Procurement Project not financed with EU Funds.
This procurement is also suitable for small and medium-sized enterprises (SMEs): *yes*

5.1.7 *Strategic procurement*

Aim of strategic procurement: Reduction of environmental impacts

Description: Green Public Procurement (GPP) seeks to procure goods, services and works with a reduced environmental impact throughout their life cycle when compared to goods, services and works with the same primary function that would otherwise be procured. GPP is a voluntary instrument but has a key role to play in the EU's efforts to become a more resource-efficient economy. It can help stimulate a critical mass of demand for more sustainable goods and services which otherwise would be difficult to get onto the market. GPP is, therefore, a strong stimulus for eco-innovation. Each stage in the procurement process offers opportunities to take 'green' issues into account, from defining the subject matter of the contract, through to the selection of the candidates and the award and execution of the contract

Approach to reducing environmental impacts: Other
Green Procurement Criteria: Other Green Public Procurement criteria
