Official name: Pobal

Legal type of the buyer: Body governed by public law

Activity of the contracting authority: General public services

2 Procedure

2.1 Procedure

Title: Provision of Management, Development, Monitoring services of Pobal Networks, and associated services

Description: Pobal seeks to establish a Framework Agreement with a suitably qualified tenderer to meet the requirements for support of the Pobal enterprise network infrastructure and associated services. The Pobal ICT infrastructure is a closely integrated ecosystem setup uniquely to fulfil operational requirements. In recent years, as part of ongoing growth, the Pobal ICT infrastructure support service was consolidated into a single agile Framework Agreement so that expansion could be dynamic and easily managed through a single supplier with flexibility and staffing resources in mind. While Pobal ICT staff are trained and skilled in most of the existing product ranges in use, the external support provided via the existing Framework is a vital component to ensure the efficient running of day-to-day operations. Please upload your response as a ZIP FILE to protect the integrity of the file names.
