walk through were appropriate.
