PQQ for the services of a Professional Strategic Energy Partner for On-Site Energy Services at Medite Smartply '25

Contract or concession notice – standard regime

1 Buyer

1.1 Buyer

Official name: SmartPly Europe DAC

Legal type of the buyer: Entity with special or exclusive rights

Activity of the contracting authority: General public services

2 Procedure

2.1 Procedure

Title: PQQ for the services of a Professional Strategic Energy Partner for On-Site Energy Services at Medite Smartply '25

Description: The purpose of this questionnaire is to identify suitably qualified service providers working within the energy sector who can meet our requirements and, depending on the number of suitably qualified providers, to draw up a short-list of candidates to be invited to tender for the above contract. It is emphasised that the information requested in this questionnaire is aimed solely at determining the suitability and choice of candidates for entry to the Tendering Stages. MEDITE SMARTPLY requirement is to select one or more suitably qualified service providers working within the energy sector with the view to include them in a tender process. The primary purpose is to form a strategic energy partnership to assist in the decarbonisation of their energy consumption through Innovative energy solutions using on-site energy services. These services will include but not limited to: 1. Strategic Energy Planning (tailored roadmap for the decarbonisation) 2. On-Site Energy Management Assistance 3. Feasibility of On-Site Renewable Energy 4. Team Development + Energy Awareness 5. ISO 50001 Energy Management System (EnMS) Support 6. Review of MS's use of Analytical Energy Monitoring Services 7. Support MS to achieve biomass Boiler efficiency 8. Support and identify Energy Performance Contract (EPC) Projects 9. Liaise and support with Energy Efficiency Obligation Scheme (EEOS) Energy providers MEDITE operates two production lines at its site in Clonmel with a total production capacity of well over 400,000 m3 p.a. The energy demand of the process is currently met by multiple energy sources. Electricity is imported from the grid while heat is produced by two biomass plants (Line 1 steam boilers and Line 2 Energy Centre) as well as a gas-fired thermal oil boiler. MEDITE's energy management system has been ISO 50001 accredited since 2017. SMARTPLY recently upgraded its press technology from a multi-daylight press to a continuous press to increase the total production capacity of the plant to well over 300,000 m3 p.a. The energy demand of the process is currently met by an energy plant which feeds heat directly into a single drum dryer. Production is run 24 hours a day with the line only brought down for maintenance once a month. SMARTPLY's energy management system has been ISO 50001 accredited since 2023. MEDITE SMARTPLY have a long-held commitment to reducing the carbon footprint of their manufacturing processes and have achieved a significant reduction since 2010. The Energy Conservation Measures carried out over this period include LED Lighting Upgrades with smart controls, fan system optimisations, compressed air system optimisations and multiple process and thermal system optimisations. Medite SmartPly's energy programme has delivered significant energy reduction in both plants to date; this has reduced the cost of production of MDF and OSB in the plants allowing the company to be more competitive in the respective markets Medite Smartply requires provision of services of an Energy Services Company to assist with the development of the next step in their energy journey and to provide their expertise in the decarbonisation of their energy consumption through innovative energy solutions. The energy partnership

will be focused on the reduction of both plants' current energy consumption through the implementation of energy conservation measures and on-site renewable energy generation opportunities.

Procedure identifier: 6914d978-bede-4ab6-83f5-8b925b8c3981

Type of procedure: Open

The procedure is accelerated: no

2.1.1 Purpose

Main nature of the contract: Services

Main classification (cpv): 71314000 Energy and related services

Additional classification (cpv): 71314200 Energy-management services

Additional classification (cpv): 71314300 Energy-efficiency consultancy services

2.1.2 Place of performance

Town: Clonmel and Waterford

Country subdivision (NUTS): Dublin (IE061)

Country: Ireland

2.1.3 Value

Estimated value excluding VAT: 300 000 Euro

2.1.4 General information

Legal basis:

Directive 2014/24/EU

5 Lot

5.1 Lot technical ID: LOT-0001

5.1.1 Purpose

Main nature of the contract: Services

Main classification (cpv): 71314000 Energy and related services

Additional classification (cpv): 71314200 Energy-management services

Additional classification (cpv): 71314300 Energy-efficiency consultancy services

5.1.2 Place of performance

Country subdivision (NUTS): Dublin (IE061)

Country: Ireland

Additional information:

5.1.2 Place of performance

Country subdivision (NUTS): Dublin (IE061)

Country: Ireland

Additional information:

5.1.3 Estimated duration

Other duration: Unknown

5.1.5 Value

Estimated value excluding VAT: 300 000 Euro

5.1.6 General information

Reserved participation: Participation is not reserved.

Procurement Project not financed with EU Funds.

The procurement is covered by the Government Procurement Agreement (GPA): yes

5.1.7 Strategic procurement

Aim of strategic procurement: No strategic procurement

5.1.11 Procurement documents

Languages in which the procurement documents are officially available: English

Languages in which the procurement documents (or their parts) are unofficially available: English

Address of the procurement documents: <https://www.etenders.gov.ie/epps/cft/listContractDocuments.do?resourceId=6147081>

5.1.12 Terms of procurement

Terms of submission:

Electronic submission: Required

Address for submission: <https://www.etenders.gov.ie/epps/cft/viewTenders.do?resourceId=6147081>

Languages in which tenders or requests to participate may be submitted: English

Electronic catalogue: Not allowed

Tenderers may submit more than one tender: Not allowed

Deadline for receipt of tenders: 08/08/2025 15:00 +01:00

Deadline until which the tender must remain valid: 90 Day

Information about public opening:

Opening date: 08/08/2025 15:30 +01:00

Place: <https://www.etenders.gov.ie/epps/cft/prepareViewCfTWS.do?resourceId=6147081>

Terms of contract:

The execution of the contract must be performed within the framework of sheltered employment programmes: No

Electronic invoicing: Allowed

Electronic ordering will be used: yes

Electronic payment will be used: yes

5.1.15 Techniques

Framework agreement:

No framework agreement

Information about the dynamic purchasing system:

No dynamic purchase system

5.1.16 Further information, mediation and review

Review organisation: The High Court of Ireland

Organisation providing offline access to the procurement documents: SmartPly Europe DAC

Organisation providing more information on the review procedures: SmartPly Europe DAC

Organisation receiving requests to participate: SmartPly Europe DAC

Organisation processing tenders: SmartPly Europe DAC
