Title: THE PROVISION OF A LEGACY DATA TRANSFER PLATFORM

Description: The Contracting Authority intends to appoint a suitably-qualified and experienced service provider to migrate its legacy Oracle payroll data to a user-friendly portal for staff to access. The successful tenderer's solution will comprise a secure extract of the Contracting Authority's complex legacy payroll schemas and will transform them into an intuitive, dual-access digital portal. Payroll staff are required to retain granular access to data for the purposes of precise pension calculations, while all Hospital staff require access to historical payslips. In this regard, the proposed legacy data transfer platform must allow the Contracting Authority read-only access to its own payroll data on an ongoing basis. The data will be presented in a portal developed by the successful tenderer with a number of standard reports developed as part of the initial project. In addition, the Contracting Authority is interested in exploring the possibility of extracting older legacy payroll data held on an old Alpha server running version 6.2.
