Assessment of Other Criteria, as stated in Clause 9.6 of the Instructions to Tenderers

For each of the criteria below, please provide demonstrable evidence of each in your tender submission.

Criteria (i), (ii) and (iii) [20%]

Criteria (i)

The Tenderer shall have directly carried out road resurfacing work to the value of not less than €5,000,000 (excl. V.A.T.), aggregated over the years 2021-2025 inclusive. A significant portion of this resurfacing work shall be on Regional and Local Roads in Urban Areas. Details of these Projects should be provided in the Tenderer's submission. The Tenderer shall provide financial statements (evidence of turnover, by way of audited accounts), if requested.

Criteria (ii)

Competence and resources of the Tenderer to carry out and manage the works, which will be on Regional and Local Roads. The Tenderer shall submit their management structure, which identifies the duties/roles that will be performed by team members. The CVs of team members should be included. The Tenderer shall provide details of how, on a week-to-week basis, all sub-contractor's work is to be programmed, supervised on-site and monitored to ensure compliance with the Specification and which personnel within the Tenderer's own management structure will be allocated to carry out this key responsibility. A Plant and Equipment Plan shall also be included. Details of how the Tenderer managed at least three previous similar projects should be provided.

Criteria (iii)

The Tenderer shall provide details of the source/location and means of production of bituminous materials, particularly in relation to works carried out at night, bearing in mind the working hours defined in the Specification.

Criteria (iv) [10%]

Criteria (iv)

The Tenderer shall provide a Draft job-specific Traffic Management Plan(s) and identify the personnel who will liaise on a week-to-week basis with Cork City Council's Transportation Division on the Traffic Management for the works.

Criteria (v), (vi), (vii), (viii) and (ix) [25%]

Criteria (v)

Draft Risk Assessment and Method Statement (RAMS) for the works.

Criteria (vi)

Draft Resourced Works Programme.

Criteria (vii)

Competence of the Tenderer and allocation of adequate resources to comply with the requirements of the Safety, Health and Welfare at Work Act 2005 and amendments/regulations under it, including the Safety, Health and Welfare at Work (Construction) Regulations 2013 or more recent revisions to same. Details of how this item was managed on three previous projects of a similar size and nature should be provided.

Criteria (viii)

Competence of the Tenderer or nominee to act as Project Supervisor for the Construction Stage (PSCS) and allocation to adequate resources to enable the Tenderer (or nominee) to perform the duties of PSCS. Details of how this item was managed on three previous projects of a similar size and nature should be provided. PSCS competency is a Pass/ Fail requirement.

Criteria (ix)

The Tenderer shall provide a draft Stakeholder Liaison Plan, which should outline how interaction with all affected stakeholders would be managed in advance of and during the works.

Criteria (x) [5%]

Criteria (x)

See Questions – Green Procurement document.
