

Ireland: Installation services of meteorological equipment

Upgrade of Met Éireann's Satellite Observation Handling System

Contract or concession award notice – standard regime

1 Buyer

1.1 Buyer

Official name: Met Éireann

Legal type of the buyer: Body governed by public law, controlled by a central government authority

Activity of the contracting authority: General public services

2 Procedure

2.1 Procedure

Title: Upgrade of Met Éireann's Satellite Observation Handling System

Description: Met Éireann, Ireland's National Meteorological Service, looks to upgrade its satellite observation handling system. It currently receives satellite meteorology data from the EUMETCast Satellite dissemination service using an antenna-based reception system at its headquarters in Dublin. Met Éireann is also in the process of establishing additional connections to the EUMETCast Terrestrial service at both its headquarters and a second data centre in Dublin, to increase resilience and redundancy in its satellite data supply. The primary aim of this procurement is to upgrade Met Éireann's satellite observation handling system to ensure continuity of data supply, capacity for higher data rates and new data types from next-generation satellites, and to increase the resilience and geo-redundancy of this important data source. This procurement looks to achieve the following: -Obtain system layout and design guidance for an upgraded satellite reception and processing system; -Procure hardware components to facilitate the reception and processing of current and next-generation meteorological satellite observations by the satellite system. The key hardware components shall include two antenna-dish receivers, six DVB units and required cabling. Complete component requirements will be finalised based on the system design agreed upon with the Contractor; -Procure service for the replacement/installation of required hardware for new system; -Procure the required software for the handling and processing of satellite observations on the reception and processing servers, and the installation of this software; -Procure service to test and commission the new system to receive and process data from EUMETCast dissemination services; -Ensure processed data outputted by the new system is compatible with Met Éireann's visualisation and assimilation systems; -Procure maintenance and service plan to cover the new system once operational. With an increase in satellite data rates expected within 2024, the capacity of the supplier to perform the replacement of the system within a short time frame will be an important element.

Procedure identifier: c134213c-c84d-47d4-998d-90fd67060fb5

Previous notice: 9256134a-7788-49b0-831b-d39979062ecb-03

Type of procedure: Open

The procedure is accelerated: no

Justification for the accelerated procedure:

Main features of the procedure:

2.1.1 Purpose

Main nature of the contract: Services

Main classification (cpv): 51215000 Installation services of meteorological equipment

Additional classification (cpv): 38120000 Meteorological instruments

Additional classification (cpv): 32530000 Satellite-related communications equipment

Additional classification (cpv): 35631200 Observation satellites

Additional classification (cpv): 48781000 System management software package

2.1.2 Place of performance

Country subdivision (NUTS): Dublin (IE061)

Country: Ireland

2.1.3 Value

Estimated value excluding VAT: 250 000 Euro

2.1.4 General information

Legal basis:

Directive 2014/24/EU

5 Lot

5.1 Lot technical ID: LOT-0001

Title: Upgrade of Met Éireann's Satellite Observation Handling System

Description: Met Éireann, Ireland's National Meteorological Service, looks to upgrade its satellite observation handling system. 5.1.2 Place of performance

Country subdivision (NUTS): Dublin (IE061)

Country: Ireland

Additional information:

5.1.5 Value

Estimated value excluding VAT: 250 000 Euro

5.1.6 General information

Procurement Project not financed with EU Funds.

The procurement is covered by the Government Procurement Agreement (GPA): yes

5.1.7 Strategic procurement

Aim of strategic procurement: No strategic procurement

5.1.10 Award criteria

Criterion:

Type: Quality

Name:

Description: Technical Requirements and Works (Work Package 1)

Weight (percentage, exact): 40

Criterion:

Type: Quality

Name:

Description: Maintenance and Support (Work Package 2)

Weight (percentage, exact): 20

Criterion:

Type: Quality

Name:

Description: Implementation Plan

Weight (percentage, exact): 10

Criterion:

Type: Price

Name:

Description: Total Cost

Weight (percentage, exact): 30

Description of the method to be used if weighting cannot be expressed by criteria:

Justification for not indicating the weighting of the award criteria:

5.1.15 Techniques

Framework agreement:

No framework agreement

Information about the dynamic purchasing system:

No dynamic purchase system

5.1.16 Further information, mediation and review

Review organisation: The High Court of Ireland

Organisation providing offline access to the procurement documents: Met Eireann

TED eSender: European Dynamics S.A.

6 Results

Value of all contracts awarded in this notice: 177 753 Euro

6.1 Result lot Identifier: LOT-0001

At least one winner was chosen.

6.1.2 Information about winners

Winner:

Official name: CGI Deutschland B.V. AND Co. KG

Tender:

Tender identifier: 000069070

Identifier of lot or group of lots: LOT-0001

Subcontracting: No

Contract information:

Identifier of the contract: 412879

Date on which the winner was chosen: 06/09/2024

Date of the conclusion of the contract: 22/11/2024

The contract is awarded within a framework agreement: no
