5.1.7 Strategic procurement

Aim of strategic procurement: Reduction of environmental impacts

Description: Tenderers are required to outline their proposals for compliance with the Contracting Authority's Green Public Procurement policy under the following headings: a) From 2025, a minimum proportion of construction materials procured by public bodies under new contract arrangements comprise recycled materials (targets as outlined in the Whole of Government Circular Economy Strategy 2026-2028 Accelerating Action 2026). Select material families, manufacturing processes and construction processes which deliver the highest circularity (e.g. Warm Mix Asphalts over Hot Mix Asphalts, Cold mixes over Hot or Warm mixes, cold recycling of pavements, low carbon concrete specified and using recycled / secondary aggregates in unbound applications where appropriate). Maximise recycled content of pavement, civil structures and drainage considering each material and component. Minimise use of non-sustainable, virgin, carbon intensive, non-renewable, polluting and scarce raw materials. b) All tenders for the public procurement to include a requirement for tenderers to specify recommendations and options for the product, when the product or components of the product comes to the end of life, that consider environmental sustainability, including options for reuse, repair, and recycling. c) Demonstrate the use of low carbon construction materials and low carbon cement material. General: # Storage and Collection of Recyclables # Construction Waste Management # Materials Reuse # Approach to fuelling plant – HVO # Approach to energy consumption in site accommodation # Approach to energy consumption of building during construction # Electric Vehicle for Site Engineer / Foreman
