2.1 Procedure

Title: Fully Managed Offsite Service Providing Direct GP Access to AI Cardiac Ultrasound (AICUS) with referral service on behalf of St Vincent's University Hospital

Description: SVUH has recognised the need to improve access to cardiac diagnostics at the primary care level, in line with national policy recommendations supporting GP direct referral to echocardiography. This initiative aligns with the HSE's strategic objectives under Sláintecare to shift appropriate care from acute hospital settings to community-based services, thereby improving patient outcomes and reducing waiting times. Advances in artificial intelligence (AI) applied to cardiac ultrasound imaging present a significant opportunity to enhance access to diagnostic-quality imaging for a greater proportion of the population. This will empower GPs and their patients to proactively assess heart health and assist in ensuring all patients are facilitated in early identification and treatment of established or emerging heart disease. Under appropriate clinical guidance and governance, this has the potential to shift the model of delivery of cardiovascular care to a proactive model, where emerging problems are identified and treated at an earlier stage than has previously been feasible. The purpose of this procurement is to appoint a single service provider to deliver a comprehensive, end-to-end managed service that encompasses all aspects of service delivery, including facilities, staffing, equipment, handling software and AI-enabled software, referral and IT infrastructure, clinical governance, and reporting. The service will enable GPs to refer patients directly for AI-assisted cardiac ultrasound, with results reported back to the referring clinician in a timely and secure manner. The managed service may be handed over to HSE authorities following the end of the term of any contract resulting from this CfT. The Contracting Authority has internally documented the budget for any expenditure on the Services to be covered by the proposed Service Contract to amount to some EUR 667,621.48 (excl. VAT) over the Term, excluding any possible extensions. Tenders which surpass this amount may be rejected. The estimated value specified below in this CfT is a rounded-up figure.

Procedure identifier: d0cb49fe-ef13-41a4-9bdc-a93ffd0e018e

Type of procedure: Open

The procedure is accelerated: no

2.1.1 Purpose

Main nature of the contract: Services

Main classification (cpv): 85323000 Community health services

Additional classification (cpv): 75122000 Administrative healthcare services

Additional classification (cpv): 33123230 Cardiographs

Additional classification (cpv): 33112340 Echocardiographs

Additional classification (cpv): 33112000 Echo, ultrasound and doppler imaging equipment

Additional classification (cpv): 33124120 Diagnostic ultrasound devices

Additional classification (cpv): 33124110 Diagnostic systems

2.1.2 Place of performance

Country subdivision (NUTS): South-East (IE052)

Country: Ireland

2.1.3 Value

Estimated value excluding VAT: 670 000 Euro

2.1.4 General information

Legal basis:

Directive 2014/24/EU

2.1.6 Grounds for exclusion

Sources of grounds for exclusion: European Single Procurement Document (ESPD)

Additional information:

5.1.3 Estimated duration

Duration: 48 Month

5.1.5 Value

Estimated value excluding VAT: 670 000 Euro

5.1.6 General information

Reserved participation: Participation is not reserved.

Procurement Project not financed with EU Funds.

The procurement is covered by the Government Procurement Agreement (GPA): yes

5.1.7 Strategic procurement

Aim of strategic procurement: Innovative purchase

Description: Advances in artificial intelligence (AI) applied to cardiac ultrasound imaging present a significant opportunity to enhance access to diagnostic-quality imaging for a greater proportion of the population. This will empower GPs and their patients to proactively assess heart health and assist in ensuring all patients are facilitated in early identification and treatment of established or emerging heart disease. Under appropriate clinical guidance and governance, this has the potential to shift the model of delivery of cardiovascular care to a proactive model, where emerging problems are identified and treated at an earlier stage than has previously been feasible.

Innovation procurement: The procured works, supplies or services are novel or significantly improved compared to other works, supplies, or services already on the market.

5.1.9 Selection criteria

Sources of selection criteria: Procurement Document

5.1.11 Procurement documents

Languages in which the procurement documents are officially available: English

Languages in which the procurement documents (or their parts) are unofficially available: English

Deadline for requesting additional information: 11/05/2026 12:00 +01:00

Address of the procurement documents: <https://www.etenders.gov.ie/epps/cft/listContractDocuments.do?resourceId=7957846>

5.1.12 Terms of procurement

Terms of submission:

Electronic submission: Required

Address for submission: <https://www.etenders.gov.ie/epps/cft/viewTenders.do?resourceId=7957846>

Languages in which tenders or requests to participate may be submitted: English

Electronic catalogue: Not allowed

Tenderers may submit more than one tender: Not allowed

Deadline for receipt of tenders: 05/06/2026 12:00 +01:00

Duration during which the tender must remain valid: 120 Day

Information about public opening:

Opening date: 05/06/2026 12:30 +01:00

Place: <https://www.etenders.gov.ie/epps/cft/prepareViewCfTWS.do?resourceId=7957846>

Terms of contract:

The execution of the contract must be performed within the framework of sheltered employment programmes: No

Electronic invoicing: Allowed

Electronic ordering will be used: yes

Electronic payment will be used: yes

5.1.15 Techniques

Framework agreement:

No framework agreement

Information about the dynamic purchasing system:

No dynamic purchase system
