2.1 *Procedure*

Title: Provision of a Case Management and Reporting Solution and Related Services
Description: The focus for the procurement is on the delivery of a solution (referred to as CMS or Case Management System) based on a pre-existing platform/solution that is capable of being readily configured to meet the specific needs of Fiosrú , which will replace the existing systems to provide Fiosrú with a modern platform that not only supports the management of cases but also strengthens the organisation's ability to meet its strategic priorities of dealing with complaints in a timely, efficient and effective manner and promoting confidence in the process for resolving complaints and in investigations. The Case Management System will allow for the generation of key, accurate reports that will inform the organisation of its efficiency but also will identify trends and patterns in complaint types.

5.1.15 *Techniques*

Framework agreement:
Framework agreement, without reopening of competition
Maximum number of participants: 1
Justification for the duration of the framework agreement: Justification for the duration of the framework agreement: The maximum duration of the Framework Agreement will be 10 years. The extended duration for the framework has been selected for several reasons including: (a) There will be significant learning curves and associated developmental work with a new integrated digital platform to support the extensive operational area of case management and administration. This will require the investment of considerable time and effort in developing knowledge, learning and familiarity for successful operation on behalf of the vendor and Fiosrú. (b) The embedded and strategic nature of the proposed solution amounts to a core enterprise system and to replace and transition from such a system in a shorter period would cause significant disruption to the workings of Fiosrú and the delivery of services to members of the public reliant on such services. (c) The financial cost for Fiosrú in designing and implementing the proposed solution will amount to a significant investment and this investment could not be optimised and the necessary return achieved if the replacement of the system and transitioning from same was required in a shorter period and would not achieve value for money on behalf of the taxpayer. Fiosrú confirms that the period of any initial call off contract awarded will be defined at the Request for Tender stage, and/or discussed during the Negotiation Stage (if utilised). Contracts awarded under the Framework Agreement may extend beyond the maximum lifetime of the framework (10 years). The maximum end-to-end duration of any consecutively continuous contracts entered as part of this procurement process will not exceed 12 years.
