2.1 Procedure

Title: Green Capital Grant - Technical Assessments

Description: IDA Ireland supports eligible client sustainability investments through its Green Capital programme. As part of IDA Ireland's investment approval process for Green Capital projects, an independent technical assessment is required to review the technical basis of each project and to validate or re-quantify its expected environmental impact. To date, technical assessments have been completed by a number of different assessors. As the volume and range of Green Capital investments increase, IDA Ireland requires a more consistent and scalable framework to support these technical reviews. IDA Ireland is seeking to appoint one service provider with the capability to manage and deliver all IDA Green Capital Technical Assessment services covered by this RFT. These will cover pre-investment technical assessments and post-investment Measurement and Verification (M and V) assessments.
