2.1 Procedure

Title: Knockpogue Avenue and Knockfree Avenue Active Travel Improvement Works

Description: Cork City Council is continually seeking to improve sustainable transport infrastructure across the city. The existing infrastructure along Knockpogue Avenue and Knockfree Avenue does not promote safe active travel and prioritises vehicles. At present, footpaths and crossings are in poor condition and there are no cycling lanes. The three existing roundabouts along the route are car focused and provide little pedestrian crossing opportunities. Knockpogue Avenue and Knockfree Avenue are largely residential areas which also host a wide variety of public buildings and amenities. These include the Churchfield Allotments, Sam Allen playing pitches, Parochial Hall, Leisureworld, Farranferris Green, Bride Valley Park, Church of the Resurrection, Credit Union, commercial premises, Presentation Sisters Convent as well as three Schools. It is proposed to connect these facilities and residential areas with continuous pedestrian facilities comprising footpaths, controlled and uncontrolled crossings, high quality cycle infrastructure, public lighting and traffic calming measures along Knockpogue Avenue and Knockfree Avenue along the 1.4 km stretch of road. The removal of the existing roundabouts and replacement with signalised controlled crossings will improve safety and convenience of all vulnerable road users.
