<input type="radio"/> Defence	<input type="radio"/> Social protection
<input type="radio"/> Public order and safety	<input type="radio"/> Recreation, culture and religion
<input type="radio"/> Environment	<input type="radio"/> Education
<input type="radio"/> Economic and financial affairs	<input type="radio"/> Other activity:
<input type="radio"/> Health	

Section II: Object

II.1) Scope of the procurement

II.1.1) Title: The Provision to install a Data Management System (DMS) to include reporting, monitoring and advisory support service for 5 local authorities.	Reference number: ²
II.1.2) Main CPV code: 72322000 Supplementary VOC code: ^{1,2}	
II.1.3) Type of contract <input type="radio"/> Works <input type="radio"/> Supplies <input checked="" type="radio"/> Services	
II.1.4) Short description: Galway City Council (main lead) wishes to establish a Multiparty framework for the installation of a Data Management System for 5 Local Authorities to include, Donegal County Council, Galway City Council, Galway County Council, Mayo County Council, and Sligo County Council. The Regional Energy Bureau is tasked with supporting the Local Authorities to implement ISO 50001 Energy Management Systems (EnMS). The energy planning process described in ISO 50001 clearly illustrates the extent and importance of information flows in the EnMS. The crucial energy data must be collected from the point of use and provided to a central Data Management System (DMS). Monitoring, analysis and reporting of energy use is currently an onerous and largely manual process due to the high number of manual data collection points and use of multiple reporting methods. This current system and process of reporting and billing poses a high risk of error and does not effectively support a robust energy planning process. Effective energy monitoring and targeting is difficult to achieve in the absence of granular and detailed profiles from accurate data. The aim is that this project will address the issues outlined above. The project will consist of three main tasks. Firstly, the installation of new meters to transmit to the Data Management System (DMS) Secondly, a bespoke or tailored DMS software package to include energy costing, reporting, monitoring and targeting and the collation, analysis and interpretation of such data. The third task will involve an initial and ongoing technical and advisory support service to increase the effectiveness of the DMS. Services are required, as considered relevant and as the need arises, by individual local authorities as framework purchasers.	
II.1.5) Estimated total value Value excluding VAT: [3000000] Currency: EUR <i>(for framework agreements or dynamic purchasing systems – estimated total maximum value for the entire duration of the framework agreement or dynamic purchasing system)</i>	
II.1.6) Information about lots This contract is divided into lots <input type="radio"/> yes <input checked="" type="radio"/> no Tenders may be submitted for <input type="radio"/> all lots <input type="radio"/> maximum number of lots: <input type="radio"/> one lot only <input type="checkbox"/> Maximum number of lots that may be awarded to one tenderer: <input type="checkbox"/> The contracting authority reserves the right to award contracts combining the following lots or groups of lots:	

Section III: Legal, economic, financial and technical information

III.1) Conditions for participation

<p>III.1.1) Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers List and brief description of conditions:</p>
<p>III.1.2) Economic and financial standing <input type="checkbox"/> Selection criteria as stated in the procurement documents List and brief description of selection criteria: Minimum level(s) of standards possibly required: ²</p>
<p>III.1.3) Technical and professional ability <input type="checkbox"/> Selection criteria as stated in the procurement documents List and brief description of selection criteria: Minimum level(s) of standards possibly required: ²</p>
