Lots 1 and 2, Marine Ecology and Environment - Shellfish and Algae and Marine Ecology and Environment - Finfish, are likely to be the most frequently required services and will, in most cases, be sufficient to provide the technical expertise required. It is estimated that services under Lots 1 and 2 will be required at a frequency of between 5 - 20 times per annum. The other Lots 3 - 9 inclusive relate to more specialised services that may arise on occasion and may be for the purpose of supplementing reports produced in the context of Lots 1 and 2. It should be noted that the successful tenderer may be required to give a presentation of any reports prepared to the Board Members of ALAB.
