2.1 Procedure

Title: Modification Notice for Consultancy services for the South Campshires Flood Protection Project Stage (ii) to Stage (v).

Description: This Standalone Contract Award Notice is acting as a modification notice. Dublin City Council are relying on Article 72 - 1 (b) for the modification to this contract. Article 72.1 (b) allows for additional works, services or supplies by the original contractor that have become necessary and that were not included in the initial procurement where a change of contractor: (i) cannot be made for economic or technical reasons such as requirements of interchangeability or interoperability with existing equipment, services or installations procured under the initial procurement; and (ii) would cause significant inconvenience or substantial duplication of costs for the contracting authority. However, any increase in price shall not exceed 50 % of the value of the original contract. Where several successive modifications are made, that limitation shall apply to the value of each modification. Such consecutive modifications shall not be aimed at circumventing this Directive; URS Ireland Ltd (subsequently acquired by AECOM) was appointed as the Scheme Design Consultant to complete Stage (ii) to (v) (design through to construction) of the South Campshires Flood Protection Project (SCFPP), and to carry out the role of Project Supervisor Design Process (PSDP). In order to complete the scheme the east boundary post and panel flood barrier design and PSDP elements are to be added to AECOM's scope of work. The contract duration is to be extended until completion of the barrier and subsequent provision of the updated Safety File The modification to the contract concerns a flood barrier which must be integrated into the permanent concrete flood walls originally designed by AECOM. The PSDP typically remains the same entity from inception to conclusion of a project. AECOM provided all consultancy services on the SCFPP from Planning Stage through to primary Construction Completion. They are uniquely placed to provide consultancy services for the completion of the east boundary flood barrier. Tendering the scope of work is likely to result in duplication of costs for the contracting authority The original value of this contract was €151,464.40. The value of this modification is €39,280.00. This modification does not exceed 50% of the value of the original contract
